Journal of the Scottish Parliament

Volume 2: 2nd Parliamentary Year, Session 2

(7 May 2004 – 6 May 2005)

SPJ 2.2
Foreword

The Journal is the central, long-term, authoritative record of what the Parliament has done. The Minutes of Proceedings, which are produced for each meeting of the Parliament, do that in an immediate way, while the Journal presents essentially the same material but has the benefit of hindsight to allow any errors and infelicities of presentation to be corrected. Unlike the Official Report, which primarily records what is said, the Minutes of Proceedings, and in the longer term the Journal, provide the authoritative record of what was done.

The Journal is required under Rule 16.3 of Standing Orders and contains, in addition to the Minutes of Proceedings themselves, notice of any Bill introduced*, notice of any instrument or draft instrument or any other document laid before the Parliament; notice of any report of a committee, and any other matter that the Parliament, on a motion of the Parliamentary Bureau, considers should be included.

(* The requirement to include notice of Bills introduced was only added to Rule 16.3 in January 2003. However, such notices have in practice been recorded in the Annex to the Minutes of Proceedings from the outset.)

Note: (DT), which appears throughout the Journal, signifies a decision taken at Decision Time.

3. **Stamping Out Racism in Football**: The Parliament debated S2M-1214 in the name of Bill Butler—That the Parliament condemns all racist incidents in and around football at every level; welcomes the work of “Show Racism the Red Card” in spreading the message amongst players and fans that racial discrimination within the game must be stamped out, and considers that the 42 Scottish Premier League and Football League clubs should sign up to the UEFA Ten Point Plan which sets out a framework for action to challenge racism in football.

The meeting closed at 5.54 pm.
The meeting opened at 9.30 am.

1. **Health Issues:** David McLetchie moved S2M-1326—That the Parliament notes that, despite a substantial increase in funding for the NHS in Scotland, services for patients have not improved over the last five years with fewer in-patient, day case and out-patient treatments occurring and more patients waiting longer for treatment; notes that, despite the best efforts of NHS staff, the current monolithic, centrally-run system of providing healthcare is not delivering the results our people are entitled to expect; recognises that fundamental reform is needed of the NHS in Scotland to achieve the standards of many other health services in European countries and to provide value for money for our taxpayers, and calls on the Scottish Executive to give patients genuine choice over the treatment they receive, establish foundation hospitals within NHSScotland and promote the development of the independent sector.

The Minister for Health and Community Care (Malcolm Chisholm) moved amendment S2M-1326.4 to motion S2M-1326—

Leave out from first “notes” to end and insert—

“...commends staff across the NHS for the quality improvements achieved over the last five years, the new forms of activity such as nurse-led clinics and the progress being made towards a six-month maximum wait for in-patient treatment by the end of 2005; notes that progress has been made at the same time as the working hours of medical and other staff have been brought into line with accepted norms; commends recent initiatives to tackle long out-patient waiting times, and supports further reform of NHSScotland through the development of community health partnerships and managed clinical networks, an increasing emphasis on involving patients and learning from their experiences and a sustained drive on health improvement and the prevention of ill-health in partnership with other agencies.”

Shona Robison moved amendment S2M-1326.2 to motion S2M-1326—

Leave out from “the current” to end and insert—

“...the productivity and efficiency of NHSScotland is declining, and therefore calls on Audit Scotland to undertake a full root-and-branch inquiry into why the performance of NHSScotland has not improved given the substantial increase in funding.”

Carolyn Leckie moved amendment S2M-1326.3 to motion S2M-1326—

Leave out from “, despite a” to end and insert—

“...Scotland’s health and quality of health services are not improving in relation to the wealth available in the fourth biggest economy in the world; further notes that the NHS has insufficient core capacity and insufficient core staffing of establishments that have increased agency, overtime and locum costs; is concerned that NHS boards have substantial deficits and plan unacceptable reductions in service provision and jobs; believes that resources that should be directly spent on patient care are diverted...”
to ever-increasing profits for private consortia, private health providers of all kinds and pharmaceutical companies; notes that the Scottish Executive and NHS boards have repeatedly failed to strategically plan effectively; believes that all forms of privatisation in the NHS such as PFI/PPP and contracting from private providers should be stopped; further believes that the pharmaceutical companies should be brought into public ownership or, in the meantime, at the very least, the Executive should urgently introduce a drug-pricing regime that will control and deflate drug company profits, and believes that capacity and staffing establishments need to be systematically enlarged.”

After debate, amendment S2M-1326.4 was agreed to ((DT) by division: For 71, Against 46, Abstentions 0). As a result amendments S2M-1326.2 and S2M-1326.3 were pre-empted.

The motion, as amended, was then agreed to ((DT) by division: For 69, Against 48, Abstentions 0).

Accordingly the Parliament resolved—That the Parliament commends staff across the NHS for the quality improvements achieved over the last five years, the new forms of activity such as nurse-led clinics and the progress being made towards a six-month maximum wait for in-patient treatment by the end of 2005; notes that progress has been made at the same time as the working hours of medical and other staff have been brought into line with accepted norms; commends recent initiatives to tackle long out-patient waiting times, and supports further reform of NHSScotland through the development of community health partnerships and managed clinical networks, an increasing emphasis on involving patients and learning from their experiences and a sustained drive on health improvement and the prevention of ill-health in partnership with other agencies.

2. Sustainable Management of Scotland’s Marine Environment: The Deputy Minister for Environment and Rural Development (Allan Wilson) moved S2M-1327—That the Parliament recognises the considerable ecological, economic and social importance of Scotland’s marine environment; notes that the seas and oceans are the theme of this year’s United Nations World Environment Day on 5 June; acknowledges the range of initiatives already taken by the Scottish Executive to protect and enhance all of Scotland’s coastline and marine waters, including the Partnership Agreement commitment to consult on the options of establishing a national coastline park and marine national parks; endorses the Executive’s continued input to the United Kingdom marine stewardship report process, to the development of a European marine strategy and to OSPAR; welcomes the strong lead being taken by the Executive to set out a clearer vision and more coherent strategic framework for Scotland’s marine environment in its recent consultation paper, and supports the Executive’s objectives of improving the co-ordination of activity to support, and developing a mechanism for, the future good governance and sustainable management of Scotland’s marine environment.

Roseanna Cunningham moved amendment S2M-1327.1 to motion S2M-1327—
Leave out from “acknowledges” to end and insert—

“supports continued involvement by the Scottish Executive in the development of a European marine strategy and in OSPAR; notes that the regulation and management of Scotland’s coast and seas is fragmented with no coherent regulatory or planning framework and that, despite Scotland’s unique variety of marine wildlife, there is no legal basis for designating and managing areas for nationally important marine habitats and species; believes that there is a need for legislation to deliver integrated management of all aspects of Scotland’s marine environment; welcomes the consultation on the establishment of a national coastline park and marine national park, and, in recognising the importance of improving the co-ordination of activity to support, and develop a mechanism for, the future good governance and sustainable management of Scotland’s marine environment, calls for control of all matters impacting on the marine environment that are currently reserved, including the Crown Estate Commission’s ownership of the seabed, to be devolved to the Scottish Parliament.”

After debate, the amendment was disagreed to ((DT) by division: For 38, Against 79, Abstentions 0).

Alex Johnstone moved amendment S2M-1327.2 to motion S2M-1327—

Leave out from “; endorses” to end and insert—

“, but believes that the consolidation of marine legislation is only desirable if it can be achieved while protecting economic and social stakeholders, particularly in the fishing, aquaculture, energy and tourism sectors.”

After debate, the amendment was disagreed to ((DT) by division: For 18, Against 75, Abstentions 24).

Robin Harper moved amendment S2M-1327.3 to motion S2M-1327—

“starting with its recent consultation paper; notes the need for encouragement and support to community initiatives seeking sustainable local management of marine resources; supports the Executive’s objectives of improving the co-ordination of activity to support, and develop a strategy for, the future good governance and sustainable management of Scotland’s marine environment, and calls on the Executive to, as a first step, establish a marine national park by the end of 2006.”

After debate, the amendment was disagreed to ((DT) by division: For 38, Against 79, Abstentions 0).

The motion was then agreed to ((DT) by division: For 81, Against 2, Abstentions 34).

8. **Motion without Notice:** Mr Rob Gibson moved without notice that, under Rule 8.14.3, the debate be extended by 15 minutes.

Fiona Hyslop moved amendment S2M-1340.1 to motion S2M-1340—

Leave out from “supports” to end and insert—

"regrets the absence of a national skills and lifelong learning strategy from the Scottish Executive as part of the Smart, Successful Scotland policy; recognises the contribution of the Scottish Union Learning Fund, the Scottish Credit and Qualifications Framework, the Determined to Succeed programme and the Modern Apprenticeship programme, but notes that these individual elements by themselves will not deliver the appropriate skills and continued learning requirements for Scotland in the 21st century."

After debate, the amendment was disagreed to ((DT) by division: For 33, Against 75, Abstentions 0).

Murdo Fraser moved amendment S2M-1340.2 to motion S2M-1340—

skills and learning make in helping to stimulate sustainable economic growth and to close the opportunity gap, urges the Scottish Executive to increase the opportunity for school pupils across Scotland to access courses in further education colleges from the age of 14, and congratulates all those involved in the Modern Apprenticeship programme, which has exceeded its target of having 30,000 apprentices in training two years ahead of schedule.

Mr Kenny MacAskill moved amendment S2M-1341.1 to motion S2M-1341—

Leave out from “welcomes” to end and insert—

“notes the success of the festivals and events throughout Scotland over many years, created and contributed to by a variety of organisations, whether central or local government, national or area tourist boards or private or public bodies; notes that the impediment to further success has been a shortage of funds and that the creation of an additional and unnecessary tier of bureaucracy is not the solution, and calls for the abolition of EventScotland and the creation of an event fund for appropriate organisations and bodies to access in order to continue and build upon the success to date.”

After debate, the amendment was disagreed to ((DT) by division: For 43, Against 68, Abstentions 1).

Chris Ballance moved amendment S2M-1341.2 to motion S2M-1341—

Insert at end—

“further notes that EventScotland’s mission statement encompasses environmental as well as other benefits and that the Scottish Executive’s major events strategy,
while mentioning sustainability and affordability, places these items 11th and 16th respectively out of a total of 16 priorities, and calls on the Executive, through bodies such as EventScotland and VisitScotland, to work to ensure that environmental and community benefits are not given a lower priority in the quest to attract prestige events."

After debate, the amendment was disagreed to ((DT) by division: For 12, Against 100, Abstentions 0).

The motion was then agreed to ((DT) by division: For 94, Against 0, Abstentions 18).

Local Television: The Parliament debated S2M-1201 in the name of Linda Fabiani—That the Parliament congratulates Thistle Television, the only local television station in Scotland, on commencing local television broadcasting throughout Lanarkshire with a potential audience of 400,000 local people; welcomes Thistle Television as a valuable addition to local media networks and creative employment, and looks forward to its contribution to local business, culture, education, and community involvement.

1. **Time for Reflection:** His Holiness the Dalai Lama led Time for Reflection.

2. **International Situation:** Mr John Swinney moved S2M-1374—That the Parliament reaffirms its support for the United Nations and its belief in the primacy of international law; believes that the war in Iraq was both illegal and based on a deception as evidenced by the failure to find weapons of mass destruction; believes that as a consequence the world is now a more dangerous place; notes that the unstable security situation and the current rules of engagement within Iraq have led to the coalition forces being seen as an army of occupation, and believes, therefore, that to promote future stability in Iraq any foreign troops on Iraqi soil should be brought under UN command and that current coalition forces should be replaced, on a phased basis, by those drawn from non-Western, preferably Muslim, countries pending the restoration of full sovereignty and the consent of the Iraqi people.

Mr Andy Kerr moved amendment S2M-1374.5 to motion S2M-1374—

Leave out from “reaffirms” to end and insert—

After debate, the amendment was disagreed to ((DT) by division: For 42, Against 74, Abstentions 3).

Phil Gallie moved amendment S2M-1374.2 to motion S2M-1374—

Leave out from the first “and” to end and insert—
"; recognises the importance of maintaining an influential Scottish voice in the UN Security Council through the permanent position allocated to the United Kingdom; notes the serious security situation in Iraq and pays tribute to the courageous, professional and effective manner in which British armed forces are responding to it; condemns malicious attempts in certain quarters to damage the reputation of our armed forces in Iraq by false accusations; supports future requests from British commanders on the ground for further equipment or manpower to enable them to fulfil their task; looks forward to a genuine transfer of power to a representative Iraqi Interim Government on 30 June 2004 to which, as the civil power, the United Kingdom can continue to give aid as required, and reaffirms the goal of helping to create a stable, democratic and prosperous Iraq which can become a beneficial influence within the region as a whole."

After debate, the amendment was disagreed to ((DT) by division: For 18, Against 101, Abstentions 2).

Mr Jim Wallace moved amendment S2M-1374.4 to motion S2M-1374—

Leave out from “reaffirms” to end and insert—

“notes the motion passed by the Parliament on 13 March 2003; reaffirms its support for the United Nations and its belief in the primacy of international law; regrets that Her Majesty's Government saw fit to take this country into the Iraq War without United Nations sanction or credible evidence of a significant threat to the safety of the United Kingdom or of the world community; believes that as a consequence the world is now a more dangerous place; notes with concern the deteriorating security situation in Iraq and the Middle East; believes that progress in Iraq is only possible if the role of the United Nations is expanded and enhanced and the transfer of sovereignty to the Iraqis on 30 June 2004 is real and visible; recalls that when the House of Commons endorsed military action against Saddam Hussein it did so on an understanding that progress on the road map for a peace settlement between Israel and the Palestinians would be a priority for Her Majesty's Government; expresses its disappointment that recent events have made the achievement of a negotiated two-state solution more difficult and less likely; recognises the bravery and professionalism of British armed forces serving in Iraq in difficult and dangerous circumstances; calls upon Her Majesty's Government not to commit any further troops unless requested by United Kingdom commanders in Iraq for the purposes of securing the safety of British forces and the fulfilling of Britain's international obligations towards the people of Iraq and to the United Nations, and further declares that any such troops should remain under United Kingdom operational command and within the area currently under United Kingdom control.”

After debate, the amendment was disagreed to ((DT) by division: For 17, Against 98, Abstentions 5).

Tommy Sheridan moved amendment S2M-1374.3 to motion S2M-1374—

Leave out from “reaffirms” to end and insert—

“believes that all British troops should be withdrawn from Iraq immediately; considers that the decision to invade Iraq was based on lies, deceit and distortion and that President George W Bush and Tony Blair are guilty of wilful deception in relation to weapons of mass destruction, Iraqi links to the September 11 atrocity and Iraq posing an imminent “45-minute” threat to British interests; further considers that the invasion of Iraq was illegal under international law and the continued presence of coalition
tots represents an illegal occupation; believes that the billions of pounds committed to waging war in Iraq should be diverted to agencies like the Red Cross, Red Crescent, Médecins Sans Frontières and others to assist in the rebuilding of Iraq's infrastructure with the consent of the Iraqi people and that peace across the Middle East will be only secured on the basis of a free and viable Palestine requiring the withdrawal of Israel from Palestinian territory; further believes that Scotland's name should be synonymous with peaceful resolution of the world's problems and conflicts, and extends the hand of peace and friendship internationally."

After debate, the amendment was disagreed to (DT) by division: For 8, Against 101, Abstentions 12).

The motion was then disagreed to ((DT) by division: For 38, Against 62, Abstentions 21).

The meeting closed at 6.03 pm.
The meeting opened at 9.30 am.

1. **Economy of the Highlands and Islands:** The Deputy First Minister and Minister for Enterprise and Lifelong Learning (Mr Jim Wallace) moved S2M-1395—That the Parliament endorses the ambition to create a diverse, dynamic and sustainable economy in the Highlands and Islands; congratulates Highlands and Islands Enterprise on the progress it has made with local partners towards realising this ambition, particularly in the areas of telecommunications, research and development and renewable energy; further welcomes the significant investment in critical transport infrastructure in the Highlands and Islands; recognises that serious challenges still lie ahead for the Highlands and Islands economy, not least in terms of sustaining more fragile areas, but believes that these can best be addressed through continuing the approach set out in *A Smart, Successful Scotland*.

Mr Jim Mather moved amendment S2M-1395.2 to motion S2M-1395—

Leave out from “endorses” to end and insert—

"believes that the Highlands and Islands have both the right and the potential to be an economy that is diverse, dynamic and sustainable; commends the progress that has been achieved to date by individual endeavour, quality local services, business resilience and innovation in spite of hurdles which must be overcome in order for that potential to be realised; considers that these hurdles include the threats to primary and acute healthcare, the failure of the Scottish Executive to mount a coherent campaign for the contribution of adequate EU structural funds, the lack of affordable housing, poor transport links, higher fuel costs and an overall failure adequately to address the needs of key industries, and urges the Executive to produce a comprehensive strategy that will overcome these inhibitors and enable the Highlands and Islands to achieve its full potential."

After debate, the amendment was disagreed to ((DT) by division: For 26, Against 65, Abstentions 14).

Murdo Fraser moved amendment S2M-1395.1 to motion S2M-1395—

12. Decision Time: The Parliament took decisions on items 8, 9, 10, and 11 as noted above.

13. Development of Edinburgh Airport: The Parliament debated S2M-1723 in the name of Mrs Margaret Smith—That the Parliament notes the importance of Edinburgh Airport to the local, regional and national economy; further notes projections in Her Majesty’s Government's white paper, *The
Future of Air Transport, that Edinburgh Airport will need a second runway by 2020; is sceptical that these projected passenger number increases will necessarily come to pass; recognises that, while setting aside land for any second runway may be a sensible precaution, it creates planning blight for a number of households and concern for many others and that construction would necessitate relocation of the Royal Highland showground; believes BAA plc must engage with all the local communities around the airport and keep them up to date with development plans at the airport in as open and transparent a fashion as possible; recognises the problem of noise pollution from current flight levels; believes that greater provision of high-speed rail could offer genuine alternatives to short-haul air travel, with the added benefit of freeing up capacity for more long-haul international flights and reducing the need for a second runway; welcomes the development of tram and rail links to Edinburgh Airport and the development of all transport links that will reduce congestion in the area, and considers that Her Majesty's Government, the Scottish Executive, BAA plc and all concerned should help deliver sustainable, long-term development of Edinburgh Airport.

The meeting closed at 5.57 pm.
The meeting opened at 9.30 am.

1. **Centralisation of Health Services:** Mr David Davidson moved S2M-1784—That the Parliament is opposed to the centralisation of health services across Scotland; notes the threat facing many local hospital services including those at Caithness General Hospital, Western Isles Hospital, Lorne and Islands District General Hospital, Belford Hospital, Inverclyde Royal Hospital, the Vale of Leven Hospital, St John’s Hospital, Stobhill Hospital, the Victoria Infirmary, the Western Infirmary, Wishaw General Hospital, Hairmyres Hospital, Glasgow Homeopathic Hospital, Queen Mother’s Hospital, Ayr Hospital, Perth Royal Infirmary, Forth Park Hospital, Queen Margaret Hospital, Stirling Royal Infirmary, Falkirk Royal Infirmary, Monklands Hospital and Balfour Hospital and the additional threat to many community and long-term care hospitals right across Scotland; believes that this is part of a strategy of centralising services at a handful of elite hospitals which has led to uproar from coast to coast over hospital reorganisation plans, and therefore has no confidence in the ability of the Minister for Health and Community Care to devise and implement a strategy for the NHS which serves the needs of local communities throughout Scotland.

The Minister for Health and Community Care (Malcolm Chisholm) moved amendment S2M-1784.3 to motion S2M-1784—

Leave out from “is opposed” to end and insert—

“acknowledges public concern about the extent of proposed centralisation of health services across Scotland; believes that improvement is essential to ensure that all patients have access to both high-quality specialist services and appropriate medical care delivered locally; recognises that NHS boards must pursue clinical strategies which demonstrate regional planning; notes that boundaries are irrelevant to patients; welcomes the determination of the Scottish Executive to develop the planning of healthcare services across NHS board boundaries, within the context of a national strategy; notes the work of the Parliament’s Health Committee on this issue; welcomes the decision of the Minister for Health and Community Care to make no decision on new proposals for service change that come before him until such times as the Expert Advisory Group chaired by Professor David Kerr has reported; notes that this provides an opportunity to debate what services are best provided locally, regionally and nationally and that the presumption in the interim is that services will be maintained unless there are genuine issues of clinical safety, agreed by the Minister; affirms the Executive policy outlined in *Partnership for Care* that the patient must be at the centre of the process, and supports a patient-centred policy that acknowledges safety and quality and that also ensures that as many services as possible are provided locally.”

Shona Robison moved amendment S2M-1784.2 to motion S2M-1784—

Leave out from “is opposed” to end and insert—

“is concerned about the centralisation of health services across Scotland; believes that there must be a clear national strategy for the future structure of the NHS in Scotland; therefore calls on the Scottish Executive to suspend all planned reorganisations while a national strategy is developed involving the public and health professionals, and calls
on the Minister for Health and Community Care to issue instructions to NHS boards to put in place appropriate arrangements to retain services faced with centralisation and reinstate any that have been withdrawn without full public consultation and ministerial approval."

Carolyn Leckie moved amendment S2M-1784.1 to motion S2M-1784—

Leave out from “is opposed” to end and insert—

"notes the succession of profound concerns expressed in debates and motions on the NHS; further notes that these concerns are so serious that calls for a moratorium on NHS closures and centralisations have been made for over a year; notes that communities remain at odds with NHS boards and the Scottish Executive over the future of the NHS, that NHS boards implement Executive policy and budgets, notably the expensive PFI/PPP model of funding for capital projects and have no control of pharmaceutical profits, which represent a massive strain on their budgets, that the application of the working time regulations has neither been planned properly nor budgeted for, that new contracts for medical staff at all levels have not been fully funded and that numbers of graduates in all health professions have been, and are, consistently insufficient to meet the needs of patients or a 21st century NHS; believes that NHS boards should be democratically accountable for their responsibilities but that it is the Executive that sets the structural, strategic, financial and political context that they operate in and regrets the failure of the Executive to acknowledge that responsibility in relation to NHS re-organisation or engage in a debate with the public; further believes that the threat of closure of so many important facilities is entrenching the disengagement between communities and government; believes, therefore, that all reorganisation plans in the NHS should be revisited in a national context so that a wide-ranging and meaningful debate about the security and future of the NHS can take place in Scotland, involving all trade unions and professional organisations who represent NHS workers, community organisations, voluntary organisations, the public at large and academics whilst ensuring that resources and strategies are put in place to protect local services until such a debate has taken place and a national strategy is developed that has the confidence of the Scottish people, and sends its support and solidarity to all campaigners attending the demonstration called by the Scottish Health Campaigns Network in Glasgow this Saturday."

After debate, amendment S2M-1784.3 was agreed to ((DT) by division: For 66, Against 59, Abstentions 0). As a result amendments S2M-1784.2 and S2M-1784.1 were pre-empted.

The motion as amended was then agreed to ((DT) by division: For 66, Against 54, Abstentions 5).

Accordingly the Parliament resolved—That the Parliament acknowledges public concern about the extent of proposed centralisation of health services across Scotland; believes that improvement is essential to ensure that all patients have access to both high-quality specialist services and appropriate medical care delivered locally; recognises that NHS boards must pursue clinical strategies which demonstrate regional planning; notes that boundaries are irrelevant to patients; welcomes the determination of the Scottish Executive to develop the planning of healthcare services across NHS board boundaries, within the context of a national strategy; notes the work of the Parliament’s Health Committee on this issue; welcomes the decision of the Minister for Health and Community Care to make no decision on new proposals for service change that come before him until such times as the..."
Expert Advisory Group chaired by Professor David Kerr has reported; notes that this provides an opportunity to debate what services are best provided locally, regionally and nationally and that the presumption in the interim is that services will be maintained unless there are genuine issues of clinical safety, agreed by the Minister; affirms the Executive policy outlined in Partnership for Care that the patient must be at the centre of the process, and supports a patient-centred policy that acknowledges safety and quality and that also ensures that as many services as possible are provided locally.

15. **Motion without Notice**: Mrs Margaret Ewing moved without notice that, under Rule 8.14.3, the debate be extended by 20 minutes.

The meeting closed at 6.23 pm.

1. **Improving the Quality and Availability of Scotland’s Housing:** The Minister for Communities (Malcolm Chisholm) moved S2M-1898—That the Parliament endorses the Scottish Executive’s commitment to a 30% increase in affordable housing provision by 2007-08 in order to increase the availability of social rented accommodation for homeless people, reduce pressure on waiting lists and help first-time buyers on to the housing ladder; welcomes the introduction of the Housing Quality Standard and the improvements in housing quality that are resulting from substantial community ownership and fuel poverty programmes; recognises the major achievements flowing from devolution for housing in Scotland, such as a modernised and single tenancy in the social rented sector, progressive homelessness legislation and the development of tenant participation and rights, and looks forward to the forthcoming Housing Bill which will raise standards in the private housing sector and strengthen the rights of private sector tenants.

Christine Grahame moved amendment S2M-1898.1 to motion S2M-1898—

Leave out from “endorses” to end and insert—

“recognises that it is a basic human right to have the comfort, security and stability of a warm affordable home and that decent suitable housing is crucial to the individual’s quality of life, whether young or old, and crucial to healthy, thriving communities and the economy at large; notes that, after five years of the Labour/Liberal Democrat coalition, homelessness has increased substantially and that the right to buy has seriously damaged the socially rented sector; therefore calls on the Scottish Executive to revisit its right to buy policy, to utilise the proposed planning and housing legislation to facilitate the provision of affordable housing and to ensure that Scotland’s people have access to the homes they deserve across tenures and that the scourge of rooflessness, bed and breakfast and “sofa surfing” is consigned to history.”

After debate, the amendment was disagreed to ((DT) by division: For 36, Against 79, Abstentions 0).

Bill Aitken moved amendment S2M-1898.2 to motion S2M-1898—

Leave out from “endorses” to end and insert—

“recognises that housing stock transfer to community-based housing associations, a policy introduced by the Conservatives, gives tenants greater rights, responsibilities and input into the way their housing is run; believes that, to improve the standard of public housing for everyone, it is necessary to step up the process of devolving control of housing from local authorities to local community groups; further believes that, to improve the standard and supply of private housing for rent or purchase, a review and modernisation of the Scottish planning system is required to simplify and speed up the development process, and notes with concern the restraint on new housing construction currently imposed in Scotland by the inadequacies of Scottish Water’s sewerage network.”
Shiona Baird moved amendment S2M-1898.4 to motion S2M-1898—

Leave out from “endorses” to end and insert—

“acknowledges the Scottish Executive’s commitment to increase affordable housing provision and the beneficial consequences that this will have for a range of people in Scotland; notes that the welcome increases in the provision of new affordable housing may be offset by a loss of affordable housing stock through the right to buy; requests that the Executive’s review of right to buy in 2006 under the Housing (Scotland) Act 2001 is informed by an open and comprehensive consultation on future options for right to buy; recognises the Executive’s efforts to improve standards in housing quality, especially with the introduction of the housing quality standard, fuel poverty programmes and the forthcoming Housing Bill; further recognises the contribution that poor quality housing and lack of environmental awareness in housing design make to Scotland’s disproportionate ecological footprint and number of winter deaths; supports WWF Scotland in its call for the Executive to set a target for 10,000 new or refurbished sustainable homes by 2012; believes, therefore, that whilst there have been notable achievements flowing from devolution for housing in Scotland, many challenges lie ahead, and calls on the Executive to report at appropriate intervals on its progress on improving the quality and availability of housing.”

After debate, the amendment was disagreed to ((DT) by division: For 37, Against 79, Abstentions 0).

The motion was then agreed to ((DT) by division: For 66, Against 20, Abstentions 30).

Richard Lochhead moved amendment S2M-1899.1 to motion S2M-1899—

Insert at end—

“: further believes that increased emphasis should be placed on the principal economic concerns of the industry; calls on the Scottish Executive to introduce a specific target to promote the use of forestry for biomass; believes in the objective of a greater mix of public, community and private ownership of forestry, and urges ministers to take further steps to promote the use of timber in the construction industry.”

After debate, the amendment was disagreed to ((DT) by division: For 48, Against 67, Abstentions 0).

Alex Fergusson moved amendment S2M-1899.2 to motion S2M-1899—

Insert at end—

“notes, however, that new planting is at an all-time low, that Forestry Commission Scotland and Forest Enterprise Scotland are budgeted to receive £80 million in the next financial year from the taxpayer with the consequential competitive disadvantage to the private sector and that the promised Executive statement on the link between the agricultural and forestry industries following the introduction of the single farm payment has still not been made, and believes that these factors demonstrate that the Executive betrays a lack of understanding of the importance of the private sector to Scotland’s forestry industry.”

After debate, the amendment was disagreed to ((DT) by division: For 17, Against 71, Abstentions 28).

The motion was then agreed to (DT).

public works contracts are fair, open, effective and straightforward to administer and deliver.

Fiona Hyslop moved amendment S2M-1925.2 to motion S2M-1925—

Leave out from “supports” to end and insert—

“acknowledges the publication of the proposed changes to education contained in the Scottish Executive’s *Ambitious, Excellent Schools* but is concerned that many of the proposals are structural, administrative and managerial in nature, depend from a resource perspective on the short-sighted presumption of continued falling school rolls and that, although they may have an impact on the educational experience of a few pupils, they will not provide comprehensive change for all and are centred on a national curriculum review which will deliver only in 2007 after the current generation of pupils has passed though school under Labour ministers of education, and urges the Executive to provide a shared national vision and strategy for education which the nation can contribute to by establishing a National Education Convention to address the persistent under-achievement of 20% of pupils and to provide a pupil-centric education system which can create the conditions for success for this generation of school pupils.”

After debate, the amendment was disagreed to ((DT) by division: For 34, Against 81, Abstentions 0).

Lord James Douglas-Hamilton moved amendment S2M-1925.1 to motion S2M-1925—

Leave out from “supports” to end and insert—

“acknowledges the Scottish Executive’s agenda described in *Ambitious, Excellent Schools*; recognises, however, that, in order to achieve its aim of promoting ambition and encouraging excellence, schools must be granted greater autonomy and that public funds must be allowed to follow the pupil to any school of the parents’ choosing so that parents can exercise genuine choice between schools and not just within schools, encouraging the expansion of popular schools and the upgrading of unsuccessful schools.”
After debate, the amendment was disagreed to ((DT) by division: For 18, Against 95, Abstentions 2).

Ms Rosemary Byrne moved amendment S2M-1925.3 to motion S2M-1925—

Leave out from “supports” to end and insert—

“believes that all Scottish schools should be ambitious, excellent schools and that a first move towards achieving this would be to reduce all non-practical class sizes to 20 and all practical class sizes to 15 or less as part of a national minimum class size policy.”

After debate, the amendment was disagreed to ((DT) by division: For 11, Against 81, Abstentions 23).

The motion was then agreed to ((DT) by division: For 69, Against 20, Abstentions 26).

The meeting closed at 6.05 pm.
The meeting opened at 9.30 am.

Karen Whitefield moved amendment S2M-1940.5 to motion S2M-1940—

Leave out from “agrees” to end and insert –

“supports the vision of a Scotland in which every older person matters and every person beyond working age has a decent quality of life; considers that older people’s lives have been improved through devolution across a wide range of areas such as health, transport, housing, social justice, volunteering, lifelong learning and tackling anti-social behaviour; recognises the range of measures specifically designed to improve the quality of life of all older people in Scotland, including free personal care for the elderly, free off-peak local bus travel, the central heating programme and funding for the Warm Deal; endorses the partnership between the Scottish Executive and Her Majesty’s Government to tackle pensioner poverty, and welcomes the Scottish Executive’s continuing commitment to improving the lives of all of Scotland’s senior citizens.”

After debate, the amendment was disagreed to ((DT) by division: For 16, Against 97, Abstentions 1).

Robert Brown moved amendment S2M-1940.4 to motion S2M-1940—

Leave out from “agrees” to end and insert—

“welcomes the progress made by the Scottish Executive in ensuring a better deal for pensioners through the introduction of free personal care, a national free off-peak bus scheme and a free central heating and insulation scheme; recognises that pensions policy is reserved to the UK Government; believes that the UK Government’s policy on
pensions has failed as nearly 2 million pensioners are missing out on the pension credits that they are entitled to and deserve due to demeaning and unworkable means-testing, and further believes that the state pension must be reformed to ensure that everyone has a decent income in retirement by implementing the Liberal Democrat proposal for a Citizen’s Pension, initially for those over 75, with entitlement based on residency and not National Insurance contributions, restoring the link between earnings and pensions, making older pensioners better off by £25 per week for single pensioners and lifting one million UK pensioners out of means-testing.”

After debate, the amendment was disagreed to ((DT) by division: For 14, Against 99, Abstentions 1).

John Swinburne moved amendment S2M-1940.2 to motion S2M-1940—

Ms Sandra White moved amendment S2M-1943.1 to motion S2M-1943—

expresses its concern, however, at the level of secure funding to agencies working in this area and the lack of suitably-located alternative accommodation for the victims of domestic abuse, particularly those with children; further expresses concern that services for elderly people who are victims of domestic abuse are even more limited, and commends the role of Tayside Domestic Abuse Service, the only service of its kind in Scotland where police and a voluntary organisation work together to support the victims of abuse, as a model of effective partnership working.”

After debate, the amendment was disagreed to ((DT) by division: For 51, Against 62, Abstentions 0).

Margaret Mitchell moved amendment S2M-1943.2 to motion S2M-1943—

Leave out from “acknowledges” to end and insert—

“notes with grave concern the escalating pattern of repeat victimisation highlighting the fact that more and more victims are trapped in abusive situations; acknowledges and welcomes the range of initiatives in this area that have been funded by the Scottish Executive in the last few years, and calls on the Executive to continue to explore different means to raise awareness of the issue generally and to ensure that individuals who are trapped in abusive situations are aware of these support services to help them escape from their abusive circumstances.”

Shiona Baird moved amendment S2M-1943.3 to motion S2M-1943—

Leave out from “recognises” to end and insert—

“notes with concern that, despite Scottish Executive initiatives, domestic abuse continues to be widespread; recognises the recent public opinion poll from Amnesty International showing the level of complacency in society about domestic abuse; believes that tackling domestic abuse will require concerted effort by the Executive including a continued focus on public education and awareness-raising, in particular focusing on education and involving non-perpetrating men, along with extending support for those experiencing domestic abuse; welcomes the Executive’s recent announcement of £6 million funding for children and young people experiencing domestic abuse but calls on the Executive to detail as soon as possible how this funding will be allocated; notes with concern that there is no national funding strategy for domestic abuse services, that funding for Women’s Aid groups throughout Scotland is often on a yearly basis and that the quality of service varies widely according to local authority area and calls on the Executive to put in place a national funding strategy, and recognises that, to tackle domestic abuse effectively, Executive policy-making needs to take into account the interlinkages between all types of gender-based violence and continue to broaden its focus to encompass all forms of violence against women including those in vulnerable minorities.”

After debate, the amendment was disagreed to ((DT) by division: For 37, Against 77, Abstentions 0).

"
“Impact that the dominance of supermarkets can have on Scottish farmers, producers and communities; notes the Office of Fair Trading’s report that fear among suppliers of being delisted by the major supermarkets is preventing them from complaining under the current Supermarket Code of Practice; calls for an independent overseer of the code of practice who will proactively ensure that it is enforced and who will protect complainants from reprisals, and further calls for the code of practice to apply to the whole food supply chain in order to ensure fair trade for all, with particular emphasis on ensuring that the primary producer receives a fair reward for his or her product.”

No. 37 Thursday 9 December 2004

The meeting opened at 9.30 am.

1. Iraq: Frances Curran moved S2M-2132—That the Parliament notes with grave concern that Iraqi civilians have reported the use of napalm and/or phosphorous cluster bombs by US forces in their attack on the city of Fallujah, that the use of such weapons is banned by the United Nations international treaty to which the United Kingdom is a signatory and therefore utterly condemns any failure of the United States to abide by international treaties and the use of such weapons of mass destruction; notes the International Committee of the Red Cross’s recent call to both parties to the conflict in Iraq which stated that it is prohibited to torture participants or to subject them to any form of inhuman, humiliating or degrading treatment and that both sides must do everything possible to help civilians caught up in the fighting obtain the basics of survival such as food, water and health care, notes that there were reliable reports of US forces cutting off water supplies to Fallujah prior to the assault and therefore, along with the Red Cross, believes that “for the parties to this conflict, complying with international humanitarian law is an obligation, not an option”; believes that the war in Iraq was based on deceit and lies and that far from ending terrorism “American actions have instead elevated the authority of the jihadi insurgents and tended to ratify their legitimacy among Muslims” and that most Muslims think that “the occupation of Afghanistan and Iraq has not led to democracy there, but only more chaos and suffering”, as stated by the Defence Science Board, notes that the war has resulted in a humanitarian disaster with as many as 100,000 Iraqis having lost their lives and malnutrition amongst Iraqi children having almost doubled and that British and US troops are seen by most Iraqis as occupiers rather than liberators and therefore believes that it is in the best interests of all for all troops to be brought home for Christmas.

Mr Duncan McNeil moved amendment S2M-2132.6 to motion S2M-2132—

“believes that there should be a peaceful and democratic Iraq and supports all those who are working for world peace and the extension of democracy; recognises the importance of international support for the people of Iraq in their efforts to achieve stability and democracy; reaffirms its support for a route map to peace in the Middle East which delivers a free and viable Palestinian state and security for Israel; affirms the importance of the principles of the rule of law, including respect for human rights and fundamental freedoms, and of democracy, including free and fair elections; believes that the planned withdrawal of British forces should only occur at the first practicable opportunity after the establishment of a democratic government in Iraq; acknowledges that the United Nations should play the leading role in assisting the Iraqi people, in particular in the formation of institutions for representative government; continues to express its gratitude to UK service personnel and their families including those from Scotland, and offers its sincere sympathy to the families of those members of the armed forces who have made the ultimate sacrifice in the service of their country.”

Mr Keith Raffan moved amendment S2M-2132.5 to motion S2M-2132—

Leave out from first “notes” to end and insert—

“deeply regrets that Her Majesty’s Government took the United Kingdom into an unjustified war in Iraq; believes that it would be irresponsible to withdraw British troops until a fully democratically elected Parliament has been established in Iraq and that then a phased withdrawal of troops should begin; believes that the continued presence of multinational forces is essential in order to maintain stability and security prior to the January elections and to avoid even greater loss of life among the civilian population; believes that concerted action must be taken to improve the security situation and to ensure that Iraqi security forces are fully trained and equipped; recognises the bravery and professionalism of our armed forces serving in Iraq, not least those from the Black Watch, who operate in difficult and dangerous circumstances, but believes that no further troops should be committed to Iraq unless requested by United Kingdom commanders for force protection purposes or to fulfil our international obligations towards the people of Iraq; believes that all British forces should serve under British command, and believes that greater United Nations involvement is essential, particularly in the urgently-required humanitarian effort to provide clean water, food and adequate health care and also in economic reconstruction and stabilisation.”

Chris Ballance moved amendment S2M-2132.4 to motion S2M-2132—

Leave out from “it is in the best interests” to end and insert—

“the only way forward for peace and justice in Iraq is for the British and US governments to request the United Nations to bring in a peacekeeping force made up of soldiers from countries which did not support the invasion to replace British and US troops immediately, in order to allow civic society to re-establish itself in Iraq, and calls on the Scottish Executive to launch an inquiry into the physical and mental health of Scottish soldiers returning from Iraq and to prepare for an anticipated increase in combat stress-related conditions by increasing its support for the charity, Combat Stress, and its Hollybush House appeal.”
After debate, amendment S2M-2132.6 was agreed to ((DT) by division: For 63, Against 54, Abstentions 2). As a result amendments S2M-2132.1, S2M-2132.3, S2M-2132.5 and S2M-2132.4 were pre-empted.

The motion, as amended, was agreed to ((DT) by division: For 65, Against 32, Abstentions 22).

Richard Lochhead moved amendment S2M-2129.2 to motion S2M-2129—

Insert at end—

"; recognises the healthy abundance of many stocks vitally important to Scotland, including nephrops, monkfish and the record haddock stocks, and calls for a management regime that provides adequate fishing opportunities for the fleet in light of this encouraging situation; notes that the general state of stocks in Scottish waters demands proper examination in light of up-to-date science and the views of the fishing industry before any further drastic and unworkable management measures are foisted
on the fleet; believes that recent events further illustrate the flaws in a Common Fisheries Policy in which many Scots who support sustainable fishing policies have lost faith, and therefore calls for control over our fishing grounds to be returned to Scotland.”

After debate, the amendment was disagreed to ((DT) by division: For 39, Against 75, Abstentions 6).

“there is an urgent need to reform the NHS in Scotland; calls on the Scottish Executive to place patients’ needs at the centre of the service, to give patients the choice to move anywhere within the NHS, to ensure that NHS capacity is supplemented where necessary by better collaboration and partnership with the independent and voluntary health and care sectors and to move to a system where money follows the patients, and further calls on the Executive to free health professionals and local managers to respond to patient needs on a local basis and to transfer resources away from bureaucracy and into front-line care.”

After debate, the amendment was disagreed to ((DT) by division: For 17, Against 103, Abstentions 2).

Carolyn Leckie moved amendment S2M-2155.4 to motion S2M-2155—

Leave out from “continuing” to end and insert—

“radical continuing action is needed to turn around the poor health of many people in Scotland, most of it poverty-related; further notes that the Scottish Executive needs to do much more if mortality and morbidity are to be drastically reduced, life expectancy increased and health inequalities removed; recognises that the most effective health promotion measure would be the eradication of poverty; recognises that, while Scotland’s people continue to suffer unacceptable levels of ill-health, the NHS needs to have the capacity to treat patients quickly, effectively and as close to their homes as possible; believes that the NHS in Scotland has suffered unprecedented and unsustainable reductions of capacity, particularly through bed cuts, hospital closures, PFI and budget deficits in the last 10 years and that there needs to be an immediate reversal of that trend by securing the NHS as a publicly-owned, publicly-delivered, universal, comprehensive service free at the point of need with the capacity to meet the needs of the population, and considers private health care to be a parasitic drain on NHS assets, resources and staff that merely converts public money into private profit whilst undermining the founding principles of the NHS and threatens its very existence as envisioned by Aneurin Bevan.”

After debate, the amendment was disagreed to ((DT) by division: For 17, Against 82, Abstentions 23).

Dr Jean Turner moved amendment S2M-2155.2 to motion S2M-2155—

Leave out from first “supports” to end and insert—

“welcomes the additional investment on health promotion, including its targeting of heart disease, cancer and stroke; however, urges the Scottish Executive as part of its next steps strategy and to fulfil its aim of returning all patients to the heart of the NHS, to include as part of the strategy a comprehensive review of services dedicated to palliative care and chronic conditions and, further, develop a national programme of diagnostic care, all of which continue to be under-resourced and under-funded, and believes that such a review will save the NHS money by identifying, treating and controlling such conditions in a more structured, preventative and cost-effective manner which will alleviate the consequent pressure on hospital beds and in-patient services.”

After debate, the amendment was disagreed to ((DT) by division: For 40, Against 83, Abstentions 0).
The motion was then agreed to ((DT) by division: For 67, Against 55, Abstentions 1).

11. **Motion without Notice:** Mark Ballard moved without notice that, under Rule 8.14.3, the debate be extended until 6.14 pm.

The motion was agreed to.

1. Proposed Defence Reviews from a Scottish Perspective: Murdo Fraser moved S2M-2165—That the Parliament notes the proposed cuts in manpower from the Royal Air Force, the Royal Navy and Army throughout the United Kingdom; further notes that this would mean the merger of the Royal Scots and the King’s Own Scottish Borderers into one battalion and the amalgamation of all five battalions into a super regiment of five battalions and a reduction in jobs and operations at RAF Lossiemouth and Kinloss; believes that this will have an adverse economic impact on the areas affected by the cuts; further believes that the Scottish regiments are an important part of the tradition and heritage of Scotland; notes that the recent war in Iraq was the latest conflict which showed Scotland’s regiments to be a modern, effective fighting force; believes that, in a time of increased commitments across the globe, our armed forces must have the necessary resources and structure to protect our country, deter aggression and safeguard our vital interests in the wider world, and, accordingly, condemns any cuts and mergers and, in particular, believes that the six existing single battalion Scottish infantry regiments should be retained.

Mr John Home Robertson moved amendment S2M-2165.4 to motion S2M-2165—

Leave out from first “notes” to end and insert—

“acknowledges the importance of Scotland’s substantial contribution to the armed forces of the United Kingdom; notes the social and economic value of the military to communities throughout Scotland; believes that Scotland is rightly proud of the historic and current contribution of Scottish service personnel to the defence of the United Kingdom and to peacekeeping operations worldwide; accepts the need for the military to drive decisions about the structure of efficient armed forces for the modern world, and believes that the traditions, community links and identities of Scotland’s infantry battalions should be maintained in the armed forces of the United Kingdom.”

After debate, the amendment was disagreed to ((DT) by division: For 50, Against 66, Abstentions 11).

Roseanna Cunningham moved amendment S2M-2165.3 to motion S2M-2165—

Insert at end—

“and condemns the fact that these proposals have been developed while Black Watch soldiers and other members of the armed forces are involved in a dangerous conflict in Iraq.”

After debate, the amendment was disagreed to ((DT) by division: For 50, Against 72, Abstentions 5).
Mike Rumbles moved amendment S2M-2165.1 to motion S2M-2165—

Insert at end—

“as the best way to maintain the operational effectiveness of the Scottish infantry.”

After debate, the amendment was agreed to ((DT) by division: For 60, Against 55, Abstentions 12).

The motion, as amended, was then agreed to ((DT) by division: For 61, Against 59, Abstentions 7).

Accordingly the Parliament resolved—That the Parliament notes the proposed cuts in manpower from the Royal Air Force, the Royal Navy and Army throughout the United Kingdom; further notes that this would mean the merger of the Royal Scots and the King’s Own Scottish Borderers into one battalion and the amalgamation of all five battalions into a super regiment of five battalions and a reduction in jobs and operations at RAF Lossiemouth and Kinloss; believes that this will have an adverse economic impact on the areas affected by the cuts; further believes that the Scottish regiments are an important part of the tradition and heritage of Scotland; notes that the recent war in Iraq was the latest conflict which showed Scotland’s regiments to be a modern, effective fighting force; believes that, in a time of increased commitments across the globe, our armed forces must have the necessary resources and structure to protect our country, deter aggression and safeguard our vital interests in the wider world, and, accordingly, condemns any cuts and mergers and, in particular, believes that the six existing single battalion Scottish infantry regiments should be retained as the best way to maintain the operational effectiveness of the Scottish infantry.

2. Justice Issues with Specific Relevance to Reoffending: Miss Annabel Goldie moved S2M-2158—That the Parliament notes the unacceptable rate of reoffending occurring in Scotland today; accepts that there is a place in our criminal justice system for a range of different sentencing options to address this problem but recognises that when a prison sentence is the appropriate disposal then prison is not simply a punishment but is intended to rehabilitate, deter and protect the public; believes that the way to reduce reoffending and subsequently the prison population is to reduce the overall incidence of crime in Scotland, and therefore calls on the Scottish Executive to increase the police presence in our communities to deter and detect crime and to end automatic early release from our prisons to ensure honesty in sentencing.

The Deputy Minister for Justice (Hugh Henry) moved amendment S2M-2158.3 to motion S2M-2158—

Leave out from “unacceptable” to end and insert—

“Criminal Justice Plan’s acknowledgement that the rate of reoffending occurring in Scotland today is unacceptable; agrees that prison should be used where prison is the appropriate punishment but notes that prison is also intended to rehabilitate the
offender, deter the prospective offender and protect the public; agrees that prison must sit within a range of different sentencing options to address reoffending, and therefore notes the increase in police numbers compared to the numbers delivered by the Conservatives, the establishment of the Sentencing Commission to consider a number of issues including early release, and that the recently published Criminal Justice Plan includes measures to tackle Scotland’s high reoffending rates, reduce crime and the fear of crime and strengthen confidence in the country’s criminal justice services.”

Mr Kenny MacAskill moved amendment S2M-2158.2 to motion S2M-2158—

Leave out from “accepts” to end and insert—

“further notes that the causes of crime are manifold, involving social and economic dislocation and family and community fragmentation with drink, drugs and deprivation remaining at the root of much crime and antisocial behaviour; notes with concern that Scotland is heading towards having the highest per capita prison population in western Europe; calls, therefore, for a visible police presence in our communities and for prison to be reserved for serious and dangerous offenders; calls for action to be taken to ensure that community-based disposals are available for minor offences to ensure rehabilitation and best use of public funds; calls, therefore, on the Executive to ensure that it is not only tough on crime but tough on the causes of crime, and recognises that the solutions are multifaceted and require individuals to take responsibility for their own actions and for society to take responsibility for all its communities.”

Colin Fox moved amendment S2M-2158.1 to motion S2M-2158—

Leave out from “the way” to end and insert

“, since 80% of male and female prisoners represent no danger to the public, non-custodial sentences should be given much greater consideration and support; calls on the Scottish Executive to provide more specially-trained community police officers accountable to the communities that they serve in order to increase public confidence in the justice system, and reaffirms that, in cases where serious crimes have been committed, remission should be earned and fully recognised by both the wider community and the prison population itself.”

After debate, amendment S2M-2158.3 was agreed to ((DT) by division: For 93, Against 24, Abstentions 10). As a result, amendments S2M-2158.2 and S2M-2158.1 were pre-empted.

The motion, as amended, was then agreed to ((DT) by division: For 95, Against 19, Abstentions 13).

Accordingly the Parliament resolved—That the Parliament notes the Criminal Justice Plan’s acknowledgement that the rate of reoffending occurring in Scotland today is unacceptable; agrees that prison should be used where prison is the appropriate punishment but notes that prison is also intended to rehabilitate the offender, deter the prospective offender and protect the public; agrees that prison must sit within a range of different sentencing options to address reoffending, and therefore notes the increase in police numbers compared to the numbers delivered by the Conservatives, the establishment of the Sentencing Commission to consider a number of issues including early release, and that the recently published Criminal Justice Plan includes measures to tackle Scotland’s high reoffending rates, reduce crime and the
fear of crime and strengthen confidence in the country's criminal justice services.

Brian Adam moved amendment S2M-2166.2 to motion S2M-2166—

Leave out from “approves” to end and insert—

“further recognises that tourism requires good access and good tourism experiences as well as marketing strategies; expresses concern over the uncertainties introduced by the Tourism Network Scotland (TNS) project, including potential compulsory redundancies, the financial shortfall and lack of a detailed business plan; commends the development of niche marketing strategies and the extension of the seasonal events to ensure that all Scotland benefits from a growing industry; seeks continued commitment to improving access through the Route Development Fund and a strategy for dealing with the consequences of changes to structural funds, and calls on the Scottish Executive, contingent upon production of the TNS business plan, to consider making available transitional funding to address any shortfall due to potential loss of membership income, local authority funding, redundancy costs and the ongoing structural deficit.”

After debate, the amendment was disagreed to ((DT) by division: For 35, Against 92, Abstentions 0).

Mr Jamie McGrigor moved amendment S2M-2166.3 to motion S2M-2166—

Leave out from “approves” to end and insert—

“urges the Scottish Executive to pursue a more ambitious target for growth in light of the aggressive policies being pursued by competitor countries; appreciates that long-term growth can only be achieved by ensuring that the marketing of Scotland in UK and overseas tourism markets is further strengthened and that the businesses that
comprise the tourism and hospitality sectors are freed from the Executive’s policies which are hampering business growth and enterprise throughout Scotland; regrets the uncertainty and consequent damage caused to the industry by the Executive’s handling of the tourism network restructuring process; further regrets the potential loss of local knowledge and expertise that may result from the centralisation of the tourism network, and calls on the Executive to ensure that both the local tourist information centres and funding for the new tourism hubs are adequately protected once the new network commences in April.”

crime are required, and believes that the Executive should consider measures such as restricting access to the purchase of knives, ensuring appropriate programmes are in place to educate young people on the dangers and consequences of carrying and using knives, speedier and effective sentencing for those convicted of knife crime and ensuring that the police have effective powers to deal with those who carry and use knives.

The meeting closed at 6.02 pm.
1. **Make Poverty History**: Nicola Sturgeon moved S2M-2240—that the Parliament expresses sympathy and support for the individuals, families and countries devastated by the effects of the tsunami; congratulates the people of Scotland for their magnificent efforts in collecting money and supplies to help ease the immediate plight of those affected and encourages all MSPs to make a payroll donation of one day’s pay to the appeals; recognises that long-term support is needed to restore the infrastructure of the countries of South East Asia and that Scotland is well placed to assist in this vital work; calls for a summit of Scottish aid agencies and other interested parties to be organised to discuss and co-ordinate such activities; recognises that more than 200,000 people die of preventable causes every week and that more assistance by the richer countries is needed to tackle global poverty, and supports the Make Poverty History campaign which seeks to remind the member countries which make up the G8 of their responsibilities to the rest of the world and to demand that they take action on debt repayments, trade agreements and aid assistance to prevent people dying because of starvation and poverty.

Patricia Ferguson moved amendment S2M-2240.2 to motion S2M-2240—

```
; and believes that such action by the international community must seek to take the final historic step in delivering full debt relief for the debt burdened countries and be based on the principles of fair trade relationships between rich and poor countries, through ensuring that international trade policy is designed to help the poorest countries and the removal of unjust tariffs and trade barriers, and supports the call for a commitment and a timetable for the achievement of the UN target of 0.7% of GDP in overseas development assistance.”
```

Dennis Canavan moved amendment S2M-2240.3 to motion S2M-2240—

Leave out from “calls for a summit” to end and insert—

```

```
“...therefore welcomes the recent meeting between the Scottish Executive, aid agencies and other interested parties; recognises that more than 200,000 people die of preventable causes every week and that more assistance by the richer countries is needed to tackle global poverty; notes that the Make Poverty History campaign is a timely reminder that the richer countries must take more effective action on debt repayments, trade agreements and aid, which are inextricably linked; demands that, if the poorest countries are to be lifted out of abject poverty, the G8 and the European Union (EU) must require governments of countries in receipt of economic and structural aid to do all in their power to ensure its fair and equitable distribution, and reminds the G8 and EU of their responsibility to ensure that their policies are not ultimately rendered ineffective by the actions of national and international organisations which have prospered under the current unfair international trade, debt and aid conditions.”

After debate, the motion was, with the approval of the Parliament, withdrawn. Accordingly, amendments S2M-2240.2, S2M-2240.4 and S2M-2240.3 fell.

After debate, the amendment was disagreed to ((DT) by division: For 36, Against 79, Abstentions 2).

Bill Aitken moved amendment S2M-2265.1 to motion S2M-2265—

“everyday reality of poverty for many people living in our communities; is shocked that eight of the 10 UK local authorities with the lowest male life expectancy are in Scotland, which is wholly unacceptable in the 21st century; further acknowledges that those living in poverty suffer disproportionately from inadequate public services; therefore regrets that the Scottish Executive’s own policies on health, education and crime are serving to entrench the opportunity gap rather than reduce it; believes that concrete policy decisions rather than “objectives and targets” are required to eliminate poverty, and calls on the Executive to give every person in Scotland, regardless of income, the right
to choose the school or hospital of their choice and so end the present two-tier system which deprives those in our poorest communities of quality education and health care.”

The meeting opened at 9.30 am.

1. **Energy Policy:** Alex Johnstone moved S2M-2320—That the Parliament is concerned that the Scottish Executive’s renewable energy policy is unduly biased in favour of wind power to the detriment of other renewable technologies, which has led to widespread local opposition to wind farm developments throughout the country and to higher costs for electricity; furthermore agrees with Allan Wilson MSP, Deputy Minister for Enterprise and Lifelong Learning, that the concerns of security of supply and the need for emission reductions mean that it is time for an open-minded debate into the future of nuclear energy in Scotland; supports John Home Roberts MSP’s proposal for a Cross Party Group on the civil nuclear industry, and calls on the Executive to work in partnership with the UK Government to create a long-term plan for Scotland’s energy needs which balances renewable production with nuclear energy.

The Deputy Minister for Enterprise and Lifelong Learning (Allan Wilson) moved amendment S2M-2320.4 to motion S2M-2320—

Leave out from “is concerned” to end and insert—

“welcomes the Scottish Executive’s study into present and future energy supply and demand in Scotland; supports the Executive’s position of not supporting the further development of nuclear power stations while waste management issues remain unresolved; supports the Executive’s continuing commitment to the development of renewable energy in Scotland, including wind, wave, tidal, solar and biomass power, as a key element of a balanced energy supply portfolio; supports the Executive’s commitment to achieving 40% renewable electricity generation by 2020, and welcomes the Executive’s proposal in the Review of the Climate Change Programme to create an Energy Efficiency Strategy for Scotland.”

Richard Lochhead moved amendment S2M-2320.2 to motion S2M-2320—

Leave out from “is concerned” to end and insert—

“believes that Scotland is well placed to be Europe’s energy powerhouse given our massive energy resources; believes that onshore and offshore wind energy is an important element in a balanced renewables policy but that the development of other renewables must be accelerated; shares the frustration expressed by many others, including Highland Council and the Parliament’s Enterprise and Culture Committee, who are calling for a national strategic framework for wind farm developments; calls on the Scottish Executive to ensure that the UK Government does not introduce any charging scheme for access to the grid that discriminates against renewables in Scotland; believes that no new nuclear power stations should be built in Scotland, and calls for the Scottish Parliament to have control over energy policy and oil and gas revenues.”

Shiona Baird moved amendment S2M-2320.3 to motion S2M-2320—

Leave out from “is concerned” to end and insert—
welcomes the political consensus that climate change is a reality and that alternatives to fossil fuel energy sources must be developed in order to curtail emissions of greenhouse gases; strongly believes that Scotland’s energy future requires a wide range of environmentally-sustainable energy sources; agrees with the Enterprise and Culture Committee’s Inquiry into renewable energy that Scotland needs to develop urgently all forms of renewable energy including marine, on and off-shore wind and solar sources; believes that a much greater focus on energy efficiency across all sectors must be central to any energy policy; notes the International Atomic Energy Agency’s view that nuclear power will be unable to halt climate change and considers that the case for nuclear power in Scotland’s long-term energy future remains completely unconvincing, and calls for more powers over energy policy to be devolved to the Scottish Parliament."

Frances Curran moved amendment S2M-2320.1 to motion S2M-2320—

Leave out from “and to higher” to end and insert—

"; calls on the Executive to state categorically that no new nuclear power stations will be built in Scotland, bring forward the closure dates of all existing nuclear power stations in Scotland, initiate an immediate programme of investment in all aspects of renewable energy and create a publicly-owned, publicly-resourced renewable energy industry."

After debate, amendment S2M-2320.4 was agreed to ((DT) by division: For 64, Against 49, Abstentions 2). As a result, amendments S2M-2320.2, S2M-2320.3 and S2M-2320.1 were pre-empted.

The motion, as amended was then agreed to ((DT) by division: For 64, Against 46, Abstentions 6).

Accordingly the Parliament resolved—That the Parliament welcomes the Scottish Executive’s study into present and future energy supply and demand in Scotland; supports the Executive’s position of not supporting the further development of nuclear power stations while waste management issues remain unresolved; supports the Executive’s continuing commitment to the development of renewable energy in Scotland, including wind, wave, tidal, solar and biomass power, as a key element of a balanced energy supply portfolio; supports the Executive’s commitment to achieving 40% renewable electricity generation by 2020, and welcomes the Executive’s proposal in the Review of the Climate Change Programme to create an Energy Efficiency Strategy for Scotland.

Advisory Group on Infertility Services in Scotland’s (EAGISS) guidance on the provision of infertility services by NHS Scotland; notes that implementation of the guidance by NHS boards has been inconsistent since its launch in February 2000; recognises the extreme distress that infertility causes many couples across Scotland and the need to ensure that all couples that are eligible for treatment are able to access the same standard of service regardless of where they live, and considers that the Executive should set a completion date for the review of the guidance in order to address the inequality of service provision that continues to exist.

Scotland was the only Scottish organisation to reach the finals of the community safety awards section; recognises the significant work done by LGBT Youth Scotland in tackling homophobia and bullying; believes that this work continues to make a crucial difference to the lives of young people in Scotland, and commends this work to all who are working to challenge prejudice in Scotland.

The meeting closed at 6.01 pm.
The meeting opened at 9.30 am.

1. **The Economy**: Jim Mather moved S2M-2361—That the Parliament calls for Scotland to acquire the economic powers currently enjoyed by other similar-sized European nations; recognises that there are many lessons to be learnt from other such nations, many of whom have fewer natural resources than Scotland but are more globally competitive and have far higher standards of living; notes, in particular, that, unlike Scotland, Norway has benefited enormously from its oil and gas resources with living standards that are amongst the highest in the world and an oil fund for future generations that is now worth well over £80 billion; notes that our oil revenues are projected to reach at least £6 billion in 2005 and to continue well into the future, and calls for Scotland to have control over offshore resources as one aspect of an economic strategy designed to make us a much more competitive nation with world-class public services, constantly-improving skills and infrastructure and our own Scottish oil fund to provide a lasting legacy.

The Deputy First Minister and Minister for Enterprise and Lifelong Learning (Mr Jim Wallace) moved amendment S2M-2361.3 to motion S2M-2361—

Leave out from first “calls” to end and insert—

“welcomes the progress that the Scottish Executive is making towards delivering the priorities of Framework for Economic Development in Scotland by working to improve productivity throughout the economy; welcomes, in particular, the record investment in Scotland’s transport and electronic infrastructure, world-class universities and colleges and in the wholesale modernisation of Scotland’s schools; notes that the Financial Times’ fDI European Region of the Future accolade was awarded to Scotland because of this public investment, favourable business environment, level of skills and quality of life; believes that raising Scotland’s rate of economic growth sustainably over the long term requires a focus on improving skills, regenerating communities and supporting companies and others to internationalise and invest in research, and recognises that a drawn out and messy separation from the rest of the UK, and prospectively the EU, would undermine these strengths, play into the hands of Scotland’s competitors and provide Scotland with a lasting legacy of cost, bureaucracy and barriers to trade.”

Murdo Fraser moved amendment S2M-2361.1 to motion S2M-2361—

Leave out from first “calls” to end and insert—

“agrees that fluctuating prices and finite supplies make oil revenue an unreliable source of income; notes that, even if all revenue from North Sea oil had been allocated to Scotland in 2002-03, net borrowing would still have been £4.4 billion; further notes that Scotland’s businesses, who are the core drivers of wealth and economic growth, are demanding concrete action, not constitutional change, and therefore calls on the Scottish Executive to take immediate steps to create a more business-friendly environment by reducing business rates and water charges and cutting red tape, thereby encouraging business development and boosting Scotland’s economic competitiveness.”

Shiona Baird moved amendment S2M-2361.2 to motion S2M-2361—
Leave out from “recognises” to end and insert—

“rejects the notion that Scotland’s independent economic future depends on oil; recognises that an economy founded on fossil-fuel use contributes to climate change and other environmental damage, which in turn threatens Scotland’s economic future; recognises that oil is a finite resource which future generations will not be able to depend on for economic security; further recognises that oil is valuable as a chemical resource which should be increasingly conserved for non-fuel uses; believes that building Scotland’s economy on a foundation of renewable energy technologies, energy efficiency and sustainable transport is the way to achieve real sustainability, and calls on the Scottish Executive to give priority to exploring the concept of a “just transition” policy, as advocated by Scottish trade unions, which sets out a path to transform polluting industries into sustainable enterprises.”

Frances Curran moved amendment S2M-2361.4 to motion S2M-2361—

Leave out from “recognises” to end and insert—

“believes that these powers should include the power to take into public ownership our oil and gas reserves; notes that Norway has benefited enormously from its oil and gas resources with living standards that are amongst the highest in the world; notes that the main reason for this benefit is the interventionist policy of Norway, where the government-owned oil investment fund has now topped £165 billion and its state oil company, Stateoil, has a 51% stake in the two other Norwegian oil companies which brings in 50% of all oil revenues, and believes that a future Scottish government should take into complete public ownership all North Sea oil and gas reserves through a state-owned oil company so that oil revenues can be invested for the benefit of the people of Scotland and not oil company shareholders.”

After debate, amendment S2M-2361.3 was agreed to ((DT) by division: For 66, Against 56, Abstentions 1). As a result, amendments S2M-2361.1, S2M-2361.2, S2M-2361.4 were pre-empted.

The motion, as amended, was then agreed to ((DT) by division: For 67, Against 56, Abstentions 0).

Accordingly, the Parliament resolved—That the Parliament welcomes the progress that the Scottish Executive is making towards delivering the priorities of Framework for Economic Development in Scotland by working to improve productivity throughout the economy; welcomes, in particular, the record investment in Scotland’s transport and electronic infrastructure, world-class universities and colleges and in the wholesale modernisation of Scotland’s schools; notes that the Financial Times’ fDI European Region of the Future accolade was awarded to Scotland because of this public investment, favourable business environment, level of skills and quality of life; believes that raising Scotland’s rate of economic growth sustainably over the long term requires a focus on improving skills, regenerating communities and supporting companies and others to internationalise and invest in research, and recognises that a drawn out and messy separation from the rest of the UK, and prospectively the EU, would undermine these strengths, play into the hands of Scotland’s competitors and provide Scotland with a lasting legacy of cost, bureaucracy and barriers to trade.

12. **Motion without Notice:** Margaret Mitchell moved without notice that, under Rule 8.14.3, the debate be extended until 6.03 pm.

1. **NHS Dentistry:** Shona Robison moved S2M-2549—That the Parliament is concerned about Scotland's poor dental health record; notes that only 3.5% of dentists anticipate increasing their NHS provision in the foreseeable future; recognises that if access to NHS dentistry is not improved, then the commitment to provide universal free oral health assessments by 2007 may not be met, and therefore believes that, in order to meet this pledge and safeguard the future of NHS dentistry, the Scottish Executive must provide incentives for dentists to undertake more preventive work including a significant increase in the fee level for oral health assessments, assist dentists more with infrastructure costs in return for greater NHS commitment, reduce bureaucracy and simplify the current fee scale and expand the number of NHS salaried dentists and address dental workforce shortages by increasing the number of dental undergraduates and expanding the role and number of professionals complementary to dentistry.

The Deputy Minister for Health and Community Care (Rhona Brankin) moved amendment S2M-2549.1 to motion S2M-2549—

Leave out from “is concerned” to end and insert—

“recognises the need to tackle Scotland’s poor oral health and improve access to NHS dental services; acknowledges the actions already taken by the Scottish Executive to improve oral health and to recruit and retain dental professionals in the NHS; recognises that further work needs to be undertaken to respond to the outcome of the consultations, Towards Better Oral Health in Children and Modernising NHS Dental Services in Scotland; notes that the Executive’s response to the consultations, to be published very shortly, will include measures to address the Partnership Agreement commitments on workforce numbers, training and prevention including free dental checks and will identify the resources needed, and calls on NHS boards, higher education institutions, local authorities, the British Dental Association and the wider professions to engage positively with the Executive after publication to bring early and sustained benefits to the oral health of people in Scotland.”

Nanette Milne moved amendment S2M-2549.2 to motion S2M-2549—

Leave out from “recognises” to end and insert—

“and believes that in order to safeguard the future of NHS dentistry the Scottish Executive should move from fee-based remuneration to capitation-based funding in order to remove incentives for over-treatment and promote preventive measures, expand the role and number of professionals complementary to dentistry in order to free up time for dentists to focus on continuing care, reduce bureaucracy and continue with the development of outreach centres to encourage students to remain in Scotland after graduation.”

After debate, amendment 2549.1 was agreed to ((DT) by division: For 72, Against 47, Abstentions 0). As a result, amendment 2549.2 was pre-empted.
The motion, as amended, was then agreed to ((DT) by division: For 73, Against 16, Abstentions 30).

Accordingly, the Parliament resolved—that the Parliament recognises the need to tackle Scotland’s poor oral health and improve access to NHS dental services; acknowledges the actions already taken by the Scottish Executive to improve oral health and to recruit and retain dental professionals in the NHS; recognises that further work needs to be undertaken to respond to the outcome of the consultations, Towards Better Oral Health in Children and Modernising NHS Dental Services in Scotland; notes that the Executive’s response to the consultations, to be published very shortly, will include measures to address the Partnership Agreement commitments on workforce numbers, training and prevention including free dental checks and will identify the resources needed, and calls on NHS boards, higher education institutions, local authorities, the British Dental Association and the wider professions to engage positively with the Executive after publication to bring early and sustained benefits to the oral health of people in Scotland.

Early Years Education and Childcare: Fiona Hyslop moved S2M-2547—That the Parliament recognises the vital role of early years education and the importance of quality, accessible childcare in stimulating children’s development and supporting working families in particular and the wider economy and society generally; notes with concern the delay in the publication of the national strategy for early years with provision for a national settlement for nursery nurses from the Scottish Executive; supports the immediate extension of free nursery education for three and four-year-olds to a full half day from the current part-time provision and the extension of “nurture groups” across Scotland for vulnerable young pupils, and recognises, however, that in order for Scotland to be able to shape and deliver comprehensive early education and childcare the Scottish government needs to have powers over tax and benefits in order to provide a universal entitlement to emulate the provision of Scandinavian countries who spend four times the proportion of their GDP in support of children in the early years as Scotland.

The Deputy Minister for Education and Young People (Euan Robson) moved amendment S2M-2547.1 to motion S2M-2547—

Leave out from “notes” to end and insert—

“supports the Scottish Executive’s aim to provide more flexible and available childcare to all; acknowledges the significant successes already achieved through the Scottish Childcare Strategy, including making available free part-time pre-school education for every three and four-year-old, establishing a coherent regulatory framework under the Care Commission and expanding childcare provision across all sectors, and endorses the Executive’s commitment to universal early education and childcare services with specific support to disadvantaged groups, including those for whom lack of childcare is a barrier to employment, education or training.”

After debate, the amendment was agreed to ((DT) by division: For 64, Against 32, Abstentions 23).
Bill Aitken moved amendment S2M-2547.2 to motion S2M-2547—

Leave out from “working families” to end and insert—

“...parents who choose to work; notes that both the Scottish Executive and the Scottish Parliament’s Education Committee are currently reviewing early years provision, including issues of recruitment and retention of staff and pay and conditions, and believes that parents must have the flexibility to choose the form of nursery education best suited to their family circumstances and that a nursery voucher that can be topped up represents the best way to achieve this.”

After debate, the amendment was disagreed to ((DT) by division: For 16, Against 101, Abstentions 1).

Rosemary Byrne moved amendment S2M-2547.3 to motion S2M-2547—

Leave out from “in particular” to end and insert—

“...calls for a recognition of the professionalism of nursery nurses and the immediate establishment of national pay and conditions commensurate with that professionalism; further calls for an immediate response from the Minister for Education and Young People regarding the delay in the publication of the national strategy for early years; demands a system of accessible childcare and nursery education publicly-funded and free at the point of need for all families; supports the wisdom of early intervention in the early stages of education and the implementation of developmental needs provision rather than formal learning, and calls for appropriate support for children with special educational needs and social, emotional and behavioural difficulties and also appropriate support for parents and carers of these children.”

After debate, the amendment was disagreed to ((DT) by division: For 40, Against 78, Abstentions 1).

The motion, as amended, was then agreed to to ((DT) by division: For 67, Against 0, Abstentions 52).

Accordingly, the Parliament resolved—That the Parliament recognises the vital role of early years education and the importance of quality, accessible childcare in stimulating children’s development and supporting working families in particular and the wider economy and society generally; supports the Scottish Executive’s aim to provide more flexible and available childcare to all; acknowledges the significant successes already achieved through the Scottish Childcare Strategy, including making available free part-time pre-school education for every three and four-year-old, establishing a coherent regulatory framework under the Care Commission and expanding childcare provision across all sectors, and endorses the Executive’s commitment to universal early education and childcare services with specific support to disadvantaged groups, including those for whom lack of childcare is a barrier to employment, education or training.

Leave out from “acknowledges” to end and insert—

“and regrets that this investment is not being matched with other credible measures by the Scottish Executive that could genuinely and incrementally increase sustainable economic growth in Scotland.”

After debate, the amendment was disagreed to ((DT) by division: For 26, Against 83, Abstentions 10).

Brian Monteith moved amendment S2M-2554.2 to motion S2M-2554—

Leave out from “welcomes” to end and insert—

“recognises the substantial level of capital invested in infrastructure in Scotland by successive Conservative governments between 1979 and 1997 which included, amongst many projects, the M8 motorway extension, the Edinburgh City Bypass, upgrade of the A74 to motorway status, the first M77 motorway section, dualling of the A90 and key sections of the A96, the Dunblane by-pass, dualling of sections of the A9, dualling of the A1 between Edinburgh and Haddington, the St James Interchange at Glasgow Airport, dualling of the northern stretch of the A737, dualling of the A78 to bypass Troon and Loans, dualling of the A71 from Irvine to Kilmarnock, the Dornoch Firth Bridge, the Kessock Bridge, the Kylesku Bridge, reopening of the Edinburgh to Bathgate railway line, electrification of the East Coast main line, electrification of the North Berwick spur line, electrification of the Glasgow to Ayr railway line, the Skye Bridge development, a new ferry service between Campbeltown and Northern Ireland, a new air traffic control centre, the redevelopment of Aberdeen Airport, £8 billion invested in council houses across Scotland, the New Life for Urban Scotland programme, Western Isles Hospital, Caithness Hospital, medicine for the elderly wards and a day hospital at Perth Royal Infirmary, a neo-natal intensive care ward and a midwife-led unit at Forth Park Hospital, a new phase of the Queen Margaret Hospital in Dunfermline, St John’s Hospital at Livingston, Ayr Hospital, major refurbishment to Stirling Royal Infirmary, major refurbishment to Falkirk Royal Infirmary, HM Prison Shotts Phase 2, Peterhead Power Station, Torness Power Station, Greengairs Power
Station, the Scottish National Gallery of Modern Art, the Scottish Exhibition and Conference Centre, the Edinburgh Festival Theatre, the Edinburgh International Conference Centre, the Dean Gallery, the Royal Museum of Scotland extension and renovation of the National Library of Scotland; recalls that many of the infrastructure achievements that the Scottish Executive now takes credit for, such as seven new hospital developments, namely the Edinburgh Royal Infirmary, Wishaw General Hospital, Hairmyres Hospital, East Ayrshire Community Hospital, Glasgow Royal Infirmary extension, the Western General Hospital extension and Southern Isles Community Hospital, were in fact part of the Conservative Scottish Office programme; reminds members of the Parliament that the Scottish Office between 1997 and 1999 postponed further infrastructure projects by introducing a moratorium on roads spending for two years which delayed initiatives such as the A8000 upgrade to dual carriageway, the new Kincardine Bridge, the Kincardine Bypass and the M74 extension; is pleased to celebrate this year the 10th anniversary of the National Lottery which brought a new and very substantial income stream for capital investment in public buildings that would otherwise not have been built or renovated; notes that increases in spending by the Executive have not led to improvements in service delivery; believes that the Executive has thus far demonstrated that it has a poor record of spending taxpayers’ money wisely; welcomes the fact that the Executive is open to working across public and private sectors in order to ensure that we have the modern infrastructure Scotland needs, and believes, however, that in order to support economic growth the Executive needs to cut business rates to at least the same poundage as in England, invest more significantly in roads and transport, open up Scottish Water to full competition and greater investment through privatisation and cut red tape.”

After debate, the amendment was disagreed to ((DT) by division: For 15, Against 103, Abstentions 1).

The motion was then agreed to ((DT) by division: For 65, Against 51, Abstentions 3).

programme, the commitment to ensure two hours of physical education (PE) for schoolchildren every week and the new network of sports facilities across Scotland; believes that developing a competitive spirit in schools and sports clubs and encouraging young people to have a desire to win, whilst concentrating on self-improvement, is central to sporting endeavour; further believes that it is the role of government to provide opportunities for everyone to be physically active for life from a young age; considers that the Scottish Executive, sportscotland, local authorities and other interested organisations should promote sporting competition by establishing a biannual Scottish mini-Olympics for young people at school in which 32 teams, one from every local authority area, would compete against each other in various Olympic-style events, such as track and field and swimming; further considers that Scotland’s towns and cities could bid for the right to host the Scottish mini-Olympics every two years, whilst allowing Glasgow to be the first host; further considers that local businesses and community leaders could back their local team at these mini-Olympics through local hero bursary schemes and general support, and believes that bringing back retired PE teachers could help in the training of young Scots in sport, particularly in the run-up to the proposed mini-Olympics.

competitively bid for funding streams and to reassess the impact of, and support given to, its social inclusion and mainstreaming agenda to ensure that all children can get the most out of their time in school education.”

After debate, amendment S2M-2597.3 was agreed to ((DT) by division: For 63, Against 19, Abstentions 25). As a result, amendments S2M-2597.1 and S2M-2597.2 were pre-empted.

5. Decision Time: The Parliament took decisions on items 2 and 3 as noted above.

6. Quality of Fife’s Train Services: The Parliament debated S2M-2482 in the name of Scott Barrie—That the Parliament notes the importance of the rail network to an efficient public transport system in east central Scotland; notes previous debates in the Parliament that highlighted the poor service offered to Fifers by train operators in respect of reliability and punctuality; regrets that the improvements made to the rail infrastructure in Fife, including longer platforms and increased capacity, are still not meeting the level of demand; notes that the service has failed to improve under the new franchisee; believes that the current level of train cancellation and late running is unacceptable, and further believes that First ScotRail, in particular, must ensure that it improves its performance so that a viable alternative to car usage is available.
The meeting closed at 5.57 pm.
The meeting opened at 9.15 am.

1. **Council Tax:** Alasdair Morgan moved S2M-2693—That the Parliament notes that the council tax has increased by 55% since 1997; further notes that the council tax is a regressive form of local taxation which penalises those on low incomes and pensioners and is overwhelmingly rejected by the people of Scotland and that the revaluation of the council tax in Wales has resulted in more than one-third of properties moving up by one band or more, and agrees that there should be no revaluation of properties in Scotland and that the unfair council tax should be abolished and replaced by a fair system of local taxation.

The Deputy Minister for Finance and Public Service Reform (Tavish Scott) moved amendment S2M-2693.1 to motion S2M-2693—

Leave out from first “council tax” to end and insert—

“Scottish Executive has established the independent inquiry into local government finance consistent with the Partnership Agreement of May 2003; notes that, because of the ongoing inquiry, there are no plans for a council tax revaluation in Scotland; notes that the Labour Party has submitted clear and detailed proposals to support changes to the council tax and that the Liberal Democrats have submitted clear and detailed proposals to support a local income tax, and therefore encourages all parties and others to make submissions to the inquiry.”

Mr Brian Monteith moved amendment S2M-2693.2 to motion S2M-2693—

Leave out from “; further notes” to end and insert—

“and that it is this large rise, and not the tax itself, that has made the cost of local council services a greater political priority and a punishing burden for so many Scottish households; believes that to offer a sustainable and fair solution, therefore, a complete review is required of local authority responsibilities and direct payment of some of these by the Scottish Executive so that council tax may be substantially cut; notes that only the Conservatives are offering such a seismic shift by transferring the full cost of schools to the Executive’s Education Department which could result in a 35%, or £384, reduction in Band D council tax for every household, while proposals for a local income tax would maintain the existing total tax take and would only change who pays what amount, and believes that Labour’s proposal for the introduction of a new top band will place a disproportionate burden on a small minority, while a new lower band will be of major benefit to the Treasury through reduced council tax benefit payments.”

After debate, amendment S2M-2693.1 was agreed to ((DT) by division: For 65, Against 39, Abstentions 7). As a result amendment S2M-2693.2 was preempted.

The motion, as amended, was then agreed to ((DT) by division: For 65, Against 20, Abstentions 26).
Accordingly, the Parliament resolved—That the Parliament notes that the Scottish Executive has established the independent inquiry into local government finance consistent with the Partnership Agreement of May 2003; notes that, because of the ongoing inquiry, there are no plans for a council tax revaluation in Scotland; notes that the Labour Party has submitted clear and detailed proposals to support changes to the council tax and that the Liberal Democrats have submitted clear and detailed proposals to support a local income tax, and therefore encourages all parties and others to make submissions to the inquiry.

2. Nuclear Power: Richard Lochhead moved S2M-2691—That the Parliament notes that the Committee on Radioactive Waste Management (CoRWM) is due to make its final report in July 2006; notes that the decision on where to locate sites for the long-term storage of nuclear waste is likely to be taken shortly after that date and that a number of potential sites in Scotland have been identified; notes that the UK Government is clearing the way to build new nuclear power stations; further notes that the UK Government has agreed to accept and store nuclear waste from overseas; agrees that only the Scottish Parliament can take the decision to locate any sites in Scotland for the long-term storage of nuclear waste, and rejects the need for a new nuclear power station in Scotland.

The Deputy Minister for Enterprise and Lifelong Learning (Allan Wilson) moved amendment S2M-2691.2 to motion S2M-2691—

Leave out from “that the Committee” to end and insert—

“the work of the Committee on Radioactive Waste Management; welcomes the Scottish Executive’s study into present and future energy supply and demand in Scotland; endorses the Executive’s position of not supporting the further development of nuclear power stations while waste management issues remain unresolved; supports the Executive’s continuing commitment to the development of renewable energy in Scotland, including wind, wave, tidal, solar, hydrogen, biofuels and biomass power, as a key element of a balanced energy supply portfolio; supports the Executive’s commitment to achieving 40% renewable electricity generation by 2020, and welcomes the ongoing review of the Scottish Climate Change Programme and the priority being given to strengthening the contribution of energy efficiency and renewables to reduce carbon dioxide emissions.”

Alex Johnstone moved amendment S2M-2691.1 to motion S2M-2691—

Leave out from first “UK Government” to end and insert—

“House of Commons Scottish Affairs Select Committee concluded in its report, Meeting Scotland’s Future Energy Needs, that it is ‘vital that decisions are taken now, to obviate the possibility of, quite literally, the lights going out in Scotland in the foreseeable future’; further notes that nuclear power is currently estimated to save the United Kingdom annual emissions of eight million tonnes, and therefore urges the Scottish Executive to support any plans brought forward by the UK Government to replace current nuclear power stations with new nuclear power stations in order to protect our energy supply, protect existing jobs and reduce our CO₂ emissions.”

Chris Ballance moved amendment S2M-2691.3 to motion S2M-2691—
After debate, amendment S2M-2691.2 was agreed to ((DT) by division: For 65, Against 43, Abstentions 3). As a result amendments S2M-2691.1 and 2691.3 were pre-empted.

The motion, as amended, was then agreed to ((DT) by division: For 65, Against 43, Abstentions 3).

Accordingly, the Parliament resolved—That the Parliament notes the work of the Committee on Radioactive Waste Management; welcomes the Scottish Executive’s study into present and future energy supply and demand in Scotland; endorses the Executive’s position of not supporting the further development of nuclear power stations while waste management issues remain unresolved; supports the Executive’s continuing commitment to the development of renewable energy in Scotland, including wind, wave, tidal, solar, hydrogen, biofuels and biomass power, as a key element of a balanced energy supply portfolio; supports the Executive’s commitment to achieving 40% renewable electricity generation by 2020, and welcomes the ongoing review of the Scottish Climate Change Programme and the priority being given to strengthening the contribution of energy efficiency and renewables to reduce carbon dioxide emissions.

future skills improvement; recognises that the sustained success of the Modern Apprenticeship scheme and record investment in Scotland’s colleges have contributed significantly to improved skill levels; welcomes the Executive’s commitment to improving adult literacy and numeracy rates and to better preparing Scotland’s young people for the world of work through enterprise education and greater vocational learning opportunities, and believes that a continued focus on skills can help maintain Scotland’s position as European Region of the Future.

Jim Mather moved amendment S2M-2694.1 to motion S2M-2694—

Leave out from “which has helped” to end and insert—

“and encourages the Executive to embark on a twofold strategy of radically improving the competitiveness of Scotland as recorded annually by IMD of Switzerland and increasingly matching the ability of other parts of the developed world to retain and attract skilled people and the type of investment that capitalises on existing skills and develops yet more skills here in Scotland.”

After debate, the amendment was disagreed to ((DT) by division: For 20, Against 82, Abstentions 9).

Murdo Fraser moved amendment S2M-2694.2 to motion S2M-2694—

Leave out from “supports” to end and insert—

“notes the success of the Modern Apprenticeship scheme initiated in the mid-1990s by a Conservative government which has trained over 75,000 people in Scotland and which is currently providing skills training for over 31,000; notes with disappointment figures from the Futureskills Scotland 2004 report which show that 29% of applicants to skill shortage posts lacked basic literacy skills and 24% lacked basic numeracy skills; notes with concern findings from the same report that between 40 and 50% of employers who have recruited school leavers report that they are not well-prepared for work, and calls for more effective school-college partnerships with a view to improving the skills base of the economy.”

the Institute has followed; believes that the levels of expertise and knowledge available within Hannah are identical to those that the Executive seeks to recruit under its Fresh Talent initiative and retain, if its much-used phrase of “a smart, successful Scotland” has any meaning, and considers that the Ministers for Enterprise, Health and Rural Affairs should come together to secure the future of this quality Scottish resource.

Miss Annabel Goldie moved amendment S2M-2736.1 to motion S2M-2736—

“notes the unacceptable rate of reoffending occurring in Scotland today; accepts that there is a place in our criminal justice system for a range of different sentencing options to address this problem but recognises that when a prison sentence is the appropriate disposal, then prison is not simply a punishment but is intended to rehabilitate, deter and protect the public; believes that the way to reduce reoffending and subsequently the prison population is to reduce the overall incidence of crime in Scotland, and therefore calls on the Scottish Executive to increase the police presence in our communities to deter and detect crime and to end automatic early release from our prisons to ensure honesty in sentencing”.

6. Supporting Local Producers: The Parliament debated S2M-2726 in the name of Shiona Baird—That the Parliament notes the launch of the new farmers’ market at Stonehaven as a welcome addition to the many thriving markets in the north east of Scotland; acknowledges the continuing popularity and growth of farmers’ markets, “box” schemes and community-supported
agriculture initiatives across the whole of Scotland; recognises that many consumers are becoming increasingly selective about what they eat and are now consciously rejecting mass-produced, remotely-sourced food in favour of fresh seasonal produce that is grown or reared locally; congratulates local farmers and producers for establishing a range of enterprising initiatives to respond to growing consumer demand for such produce in their areas, and considers that shoppers should actively support Stonehaven’s initiative and other examples of sustainable local enterprise which benefit the local producer, the local consumer and the local economy.

The meeting closed at 5.01 pm.
