On behalf of Aberdeenshire H&SC Partnership I have set out written views in relation to the inquiry remit.

1. Do you support the Bill? – **Yes we support the bill.**

2. Do you think the Bill (if enacted) would achieve its aim of increasing the number of organs and tissue made available for transplantation in Scotland? Please provide an explanation for your answer. – **Yes, the bill should increase the number of donations-strong evidence from other countries which have moved to an opt out system.**

3. Do you support the proposal of appointing a proxy? Please provide an explanation for your answer – **Yes we support the proxy concept-adults with relatives who may be opposed to transplantation may find this a way to have their wish to have their organs made available fulfilled and not blocked by relatives with different views.**

4. Do you have any comments on the role of “authorised investigating persons” as provided for in the Bill? - **The role of authorised investigating officer makes sense as provided for in the bill.**

5. Is there anything in the Bill you would change? If yes, please provide more details. – **There is nothing in the bill we would change.**

Yours sincerely

DR ROBERT W LIDDELL
