Would you like to comment on the wider issue of protections for those in society who may have concerns about same sex marriage?

I believe that it shouldn’t matter about someone’s sexuality. People and society has changed. And I still do believe that some people in this society are to obsessed about what other people are getting up to in there bedrooms they have forgotten that
people are human beings regardless to whom they fall in love with, and should be credited with the same security and future as their counter parts. People are scared of change and find it hard to embrace change. But for our human race to evolve we need it!

Would you like to comment on the wider issue of freedom of speech?

Lgbt are tax paying people and are part of this society. It's time this society see's this. I hope soon we can all come together and people don't have any opinion about how someone else lives their life's. it just becomes part of the normal. Gay people have come so far in even a decade. Lets use be free of the stigma that comes with being different. You can lose your whole family for being gay. Lets start bringing them back together again and heel this rift!
