SUPPLEMENTARY SUBMISSION FROM KEN MACLENNAN

Use of Capitalisation - Recommendation of EOC 2001

Once again the Scottish Government is not complying with what it said it would do. I have forgotten the number of times that this has been raised with the Equalities Unit and individual Departments. It is just not good enough. I would appreciate it if you would pass this on to the Committee as evidence for its Inquiry. The documents in this site all use lower case. Link is:
