

PE1564/A

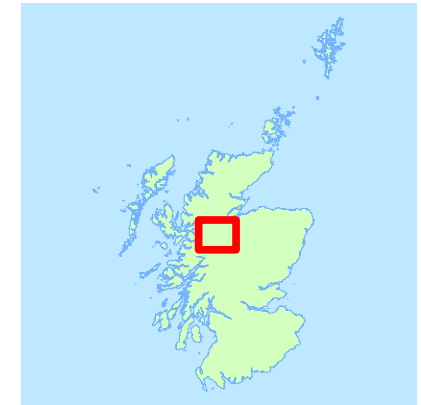

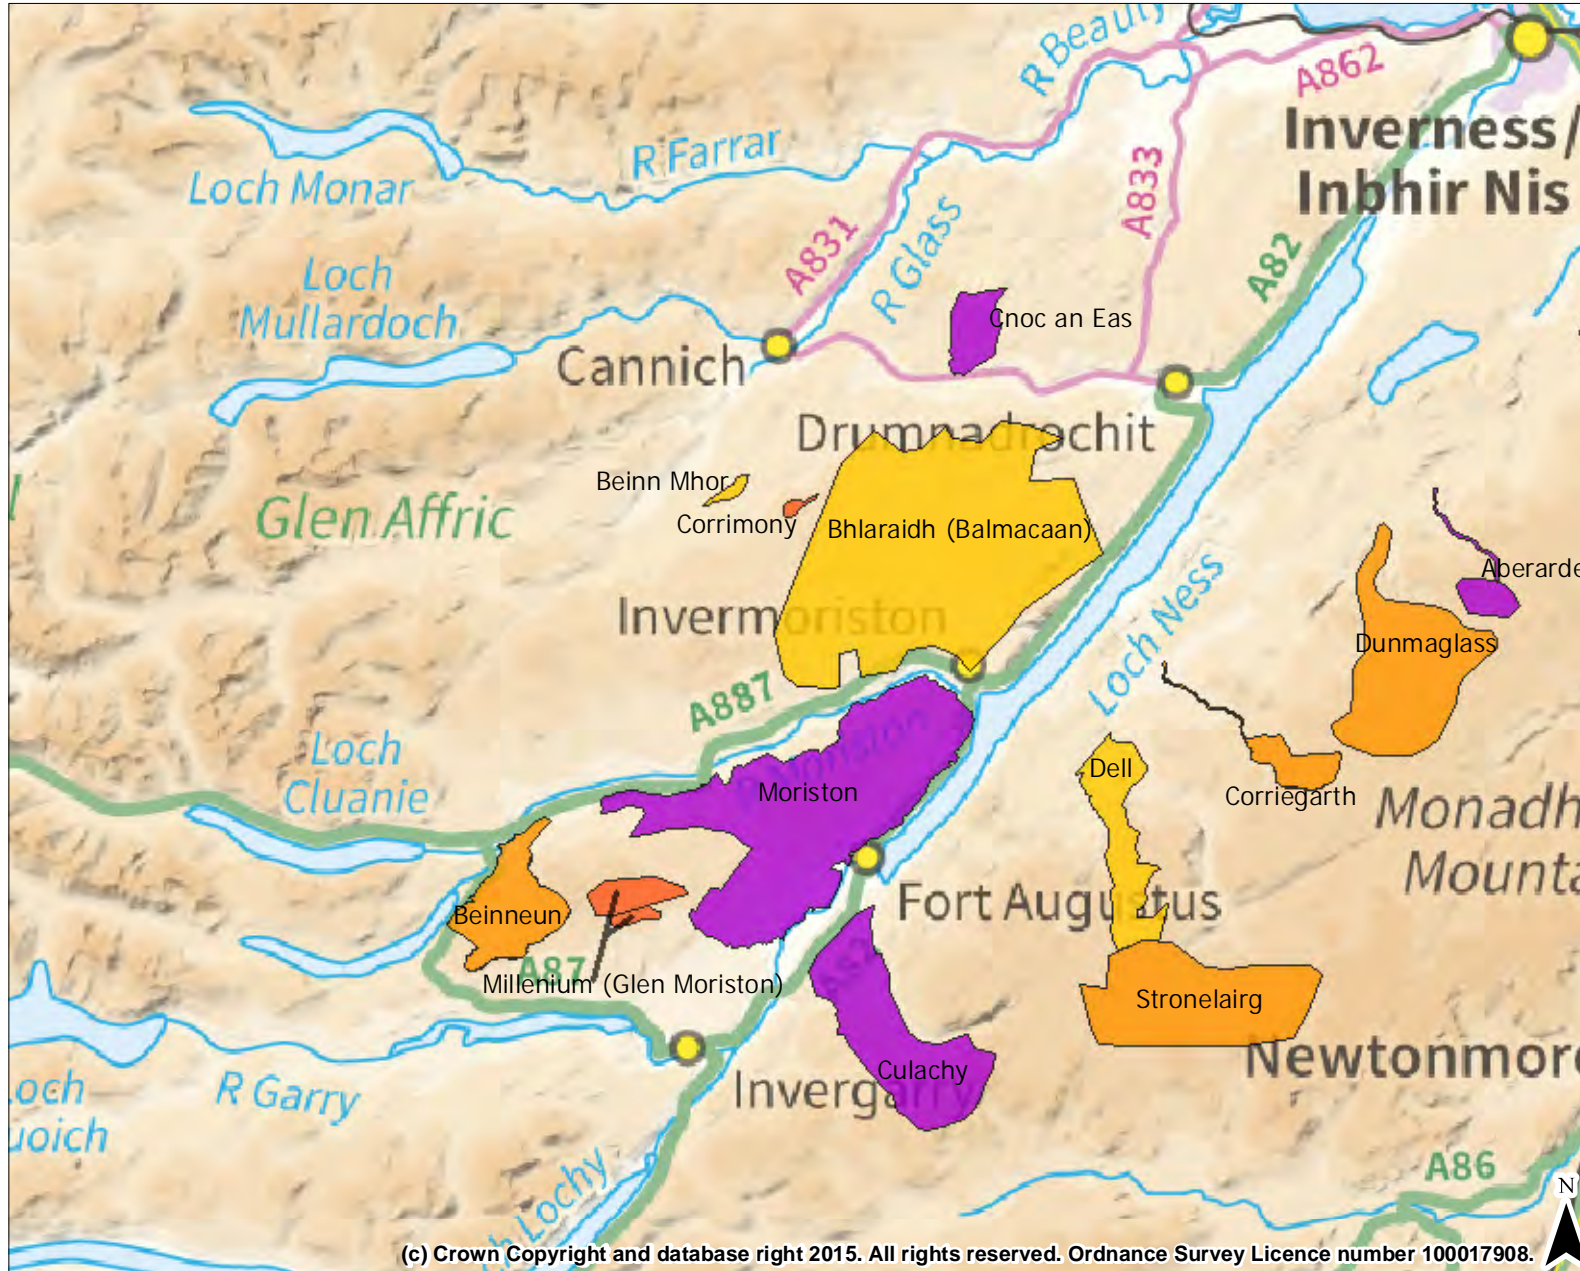

Petitioner Email of 14 May 2015

In support of my forthcoming presentation to the Committee, please find the following two items attached:

- 1) The map of wind farm developments planned and under consideration in the Loch Ness area and the Great Glen are shown on the attached map. This was obtained from Scottish Natural Heritage and permission was given by SNH to show this to the Public Petitions Committee.
- 2) A photograph of wind turbines in the Great Glen 4 miles south of Fort Augustus and seen from the A82, the main tourist route in the West Highlands.

Dr James Treasurer
For the Friends of the Great Glen
