Inquiry into Land Register of Scotland: progress of local authorities in registering their land

Written submission from Dumfries and Galloway Council

We can confirm that we are aware of the deadline of 2019 set for public authorities. We are not confident that we will be able to complete registration with current resources and budget. We are planning to run a pilot project from autumn until the beginning of 2018 to provide us with more accurate costings and timescales of what will be required to meet this timescale for Dumfries and Galloway properties.
