Health and Sport Committee

Strategic Plan and Vision 2016-2021

In all our actions our overriding aim is to improve the health of the people of Scotland

To meet the above we will test all activity we scrutinise against the following aspects:

- The impact it has on health inequality;
- The extent to which it has a prevention focus;
- Long term cost effectiveness and efficiency; and
- The implications of the UK’s EU exit.

We will direct our focus on the outcomes being achieved and those proposed and examine and consider the identification and measurement of added value.

In undertaking our work we will be inclusive of all sections of Scottish society, we will be accessible and seek out the views of service users.

Additionally in relation to sport and physical exercise we will look at the extent to which access is being widened and activity is reaching and empowering all sections of the community.

This vision looks to a timescale covering up to the next 15 years.
