

PE1694/O

Angus Council submission of 29 October 2018

- **The drop-out rate of children having instrumental music tuition in the past two years**

This information is not currently collated

- **The projected drop-out rate for this year if charges for instrumental music tuition continue to increase as they have done in recent years**

There are currently no plans to increase music tuition fees in Angus

- **Is there a particular reason that instrumental music tuition is not being regarded by education departments as a core subject?**

Music education is part of the curriculum and therefore a core subject. Learning to play an instrument complements this for some children and young people who choose to do this.
