Anonymous submission of 7 January 2018

i am from Istanbul Turkey.

i was given an ssri for depression/anxiety after i lost close relatives.

5 minutes at psychiatrist office...no blood test no genetic test (to see if i can break down ssris) and a life time of hell.

within 6 hrs i was almost like electrocuted. Tachycardia vomiting akathisia i had all the symptoms of antidepressant toxicity but my dr made me continue. he wasn't aware of such a condition. i believed him for 6 months where he played around with doses. Even though i was using 25%-50% of therapeutic dose i was suffering. my body was refusing the toxin.

i lost my family

i lost my friends

i lost my job.

After carefully tapering for 6 months i am still suffering and in great danger.

I have spoken to experts in this field and they told me i have hpa&hpg axis dysregulation possibly life threatening. adrenal malfunction basically.

These ssris are mirror images of each other with different levels of toxicity they are no better than sugar pill in trials but destroy the body and brain.

For the sake of humanity please please ban all antidepressants from Scotland. maybe my government will learn a lesson.

Suicide rates have increased in military and police and general population.

imagine a drug that is supposed to cure depression comes with black box warning.

my life is gone. my pain is intolerable. there is acid flowing through my body.

i also want to end my life and often pray for terminal illness to take me.

i can talk more about these toxins. i can give you my number as well.

please i beg you save your children from the fake science of psychiatry and drug companies.

psychiatrists have committed crimes against humanity with the help of drug companies for decades.

They have performed lobotomies. They have performed insulin shock therapy they have given mercury for syphilis. they have done ECT.

Now a secret genocide is going on. The name of the genocide is ssri/snri induced illness or suicide or homicide.

i cry daily because of my pain. i am living in a small room barely surviving eating minimal food and just like a plant.

i had one in a million sensitivity but you never know. These drugs are pure toxins. They don't work and hurt thousands. There are 20+ websites on the web. Hundreds of thousands are in agony.

I beg you from my heart only you can start. please stop psychiatrists and drug

companies. They fill their pockets while humanity suffers. FDA executives are former big pharma staff. They all cross pollinate. Drs get commissions also. These drugs are a crime against humanity.

please hear my cries

please listen to me.

**STOP THE SECRET GENOCIDE**
