Justice Sub-Committee on Policing

Impact of police reform on local policing

Written submission from Audrey Beveridge

Fife Police

My husband works in a primary school on a busy main road. The community officer(s) would visit regularly to assist with dog fouling, illegal parking, vandalism, speeding etc. They would come to school fairs and discuss crime prevention and shed alarms. They would also come into classrooms and do talks with the children.

Police Scotland

No contact from community officers since change to Police Scotland.
