

Parliamentary Bureau – Future Business programme

Possible motions for Members' business

1. Bureau members will be aware that under Rule 5.6.1(c) the Bureau has a duty to ensure that there is a period of time available for Members' Business at each meeting of the Parliament.
2. This paper is circulated with the Bureau papers each week and provides Bureau members with an updated list of motions lodged each week for Members Business debate. The paper will also provide Bureau members with a record of Members Business debates throughout the session, and the number and frequency of such debates that each party has had.
3. Bureau members may wish to note for information that the rota for Members' Business until March is as follows—

Week beginning	Tuesday	Wednesday	Thursday
9 March 2026	CON*	SNP*	LAB
16 March 2026	SNP*	CON*	SNP
23 March	SNP	CON	n/a

*will be rescheduled due to Parliamentary business.

4. Motions submitted for Members' Business are shown below—

S6M-20907: Jamie Greene: Respect for the Office of the Presiding Officer—

That the Parliament wholeheartedly condemns what it sees as the repeated and enduring questioning and undermining of the authority and neutrality of the Presiding Officer of the Scottish Parliament by members of the Scottish Conservative and Unionist Party group; believes that what it sees as premeditated conduct brings individuals, their party and the entire Parliament into disrepute; notes calls for this conduct to be addressed through appropriate parliamentary processes and, where deemed appropriate, sanctions, and reiterates its unequivocal support for the Presiding Officer as she seeks to uphold the standards, order and running of parliamentary business in a modern democratic institution serving people across Scotland, including in the West Scotland region, in the face of what it sees as unsubstantiated and relentless accusations of conspiracy or bias.

S6M-20881: Pam Gosal: A Scotland-wide Ban on the Use of Mobile Phones in Schools—

That the Parliament notes what it sees as the dangers that mobile phones and social media pose to children and young people, especially in relation to their physical and mental health; expresses concern regarding the potential safeguarding issues associated with the use of mobile phones, such as exposure to harmful content that is not age-appropriate; further expresses concern regarding reported studies that state that two in three 11- to 17-year-olds find it difficult to put down their phones, with teenagers spending, on average, five hours and 30 minutes each day on their smartphones, including four to five hours on social media, as well as research that reportedly found that one in five 16- to 18-year-olds say that social media has made them feel that "life is not worth living"; notes the calls for a

Scotland-wide ban on the use of mobile phones on school premises; understands that schools across Scotland, including in the West Scotland region, and the rest of the UK that have implemented such bans have seen promising results, and that countries across Europe and around the world have taken extensive steps to limit the use of mobile phones in schools, and commends what it sees as the great work done by organisations such as Smartphone Free Childhood, Kids for Now, One Collective Power and Delay Smartphones, which are raising awareness of the potential dangers that come with mobile phone use.

S6M-20849: Jamie Halcro Johnston: Sustainability of Remote, Rural and Island Communities— That the Parliament recognises a special duty to ensure the long-term sustainability of Scotland's remote, rural and island communities; notes the view that addressing the needs of these communities requires policy that recognises and accommodates the particular circumstances of the Highlands and Islands region and other parts of remote, rural and island Scotland; acknowledges the challenges of delivering public services such as education, transport, local health and social care, policing and justice to areas with lower population density; believes that a range of local public services have been centralised or downgraded and no longer have a visible presence in many remote and rural communities; considers that the rural economy and rural businesses have faced unprecedented challenges in recent years with the farming and fishing sectors under real pressure and uncertainty, increased regulation impacting the visitor economy, and high streets and town centres struggling; believes that access to housing and affordable accommodation has become increasingly difficult in these communities, particularly for young people; recognises what it sees as the vital importance of connectivity to the prosperity of these communities, including preserving and expanding travel links by road, rail, sea and air and the need to plan for the future investment needs of essential infrastructure, and notes the view that building strong communities in all parts of Scotland will require a greater focus and consideration from across Scotland's public bodies.

S6M-20824: Mercedes Villalba: Rejecting Cuts to STV North and Solidarity with NUJ and BECTU Members in North East Scotland— That the Parliament notes with concern the manner in which Ofcom has undertaken the consultation on proposed cuts to STV programming; further notes the belief that Ofcom must ensure that its responsibilities to broadcasters, employees and communities are fairly balanced, and that all parties are proactively engaged in the review of broadcasting regulation in an equitable and proportionate way; notes the view that STV's ability to meet and fund its licence obligations with regard to STV News must not adversely impact on journalists and other workers, or on the quality and detail of news programming, including in the North East Scotland region; acknowledges what it sees as the importance of the reliable, trusted regional news coverage provided by the STV North edition of the *News at 6*; notes the opposition to the proposed cuts to STV programming and the solidarity with members of the National Union of Journalists (NUJ) and Bectu, a sector of Prospect, in the North East Scotland region, and further notes the calls on Ofcom to protect the public interest across Scotland, and to reject STV's request to remove the sub-opt for Dundee and its request to end the STV North edition of the *News at 6*.

S6M-20791: Clare Haughey: Closure of Bank of Scotland Branches— That the Parliament notes with concern the reported decision by the Lloyds Banking Group to close 11 Bank of Scotland branches between June and July 2026, including the Rutherglen branch; understands that this is the latest in a series of bank closures across the UK; believes that these closures will have a significant impact on local residents, businesses and organisations that depend on high street banks for cash access and essential banking services, particularly older people, disabled people, small businesses and charities; considers that the closure of banks is hugely detrimental to the viability of local high streets, and notes the calls on the Lloyds Banking Group to reconsider its decision.

S6M-20644: Edward Mountain: Stoma-friendly Accessible Toilets in Supermarkets— That the Parliament congratulates Sainsbury's on its accessible toilets, which have been stoma friendly since 2017; further congratulates Morrisons on its recent commitment to making toilets in its stores UK-wide accessible and stoma friendly, and Lidl, which has agreed to implement Colostomy UK's guidelines for toilets in its new store specification from the next financial year onwards; understands that these stoma-friendly requirements for toilets involve the installation of a shelf, a hook, a mirror and a bin, all of which can be fitted at minimal cost, and notes the calls encouraging all supermarkets in the Highlands and Islands and across Scotland to make these small adjustments so that their toilets are stoma friendly, to make the lives of stoma users everywhere easier and happier.

S6M-20609: Paul Sweeney: 20th Anniversary of the Formation of The Royal Regiment of Scotland— That the Parliament notes that 28 March 2026 marks the 20th anniversary of the formation of The Royal Regiment of Scotland; recognises the regiment's distinguished service to Scotland and the UK over the past two decades, including operational deployments in Iraq, Afghanistan and other global missions, as well as its role in ceremonial duties and national defence; pays solemn tribute to the 23 serving members of the regiment who have been killed during conflict or as a result of injuries sustained while on operations since its formation; honours their sacrifice and the enduring impact on their families, comrades and communities; acknowledges the rich heritage of the antecedent regiments that amalgamated to form the regiment on 28 March 2006, including The Royal Scots (The Royal Regiment), The King's Own Scottish Borderers, The Royal Highland Fusiliers (Princess Margaret's Own Glasgow and Ayrshire Regiment), The Black Watch (Royal Highland Regiment), The Highlanders (Seaforth, Gordons and Camerons) and The Argyll and Sutherland Highlanders (Princess Louise's), alongside the former Territorial Army regiments, the 52nd Lowland and the 51st Highland, which together embody over 390 years of continuous military service to The Crown; commends the ongoing contributions of the regiment's three regular battalions, one regular incremental company and two Army reserve battalions to international peacekeeping, disaster relief and community engagement across Scotland, including in the Glasgow region; recognises what it sees as the vital role played by the regiment's military bands and pipes and drums in upholding Scottish musical traditions, supporting ceremonial and public duties and maintaining morale; notes in particular the regular Band of The Royal Regiment of Scotland, the reserve Highland and Lowland bands, and the pipes and drums of each battalion, which, it believes, preserve the distinctive musical legacies of the antecedent regiments and have performed at major national events, including state ceremonial occasions, The Royal

Edinburgh Military Tattoo and global engagements; notes the changes to the regiment's composition in terms of regular battalions over the last 20 years, including the amalgamation of The Royal Scots and The King's Own Scottish Borderers into the 1st Battalion (1 SCOTS) in August 2006, the reduction of The Argyll and Sutherland Highlanders, 5th Battalion (5 SCOTS), to an incremental company, Balaclava Company, in 2013 under the Army 2020 reforms, and the redesignation of The Royal Scots Borderers, 1st Battalion, to form the 1st Battalion of the new Ranger Regiment in 2021 under the Future Soldier programme; pays tribute to what it sees as the bravery, professionalism and dedication of all serving members, veterans and their families, and extends its best wishes to all ranks of The Royal Regiment of Scotland for continued success in the years ahead.

S6M-20603: Christine Grahame: Animal Welfare Sentencing and Public Protection— That the Parliament recognises what it sees as the serious harm caused by animal cruelty, neglect and illegal breeding; notes concerns raised by animal welfare organisations regarding the consistency and proportionality of sentencing in animal welfare cases; understands that many cases involving the welfare of pets and farm animals are dealt with under summary procedure, limiting the penalties available under the Animals and Wildlife (Penalties, Protections and Powers) (Scotland) Act 2020; notes what it sees as the lack of specific sentencing guidelines covering these offences; further notes the view that clearer guidance and greater awareness of available powers would support more consistent sentencing that reflects the severity of the crimes; acknowledges calls for stronger monitoring and enforcement of disqualification orders, including consideration of a national animal offenders register to improve information sharing between agencies, and notes the importance of continued partnership working between the Scottish Government, justice partners, the Scottish Sentencing Council, Police Scotland and animal welfare organisations to support effective sentencing and protection for animals and the public in Midlothian South, Tweeddale and Lauderdale and across the country.

S6M-20497: Brian Whittle: Sport and Activity as a Force for Good— That the Parliament recognises the importance of sport and activity as a force for good that goes beyond just physical health; considers that they have a significant impact on mental health, as well as contributing to community and national cohesion and wellbeing; believes that sport breaks down barriers of colour, race, religion and creed by bringing individuals and communities together through a common shared interest and passion; recognises that, by promoting sport and activity, the Scottish Government can positively impact on confidence, resilience and aspiration which, in turn, can positively impact on education and benefit the economy, and notes the view that the Scottish Government should do everything that it can to make sport and activity available for all, in the South Scotland region and across the country, irrespective of personal circumstances.

S6M-20447: Fulton MacGregor: Awareness and Support for People Affected by PANS and PANDAS in Scotland— That the Parliament recognises that Paediatric Acute-onset Neuropsychiatric Syndrome (PANS) and Paediatric Autoimmune Neuropsychiatric Disorders Associated with Streptococcal Infections (PANDAS) are rare, but potentially severe, conditions that can result in the sudden onset of significant neuropsychiatric symptoms, including obsessive compulsive disorder,

anxiety, tics and behavioural change; acknowledges the considerable impact that these conditions can have on children, young people, adults and their families; notes concerns about the limited awareness and understanding of PANS and PANDAS across health, education and social care in Scotland; recognises the establishment and work of PANS+ Scotland in supporting affected families and raising awareness of them, and notes calls for the Scottish Government, NHS Scotland and all other relevant public bodies to engage with PANS+ Scotland and other stakeholders to improve awareness, understanding and support for those affected by PANS and PANDAS in Coatbridge and Chryston and across Scotland.

S6M-20434: Kenneth Gibson: Towards the Fourth Anniversary of Russia's Full-scale Invasion of Ukraine: That the Parliament recognises that 24 February 2026 marks the fourth anniversary of Russia's full-scale invasion of Ukraine following the illegal annexation of Crimea in 2014 and proxy war in Donetsk and Luhansk; believes that Russian forces continue to indiscriminately bombard Ukrainian cities and control around one fifth of Ukraine's territory, including Luhansk, Crimea and most of Donetsk, Kherson and Zaporizhzhia; considers that fighting and air strikes have resulted in over 53,000 civilian casualties and that President Putin's veiled threats throughout the war to use nuclear weapons have raised fears of escalation; notes that around 3.7 million people are internally displaced in Ukraine and roughly 6.9 million refugees are recorded globally, including over 29,000 Ukrainians who arrived in Scotland, including in Cunninghame North, with a sponsor in Scotland through the Homes for Ukraine scheme; acknowledges the immense military casualties suffered by both sides, particularly Russia, given what it sees as its profligate use of manpower; notes the view that any ceasefire or settlement that cedes territory or lacks binding security guarantees could allow Russia to regroup and renew attacks, and that this would create the risk of a Carthaginian peace intended to permanently weaken and then annexe Ukraine; further notes the view that robust international support, including military, economic and humanitarian assistance, is essential to enable the survival of Ukraine, deter further aggression and secure a just and lasting peace, and expresses solidarity with the people and armed forces of Ukraine.

Record of Members' Business taken by the Parliament in the past 12 months

5. Below is a table of Members' Business taken by the Parliament in the past 12 months, a record of all Members' Business taken from the start of session 6 is available on request.

Date	MSP	Party	Subject
4 March 2025	Carol Mochan	LAB	Holistic Approach to Alcohol-related Brain Damage
5 March 2025	Colin Beattie	SNP	Three Years of Solidarity with Ukraine
6 March 2025	Marie McNair	SNP	Impact of UK Welfare Reforms in Scotland
11 March 2025	Alexander Stewart	CON	Additional Support Needs in Scotland
