

Petitioner submission of 23 June 2022

PE1885/F: Make offering Community Shared Ownership mandatory for all windfarm

I would like to request that the Committee address the petition's request regarding finding a solution through Land Tax. To date the Committee have concentrated on discussing solutions via planning, (which is not what has been asked). This gives the appearance that they are not answering the petition's question at all and are concentrating instead on more readily favoured aspects that they are familiar with. Perhaps Land Tax is too problematic, but if so the rationale should be identified and conveyed.

I would be disappointed in the process if the committee disregarded this central aspect of the petition and chose only to consider the more straightforward option of planning.
