

PE2082/C: Improve the support provided to families affected by cot death

Scottish Government written submission, 9 August 2025

Thank you for your email of 13 May 2025 enclosing correspondence from the Citizen Participation and Public Petitions Committee regarding petition [PE2082: Improve the support provided to families affected by cot death](#).

The Scottish Government notes that the petition has been closed. However, the committee may wish to note the announcement made on the Scottish Cot Death Trust website on 20 August 2025 advising that they have begun conversations with the Lullaby Trust to explore how joining forces might provide a sustainable option for their future.

I hope the committee finds this information helpful.
