

PE2140/B: Introduce a parking badge for pregnant women

Scottish Retail Consortium written submission, 14 July 2025

Most stores located on high streets, in our towns and city centres, or in retail parks do not have customer parking of their own. Instead, parking used by customers (and indeed for other consumer-facing sectors) is often provided by local authorities or privately operated car parks, or in the case of retail parks usually by the landlord who owns/operates the retail park.
