Police Scotland Response concerning online enforcement

Instances of ticket touting online related to the UEFA EURO 2028 tournament reported to Police Scotland would be reviewed and subsequent enquiry directed by the tournament crime lead (assigned by Police Scotland) in conjunction with the police licensing unit. The designation of investigation and possible enforcement would be allocated based on a number of criteria. For example, the value, scale and location of the suspected offence, and in liaison with the Crown Office and Procurator Fiscal Service (COPFS).
