

New Vessels for the Clyde and Hebrides

Written submission from Mr Drew Hamilton, by email 21 April 2022

Good morning,

I am writing to encourage your Committee to initiate a full Public Inquiry into the failure to deliver the two ferries currently rusting away in Fergusons Shipyard on the Clyde.

These vital assets now negligently late and massively over budget are crucial to the wellbeing and sustainability of the islands.

I urge you to do your jobs today

Best Regards

Drew
