

GREY2K USA WORLDWIDE

16 January 2023

Finlay Carson MSP
Convener - Rural Affairs, Islands and Natural Environment Committee
The Scottish Parliament
Edinburgh, EH99 1SP

Dear Mr Carson,

GREY2K USA Worldwide is a nonprofit organisation working to pass laws to protect greyhounds and promote the adoption of ex-racing dogs. On behalf of our more than 250,000 supporters in Scotland and around the globe, we are writing to provide the Committee with additional information regarding Petition PE1758: End greyhound racing in Scotland.

Specifically, we would like to share with the Committee the results of a public poll, commissioned recently by us and conducted by Panelbase, one of the preeminent public opinion research firms in the UK. Enclosed you will find the full text of all six questions that were included in the survey, and complete digital results.

The polling indicates that Scots support ending greyhound racing by a wide margin. Some of the key findings include:

- **60%** think that the Scottish Parliament should vote to phase out greyhound racing, while only 20% are opposed.
- **63%** have an unfavourable view of greyhound racing.
- **75%** think that greyhound racing is not important to the Scottish economy.
- **58%** think that greyhounds bred for racing have a bad quality of life.
- **69%** would be more likely to vote for a candidate from a party that supports ending greyhound racing.

After reading [correspondence](#) you received from the Greyhound Board of Great Britain on November 3rd, which cited a Twitter poll, we thought it important to provide the Committee with actual scientific data regarding Scottish views of greyhound racing. We hope that Panelbase's genuine polling data will give the Committee a more accurate view of public opinion on greyhound racing.

Thank you for your work on this important issue.

Yours sincerely,

Carey M. Theil
Executive Director
