Michael Veitch	CARE for Scotland
Carolann Nesbitt	Community Safety Glasgow (TARA)
Elaine Smith	Individual
Alison Raybould	Salvation Army
Chris Ringland	Evangelical Alliance
Teresa Little	Individual
Bryan Little	Individual

## Agenda item 2

**Ruth Maguire** (RM) told the group that Bill Kidd MSP had secured a members' debate in the Scottish Parliament on Thursday 9th June on ***Making Scotland Hostile to Trafficking and a Safe Place for Ukrainian Refugees.***

**Rhoda Grant** (RG) told the group that she had recently taken part in a UN Drugs and Crime Agency Conference on trafficking, and together with Sweden and France, stressed the importance of dealing with demand when considering trafficking for sexual exploitation.

## Agenda item 3

Presentation by **Nordic Model Now (NMN)** on the grooming of students for the sex industry.

**An Overview** presented by **Anna**

Grooming for the sex industry:

- Sexual abuse is often a prerequisite to entering the sex industry
- Exposure to brutal, misogynistic pornography is child abuse and universal today
- Consequently, porn is normal and therefore catastrophic
- Young women are now at risk from entering the sex industry
- Many are facing poverty and this toxic mix is at the heart of the issue

## **Universities**

- The sex industry lobby have been successful in infiltrating academia and left-wing politics
- Young women do not have access to the feminist analysis which would give them the tools to challenge this culture which fits so well with ‘the air they breathe’
- NMN were devastated when they went to the launch of the University of Leicester’s Student Sex Worker Policy and Toolkit funded by the ESRC
- They gained access to the sex work toolkit’s training material and critiqued it to be fundamentally biased, misleading, and blatant propaganda for the sex trade
- NMN decided to create their own toolkit to challenge this
- Their approach was to meet students where they were, rather than use terms that might alienate them; the handbook can be obtained here <http://nordicmodelnow.org/shop>
- Creating the NMN handbook was an inspired, strategic approach which provided a concrete challenge to the toolkit and resulted in the ESRC pulling out of funding it
- NMN will be starting a TikTok channel and are holding a conference in London and webinar ‘Students for sale Tools for Resistance’ 15<sup>th</sup> October.

**Emily’s Story** about her devastating experience of prostitution, whilst at university was played.

**Supporting Students; one of the sections in Nordic Model Now’s Handbook.  
Exploring the alternative to the Leicester University Handbook.**

presented by **Lily**

- In our culture now sex work is now seen as normal and sex workers as a protected category.
- Consequently, it becomes difficult to support sex workers without legitimising and normalising the inherent abuse and violence that traps them
- What does being non-judgemental really mean?

- Acceptance and non-judgement do not mean losing your ethical compass
- Dos and don'ts of supporting students
- Paying attention to the incongruence of students playing down their trauma, and affirming the importance of boundaries, are both significant issues
- We must offer alternative voices than those of the sex industry and change the narrative
- Presentation ends

**RG** convened questions and comments from the members.

**RM** suggested an action coming from this meeting, that she and **RG** might write to the Scottish universities and ask them what they are doing with the NMN handbook and if there was any feedback. This was warmly received by **Anna** and the group.

## Agenda item 4

AOB

**RG** asked for AOB: **Jacci Stoyle (JS)** gave a short update on the Festival of Politics event, which is due to take place in August.

**RG** asked about the date and topic for the next meeting.

**JS** said the next meeting would be the AGM and therefore would need to take place in September.

**RG** and **RM** would check their diaries and return to the group asap with a date. The topic would be finalised then.
