

10 June 2025

Colin Beattie MSP
Chair
Scottish Commission for Public Audit
T3.40
Scottish Parliament
Edinburgh
EH99 1SP

Dear Chair

Audit Scotland's 2024/25 Annual Report and Accounts

I am pleased to submit Audit Scotland's Annual Report and Accounts for the year ended 31 March 2025, which I signed along with the external auditor, David Jeffcoat from Alexander Sloan on 9 June 2025.

I have also enclosed our annual report on the Quality of Public Audit in Scotland, as well as our Audit Committee Chair's Annual Review.

The operational underspend was £61k (0.5%), broken down as revenue £59k and capital £2k, with the underspend balance of £1,899k relating to the non-cash in-year pension service cost adjustment required under International Accounting Standard 19 (IAS 19) and non-cash right-of-use lease capital under IFRS 16. The 2024/25 budget included planned efficiencies and cost savings of £1,420k. The actual operational outturn has led to efficiency and cost savings of £1,481k, 3.9% of total operating expenditure.

Together with colleagues, I look forward to briefing the Commission later this month on the Annual Report and Accounts and later sessions planned on our Future of Public Audit model and Audit Modernisation and 2025/26 Budget. Please do not hesitate to get in touch if you need anything before then.

Yours sincerely

Stephen Boyle
Accountable Officer and Auditor General for Scotland

Making a difference - throughout this annual report we illustrate examples of our impact through 'Making a difference' examples.

Our year

- In 2024/25, we made progress in recovering the timeliness of annual financial audits under our multi-year phased recovery plan. Some 55 per cent were delivered to target dates, up from 48 per cent the previous year, and 92 per cent by 31 March 2025. We will continue to work to meet our expected performance levels.
- We published ten performance audits, seven Best Value reports, eight blogs and five briefings on a wide range of public services and bodies. We also published five statutory reports on issues found in our financial audit work. Alongside this, we aided public and Parliamentary understanding and scrutiny through our engagement, evidence and diverse communications.
- Many of our recommendations aimed to help the sector tackle the fundamental reforms it needs to make, and our audit work has driven tangible impacts at the 224 public bodies we audit. Public bodies accepted 96 per cent of our recommendations, 86 per cent said they were clear and easy to understand, and bodies ranked the usefulness of the annual audit as 4.3 out of five.
- During 2024/25 we moved forward with our audit modernisation agenda, including agreeing the business case, engaging with the Scottish Parliament and securing Parliamentary funding, and entering a partnership to use bespoke audit management software.
- We want to ensure and demonstrate that we are as efficient and effective as possible. We do this through targeting our resources, supporting our workforce and evaluating our performance. In 2024/25, we launched a new Health, Safety and Wellbeing Plan, introduced a revamped performance appraisal and development approach, and refined our workforce planning.
- We balanced our budget and finished 2024/25 with a £2.0 million underspend. Year-end pension scheme adjustments accounted for £1.7 million of the underspend, and £0.2 million related to IFRS 16 lease capital. This means we had an overall operational underspend of £0.1 million.

Our context

[Public audit in Scotland](#), the shared statement of purpose between the Auditor General, the Accounts Commission and Audit Scotland sets out our shared vision and mission, and the outcomes where we aim to achieve measurable change by 2028.

Through our [Corporate plan 2023-28](#), Audit Scotland supports these through our strategic priorities and our values.

Vision

Public money is well spent to meet the needs of Scotland's people.

Mission

Provide clear, independent and objective assurance on how effectively public money is being managed and spent.

Outcomes

- Public services in Scotland work better together to target resources more effectively.
- Financial planning and management are more effective across Scotland's public services.
- Public bodies deliver clearer and more transparent reporting.
- Our recommendations have a positive impact for people in Scotland.

Strategic priorities

- Timely and impactful annual audit.
- Dynamic performance audit programme.
- Enhanced audit approaches.
- Developing our people and our business.
- Insights driving innovation and improvement.

Values

Equality | Independence | Innovation | Integrity | Respect

Chair's welcome

The impact of robust, independent and reliable public audit is crucial for taxpayers, users of public services and decision-makers at any time. It is even more so now, when public finances and bodies are under significant financial and demand pressures.

In that context, we are focused on ensuring public audit has a strong and tangible impact from the work we do across all public services.

At its heart, public audit drives accountability and transparency about public finances. This in turn empowers good governance of the almost £60 billion of annual public spending in Scotland.

This starts from the base of the audit opinion on the annual accounts. Two words – ‘unqualified opinion’ – provide multiple layers of assurance to the public, policymakers and bodies themselves about the probity and reliability of the reporting of public spending. Where it must, public audit also draws attention to the things that haven’t gone well. This typically prompts strong remedial responses.

But as we detail in this report, it goes further. This includes impact at individual bodies and across sectors, as we inform and highlight improvement, and push for more transparency and better leadership.

Ultimately, our work aims to achieve our vision that public money is well spent to meet the needs of Scotland’s people.

This is my first annual report as Chair of Audit Scotland’s Board. The board’s role is to oversee and support Audit Scotland to achieve impact. As board members, we do this through endorsement, feedback, challenge and direction as appropriate.

I would like to thank my board colleagues. I would like to pay tribute to my predecessor Professor Alan Alexander OBE, not only for his service to Audit Scotland but also for his long and distinguished career in public services. I am also grateful to Audit Scotland’s Executive Team for their leadership and management of the organisation and their advice to the board.

Most of all, I would like to thank Audit Scotland’s staff for their hard work and genuine commitment to all they do.

Colin Crosby OBE

Chair of the Audit Scotland Board

Accountable Officer's report

Public audit can and must play a role in the fundamental reforms needed in public services if they are to be sustained in the future.

For several years, public auditors and others have warned about the scale and pace of the changes needed to services and financial management.

It would be unfair to say that this has gone unheeded. But from the Scottish Government through to individual bodies, those in charge of driving change are also trying to meet today's demands and expectations amid tightening budgets and structural issues. Balancing the day job with making the major changes needed is difficult.

Public audit has a unique view across all public services and we can help, through highlighting good practice and specific issues, providing information and insights, and continuing to stress the urgency of the situation. Throughout 2024/25 we have prioritised our contributions, from specific actions at individual bodies to wider ranging recommendations to thought leadership. We will continue to develop how we support Scotland's public sector as it tackles the tough but vital work ahead.

The need to make changes while managing resources efficiently is also incumbent on us as an organisation.

Over the past year we continued to modernise our audit approaches to ensure we are skilled, equipped and ready for the future. I would like to thank the Scottish Commission for Public Audit, the parliamentary group that reviews our budget and spending, for their support.

We work to ensure we are efficient and effective and demonstrate the financial stewardship we expect of others. Through careful management, we finished 2024/25 with an operational underspend of £0.1 million.

During 2024/25, several long-standing colleagues retired. I thank them for their hard work and commitment over many years, including our former Executive Director of Performance Audit and Best Value Antony Clark and our outgoing chair Professor Alan Alexander OBE.

Lastly, I want to thank my Audit Scotland colleagues and the staff at the external firms we contract for the rigour, integrity and empathy they bring to their work and workplaces each day.

Stephen Boyle

Auditor General for Scotland and Accountable Officer

Timely and impactful public audit

We ensure that public audit in Scotland applies the highest professional and ethical standards, that it is efficient, proportionate and risk-based, and promotes transparency and accountability.

In 2024/25, our in-house audit teams and the firms we contract audited 253 sets of public body accounts under the [Code of audit practice](#). Auditors delivered 55 per cent to updated guidance and target dates, an improvement on 48 per cent last year. By 31 March 2025, 92 per cent of audits had been delivered.

We continued to work on recovering audit delivery timeliness. We have a multi-year programme to recover our delivery against expected performance within three years, and we are on track to achieve this.

Accounts audited in 2024/25

125	85	23	20
Local government	Central government	NHS	Further education

Note: the total number of accounts is higher than the number of public bodies in Scotland. This is because some bodies are responsible for additional accounts such as pension funds, and joint and partnership boards.

We take a risk-based approach to prioritising work so that we can ensure high quality, while also considering colleagues workloads, wellbeing and professional development commitments.

The annual audit of public bodies provides the foundation for all our work. A key feature of public audit in Scotland is that it goes further than the audit of the accounts. The Code of audit practice sets out a wider scope to look at matters such as vision, governance and leadership; financial sustainability and management; and how well public bodies use resources to improve outcomes. Through the audit we also seek to add value to the organisations and wider public sector through our work. See Making a difference on [page 11](#).

Accounts audited in 2024/25

Audits are carried out by Audit Scotland's Audit Services Group and by audit firms appointed by the Auditor General and the Accounts Commission. During any financial year, the audit work is for the accounts of the previous year, ie in 2024/25 the audits were of the 2023/24 accounts.

Following international standards, auditors report whether they believe the accounts are true and fair, and free from material misstatement, and that money was spent in accordance with legislation and other relevant regulations.

All accounts we audited for the 2023/24 year were judged to be true and fair, while one audit on the 2022/23 accounts was **qualified** in this regard. For almost all accounts, auditors gave **unqualified** opinions. This gives the audited organisation, its workforce, elected officials and the people who use its services the highest level of assurance about public spending and financial reporting.

Auditors qualified their opinion for the accounts of: Social Security Scotland and the Water Industry Commission for Scotland for regularity reasons; and Lews Castle College (2022/23 accounts) on financial statements.

Raising issues from annual accounts

We highlight matters of concern we find in the annual audits that are of significant public interest.

The Auditor General does this through powers in Section 22 of the Public Finance and Accountability (Scotland) Act 2000, and the Controller of Audit through powers under Section 102 of the Local Government (Scotland) Act 1973.

In 2024/25, we issued three Section 22 and two Section 102 reports:

Section 22s:

- [Scottish Government Consolidated Accounts](#)
- governance and management failings at [Water Industry Commission for Scotland](#)
- concerns about the viability of [Ferguson Marine Port Glasgow \(Holdings\) Limited](#).

Section 102s:

- an update on failings to provide school accommodation at [Renfrewshire Council: Dargavel Village](#)
- a £1.1 million fraud at [Aberdeen City Council](#).

An unqualified audit opinion

An unqualified opinion means the auditor considers the accounts are true and fair, and comply with accountancy standards and legislation. The auditor has no significant concerns about matters contained in the accounts.

A qualified audit opinion

A qualified audit opinion means the auditor wishes to draw attention to specific matters in the accounts.

A qualification 'for regulatory reasons' means aspects of the accounts don't comply with specific legislation or standards.

A qualification on the 'financial statements' means the auditor judges an aspect of the accounts to be either factually incorrect or incomplete, or judges the accounting treatment to be incorrect.

Through these, we can ensure clear accountability for the management and use of public money, and that the wider public sector can learn. For example, we gave evidence to the Scottish Parliament on all S22s and wrote to all councils about the fraud case at Aberdeen City Council.

Reporting on Best Value in local government

Best Value (BV) auditing is fully integrated in the annual audit of local government bodies. We also produce reports on annual BV thematic work. The Accounts Commission confirms the theme for this each year, based on risks identified by the Controller of Audit from financial and performance audits.

During 2024/25, we sent all councils management letters on the BV theme of workforce innovation. We published one overarching thematic BV report, on the previous year's theme of leadership, and six reports on individual councils:

- Thematic report: [Delivering for the future – why leadership matters](#).
- Best Value: [Falkirk Council](#)
- Best Value: [Clackmannanshire Council](#)
- Best Value: [City of Edinburgh Council](#)
- Best Value: [Scottish Borders Council](#)
- Best Value: [East Renfrewshire Council](#)
- Best Value: [Fife Council](#).

Audit appointments and technical guidance

Under the Scottish model of public audit, appointments are rotated every five years for both our in-house teams and the external firms we contract with. This helps safeguard the independence of appointed auditors, and perceptions about that independence.

The appointed auditors for each public body [are available on our website](#).

We also publish [technical guidance and bulletins](#) on a range of issues for public sector auditors.

1

Making a difference

Having a positive impact through audit

The impact and benefits of our financial audit work goes wider than stating whether a public body's accounts are true and fair.

Through our wider scope and [Public audit in Scotland](#) we aim to help public bodies improve in a variety of areas. These range from governance and accountability to partnership working and project management to helping prevent mistakes and making it easier for the public to understand financial reports.

During 2024/25, some of the biggest impacts we achieved were in helping public bodies deliver clearer and more transparent reporting, one of our PAIS outcomes. A key theme of our recommendations has been better performance analysis, and we provided guidance and examples to help bodies achieve this.

Our technical expertise and advice were also key in helping audited bodies address complex accounting areas such as pensions and asset valuations. For example, after one body corrected mistakes we found in its accounts, its financial position was £81 million better than thought.

Other public bodies have implemented our recommendations for longer-term financial planning and multi-year budget scenarios, improving the strategic and operational management of public money. At others, our challenges to the standards of governance and leadership have driven significant improvements.

Dynamic performance audit programme

We produce performance audits and overview reports on issues of important public interest and significant amounts of public money on behalf of the Auditor General and the Accounts Commission. These include overviews of key public services, reviews of major reforms and projects, and exploring how public bodies respond to the key issues facing Scotland. See Making a difference on [page 15](#).

We communicate our findings and recommendations through a range of products, from detailed performance audit reports to briefing papers and update reports to blogs. We supplement these with diverse approaches such as social media, videos and animations, bespoke products and targeted engagement to ensure our messages are heard and understood by the people and organisations affected.

Performance audit

Across our performance audit work, there were recurring themes of severe budget constraints, the urgent need for reform, and how crucial leadership, vision and engagement are to addressing the significant pressures and fiscal constraints on public services. As well as highlighting these, we use the insights and information we gain from our unique view of the whole public sector to help inform and support public bodies to make the changes needed.

During 2024/25, we published:

Performance audits and overviews

- [Local government overview: Councils' budgets 2024/25](#)
- [IJB finance and performance 2024](#)
- [Tackling digital exclusion](#)

Supporting scrutiny and countering fraud

Supporting the Scottish Parliament

Public audit helps the Scottish Parliament and policymakers understand the key issues facing the public sector and how public money is spent.

The Auditor General reports in public to the Scottish Parliament's Public Audit Committee, and the Accounts Commission engages with the Local Government, Housing and Planning Committee. We also regularly engage formally and informally with other committees and the Scottish Parliament Information Centre to help parliamentarians better scrutinise the public sector.

During 2024/25, we met with and gave oral and written evidence and briefings to a wide range of parliamentary committees, with a total of 99 parliamentary engagements.

Alongside that formal reporting, we have responded to consultations and calls for evidence by parliamentary committees. We provided submissions to 16 Scottish Parliament and Scottish Government policy consultations in 2024/25.

Coordinating and improving scrutiny

We work closely with other scrutiny bodies to make sure the scrutiny of public sector bodies is targeted, proportionate and coordinated. During 2024/25, the Controller of Audit led work with the Scrutiny Coordination Group, and Audit Scotland brought together the Strategic Public Sector Scrutiny Network to improve and streamline scrutiny. More information is available on our [Improving scrutiny webpage](#).

Countering fraud

Public audit has an important role in raising awareness about fraud as well as helping to prevent and report on fraud. We report on frauds identified during the year, and have responsibility to review how public bodies discharge their counter-fraud responsibilities.

Audit Scotland coordinates the National Fraud Initiative, an exercise that matches datasets across the public sector to identify potential fraud and errors such as overpayments. In August, we published [The National Fraud Initiative in Scotland 2024](#), which identified £21.5 million worth fraud and errors across Scotland's public sector.

The next biennial NFI report will be published during 2026. More information is available at our [Counter-fraud webpage](#).

2

Making a difference How audit can support reform

Scotland's public bodies, decision-makers and leaders are in no doubt about the need for urgent and fundamental reform.

But they face many challenges, not least the need to keep delivering vital services in the face of rising demand and tightening budgets.

In this context, public audit has a role in supporting reform that goes beyond highlighting the need for change. Through our work, we inform and support change by:

- identifying barriers and opportunities; in October [the AGS encouraged the Scottish Government to review the public sector workforce](#) as it addresses a forecast £1 billion shortfall
- sharing good practice and case studies; for example, [the Accounts Commission said other councils can learn from how Scottish Borders Council is tackling the issues](#) many face across local government
- coordinating projects, scrutiny and intelligence, through our [scrutiny](#)

[coordination work](#) and other forums; in 2024/25 we participated in ten external roundtables and working groups on reform

- setting the agenda and urgency and calling for transparent conversations and clear plans, such as through our [fiscal sustainability](#), [NHS](#) and [transformation in councils](#) reports
- sharing insights from the themes and data coming through our work; in August the [AGS set out the common themes](#) he saw during his first four years in post, and we presented at several Scottish and national events on reform
- working in partnership to explore the key elements needed and the routes to reform, such as our [joint event and report with the Royal Society of Edinburgh](#).

We continue to work on bolstering our approach. During the coming year, this includes looking to create internal and external steering and reference groups to guide our work on reform, and testing new audit approaches.

Enhanced public audit approaches

Modernising our audit approaches

Through our multi-year Audit Modernisation Project, we are transforming our approaches and the software, tools and training we use.

During 2024/25, we made significant progress in one of the project's key workstreams, our partnership with the UK National Audit Office to use a bespoke software and audit management system.

We developed and rolled out our new audit planning tool, thus responding to a need highlighted through our staff consultation and quality reviews. We also created several new tools and resources that we are delivering alongside new software and training.

We made progress on other key aspects of modernisation, such as the shape of our workforce and our learning and development approach. More information is in [Developing our people and our business](#).

The project will ensure that we aren't just keeping up with changes, but can lead and influence the development of public audit.

For more on audit modernisation, see [Making a difference](#) on [page 18](#).

Future of public audit

As well as modernising our approaches, during the past year we launched a programme to examine fundamental questions about what public audit in Scotland may look like after the current round of audit appointments concludes in 2028. We will report as this progresses in the coming years.

Audit quality

High-quality audit work is fundamental, so that the assurance we provide is reliable and supports our ability to drive improvements and reforms.

Our [Audit Quality Framework](#) sets out how we review the quality of the financial and performance audit outputs delivered for the Auditor General and Accounts Commission. The framework has three levels of assurance:

- Level one: training and support, delivered through our learning and development and people strategies.
- Level two: internal quality monitoring, reviews and improvement activity, led by our in-house independent Audit Quality and Appointments team and our Quality team.

- Level three: external independent quality reviews, undertaken by the Institute of Chartered Accountants in England and Wales (ICAEW). More detail is available in [Audit quality in Audit Scotland: Commitment to quality](#).

Reviews of a sample of audits completed in 2024/25 found:

- 62.5 per cent of financial audits and all of performance audits reviewed externally achieved our expected standard of no more than limited improvements needed
- 80 per cent of financial audits and all of performance audits reviewed internally achieved our expected standard of no more than limited improvements needed
- 12.5 per cent of financial audits reviewed externally required significant improvements. This is below our expected standards. We have investigated the audit in question and are working with the audited body to resolve any issues arising from it, and are working to identify root causes for all improvements – limited and significant – across our audits.

The reviews found that most reports provided clear narrative, explanations and findings, useful recommendations, clear judgements and detailed action plans.

Common areas for improvement were: the need for all reports to provide an explanation of judgements about materiality; clear conclusions about whether central government and NHS bodies provide Best Value; and that all recommendations have agreed target dates.

Public bodies gave highly positive feedback on work, rating the usefulness of annual audits at 4.3 out of five, the usefulness of overview reports at 4.0 and the usefulness of performance audits at 3.9.

Internally, 87 per cent of colleagues said Audit Scotland's culture encouraged them to deliver high-quality audits, and 75 per cent said they had the coaching, guidance and learning and development to support this. Forty-five per cent felt they had the time and resources needed. This is an increase from 2023/24 but is still an area we need to improve.

These results inform our quality improvement activity. More information is available in [Quality of public audit in Scotland annual report](#) and our [Transparency report](#).

We continue to represent, and engage with, a wide range of international and UK professional bodies, auditing and accounting standards setters, and audit agencies. This includes consultations on professional and regulatory matters, and discussing audit quality activity to learn from and share good practice.

During 2024/25, we also published internally our new quality handbook and provided auditors with guidance on new asset valuation standards.

3

Making a difference Modernising audit

The requirements and expectations of audit are constantly advancing, as are the technology and tools we use and the contexts we work in.

Through our Audit Modernisation Project, we aim to ensure that we can meet the needs of audit now and lead the advances of the future.

During 2024/25, we made significant progress in the multi-year project. This included widespread internal consultation and working parties across Audit Scotland, as well as ongoing engagement and discussion with audit institutions in the UK and abroad.

After clarifying and agreeing our needs now and in the years ahead, we addressed the crucial choice of software. We have used our current system for well over a decade and have got as much as possible from it.

After extensive option appraisal, we chose to partner with the UK National Audit Office to use the bespoke software it has developed and is implementing. This allows us to jointly make best use of the existing investment in audit management software and further strengthens collaboration between our offices.

Throughout the process we engaged with both our board and the Scottish Commission for Public Audit, the body that scrutinises our performance, spending and financial planning. In January, the SCPA approved Parliamentary funding to procure and roll out the new system.

We continue to make progress, with key landmarks in 2025/26 including finalising our full business case and implementation plan, and agreeing the required contractual arrangements to cover development, support and maintenance.

Developing our people and our business

Our people

Our workforce in 2024/25

345

Whole-Time
Equivalent (WTE)

4.23%

increase
from March 2024

Through our people strategy, we are focused on meeting the needs of our workforce now and in the future. The strategy's five pillars are:

- diversity, equality and inclusion
- health, safety and wellbeing
- learning and development
- performance management
- workforce planning.

Of our strategy's 21 priority actions for 2023 to 2025, 12 are complete and nine are making significant progress.

Progress against our strategy is reported and considered annually by our Remuneration and human resources committee.

We undertake an independent externally-run staff survey each year through Best Companies. In March 2025, we were awarded 'One star' status, reflecting that our colleagues believe Audit Scotland is a 'very good' place to work.

Diversity, equality and inclusion (DEI)

We are committed to promoting DEI across Audit Scotland and to rigorously evaluating our performance on this.

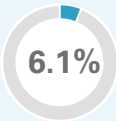

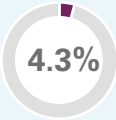

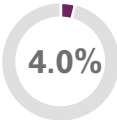

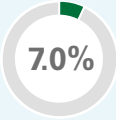

During 2024/25, we continued working with our DEI partner, Business in the Community (BitC), to help us deliver our equality outcomes of increasing the diversity of our workforce, supporting their progression through every level of Audit Scotland, and to broaden our culture of DEI. Working with BitC and our staff networks, we developed our new DEI strategy during 2024/25, and this was published in April 2025.

In March 2025, we implemented our Employee Passport, a voluntary scheme where colleagues can enter information about what adjustments

they need to support them. This can be for reasons ranging from health conditions and disabilities to caring responsibilities to religious obligations.

For more information on our diversity, equality and inclusion work and staff networks, [see page 55](#) in our Remuneration and staff report.

Diversity, equality and inclusion	Audit Scotland	Scotland
6.1% colleagues declare they are from ethnic minorities , compared with 5.8% for Scottish working population	 6.1%	 5.8%
4.3% colleagues declare they are from LGBTQ+ , compared with 4.0% for Scottish population over 16	 4.3%	 4.0%
7.0% ¹ colleagues declare they have a disability , compared with 20.7% for Scottish working population	 7.0%	 20.7%

Note 1. 44.3% of employees preferred not to disclose any information.

Health, safety and wellbeing

In November, we published our Health, safety and wellbeing plan to support a healthy and thriving workforce. See Making a difference on [page 23](#).

Learning and development

The skills and ongoing learning of our colleagues are central to our performance, to modernising audit and to ensuring we are capable, empowered and confident to deliver new ways of working.

Our new learning plan, launched in August 2024, includes our revamped learning management system. This provides a mix of mandatory and optional learning pathways tailored to each colleague based on their role, responsibilities and grade, including targeted learning and development for all line managers. We also ran the first tranche of a new development programme for aspiring leaders. This is a joint project with Audit Wales.

We run one of the largest public sector accountancy training schemes in Scotland. At 31 March 2025, we had 57 trainees working towards Institute of Chartered Accountants in Scotland qualifications. We also have four Modern Apprentices, which offers opportunities for young people to join the workforce and gain a qualification at the same time. We are exploring ways to widen our MA programme and other entry routes to Audit Scotland.

	19.9 days on average of training for each staff member in 2024/25
	94.1 per cent: exam pass rate at first sitting of our trainees

Performance management

We have worked to ensure all colleagues and teams are able to focus on purpose and production. We have refocused our performance appraisal and development approach, and launched the new Your Performance and Development system in early 2025. Through this, colleagues at all levels set objectives that clearly link to our [Corporate plan 2023-28](#) and our business plan, and thus to achieving our [Public audit in Scotland](#) outcomes. Through this, we can both ensure that work by all teams and individuals aligns to our vision and strategy, and that colleagues can clearly see their own contributions to public audit's purpose.

Workforce planning

We continue to develop our workforce plan alongside our audit modernisation project. This is to ensure we have the right levels and balance capacity, skills and role mix to be both highly effective and efficient, and that we can meet the needs of audit in coming years. Our new Workforce plan 2025-28 was agreed in April 2025, and we will report further in next year's annual report.

During 2024/25, we revised our approach to recruitment. This included introducing a new recruitment board approach. This enables us to better monitor vacancy management, scrutinise all vacancies and recruitment requests, and take a strategic, pan-organisation overview of recruitment and roles. We are also raising our vacancy factor from two to five per cent from 2025/26 onwards to help manage budgetary pressures.

We have also embedded regular reviews of our succession planning arrangements for roles across the organisation.

Business planning and resourcing

We are investing in a new resource management tool to enhance understanding of our productivity and workflows, better deploy our resources and better identify efficiencies. This is in the progress of being implemented, and will be available for staff before end of 2025.

We completed changes to our physical workplaces by reducing the size of our Edinburgh office, while creating more space in Glasgow. This will deliver £2.2 million in savings in our facilities costs over the next decade.

Reviews of the structure, effectiveness and efficiency are either complete or under way across several business groups. During 2024/25, we undertook a Best Value review of Audit Scotland, similar to those we conduct on other public bodies. The review provided assurance for the most part about our operations, and recommended we focus on the balance and effectiveness of audit- and non audit-related activity.

Climate change and sustainability

Our most recent information on our sustainability performance is for 2023/24. During the year, the total emissions counted against our target was 124 tCO₂e. This is higher than the previous year due to an increase in office-based working and the expansion of our Glasgow premises. However, it is about 30 per cent lower than our 2024/25 target, and nine tCO₂e lower than our current 2030 target. More information is in our [Climate change annual report 2023/24](#).

During the year we chose to maintain our current emissions reduction targets in the short term. We will use 2024/25 data to inform changes to future targets to ensure they're stretching but realistic.

Our 2024/25 report will be published in late 2025.

4

Making a difference

Supporting a healthy and thriving workforce

Over the past two decades, Audit Scotland has built a strong reputation and a supportive, warm and inclusive culture. The wellbeing and performance of our people are at the heart of these.

In 2024/25, we launched our Health, safety and wellbeing plan 2024-28, a key plank of our people strategy.

Our vision for our people is: 'A high impact workforce through Audit Scotland being an excellent place to work. A place where everyone feels able to thrive, supported, valued, and recognised for their contributions.'

To achieve this, we are focusing on the following types of wellbeing:

- **Physical:** ensuring safe workplaces, supporting colleagues with disabilities or health conditions, and encouraging

healthy habits and providing voluntary health checks.

- **Mental:** occupational health support and adjustments for mental ill health, mental health training for line managers, managing work-related stress, and embedding mental health advocates across Audit Scotland.
- **Social:** supporting effective hybrid working and preventing isolation, and promoting career development opportunities.
- **Financial:** providing fair pay deals, promoting our counselling and occupational health services, employee benefits that support financial wellbeing, and retirement support and training.

Insights driving innovation and improvement

Stakeholder engagement

We engage with a wide range of stakeholders to capture the views, experiences and priorities of decision-makers, the people delivering services and the people using them. This informs our audit programme and helps make sure our work is relevant. Through effective engagement we can also ensure our findings and recommendations reach the people they affect, and that we can track and understand our work's impact.

We take a diverse range of approaches to communications and engagement to try to reach, inform and empower all those with an interest in our work and messages. See Making a difference on [page 26](#).

We routinely meet with both the bodies and people we audit and service users, and we share learning and good practice with the wider public sector to support reform and improvements.

Our engagement covers more than our published audit work and messages. For example, during 2024/25 we collaborated with the other public audit institutions in the UK and Ireland on areas such as developing digital audit and approaches to using artificial intelligence in communications.

During the year, our independent appointed internal auditors reviewed our stakeholder engagement approach and management. They gave our board 'strong' assurance, the highest level available, and made two minor recommendations to improve clarity about roles and reporting.

Assessing our impact

We have been embedding our framework for monitoring, evaluating and reporting on the impact of our audit work. We publish regular [impact monitoring and evaluation reports](#) on our website.

Under our framework, auditors are expected to create SMART audit recommendations for public bodies and then follow up progress. In 2024/25, 96 per cent of our recommendations were accepted; 86 per cent of public bodies said our recommendations were clear and easy to understand; and 57 per cent agreed that they were useful in influencing improvement.

In [Public audit in Scotland](#), we committed to reporting publicly twice during its five-year term on our performance against the four PAIS outcomes. During 2024/25, we began work on our first evaluation, due to be published in 2025.

As reported in Timely and impactful annual audit, we monitored the individual areas where the financial audit has specific impact.

Corresponding with the public

We dealt with 252 items of correspondence in 2024/25, compared with 301 in 2023/24. In 2024/25, 99 per cent of correspondence was acknowledged within five working days and 100 per cent received a final response within 30 working days.

We saw a fall in the number of issues of concern that people raised with us about public bodies, after increases over previous years. Most issues of concern – 57 per cent – were about local government, and nine per cent were about bodies outside our remit. We provide advice about our role and remit to help correspondents best direct their enquiries.

Audit Scotland, the Accounts Commission, the Auditor General and the firms we contract are all **'prescribed persons'** under The Public Interest Disclosure (Prescribed Persons) Order 2014. This means that whistleblowers (employees) can raise issues of concern, or disclosures, with us about fraud, corruption or wrongdoing within public bodies. We received 26 whistleblowing disclosures during 2024/25.

More information is in our [Correspondence and whistleblowing annual report 2024/25](#).

International work

Our [International work strategy 2024-28](#) sets out our mission to learn, share our knowledge and expertise, and help support effective public sector governance and accountability in Scotland and overseas. We also commit to ensuring international activity is conducted efficiently, effectively, provides value for money and promotes sustainability.

International activity highlights 2024/25

EURORAI management committee and conference – This event considered how public audit institutions address climate change and its impacts on public bodies. We shared learning from other organisations with our climate change team.

Office of the Auditor General of British Columbia and Queensland Audit Office – We met with the AG of British Columbia and liaised with Queensland as part of our research for our audit modernisation project.

EURORAI seminar – We presented on how public audit institutions can make contributions to addressing the challenges of fiscal constraints.

Swedish Association of Local Authorities and Regions – We hosted a delegation of representatives of Swedish local government that was exploring municipal audit.

We also regularly receive requests for advice from other audit institutions, public bodies and academics. In 2024/25, these included advice on tracking public spending, secondments and designing accessible reports from audit bodies in Malaysia, New Zealand and Austria among others, and a Japanese university professor researching UK public audit.

5

Making a difference

Reaching people about the issues that affect them

For public audit to have an impact, we need to ensure that people, communities and organisations hear and understand our messages.

This starts with identifying and understanding our audiences and how best to reach them. These can include service users with specific needs, service deliverers, and the public and policymakers.

To effectively reach and inform the disparate audiences for our [performance audit on tackling digital exclusion](#), we produced a range of outputs alongside our media, political and social media engagement:

- [a report](#) for policymakers and public servants
- [a video](#) of one mother's experiences for the public
- [a poster](#) for libraries and other council facilities for people who are digitally excluded

- [an Easy Read summary](#) for people with neurodiverse conditions or English as a second language
- [guidance](#) on how to enable digital inclusion and [a bank of resources](#) for public bodies
- and [a news release](#) and graphics for the media.

We collaborate when appropriate. After working with our youth advisory panel for our [alcohol and drug services report](#), we supported them to produce [a short film](#) on a youth-led approach to prevention aimed at other young people and policymakers.

We also continued to develop our interactive data tools to enable stakeholders to interrogate information in the ways that suit them. We produced bespoke interactive tools for our [sustainable transport report](#) and our update on [integration joint boards' finances](#). We will continue to refine our interactive approach over coming years.

Our finances

Financial overview

Expenditure

£24.0 million	£9.4 million	£5.1 million	£(1.6) million
Expenditure on people costs	Fees and expenses paid to firms	Other operating expenditure	Net finance income incl. Corporation Tax
£0.3 million	£0.1 million		
Capital expenditure	RoU Leases Capital		

Fees and funding

£25.7 million	£11.6 million
Audit fees and other income	Scottish Parliament funding

Sources of funding

The Public Finance and Accountability (Scotland) Act 2000 allows us to make reasonable charges to audited bodies in respect of the exercise of our functions. We must seek to ensure that, taking one year with another, the charges for certain types of work are broadly equivalent to expenditure. Where we cannot charge directly for the audit work, costs are met from the Scottish Consolidated Fund.

Review of financial performance

We are required to produce annual accounts detailing the resources acquired, held or disposed of during the financial year and the way in which they were used. The Auditor General for Scotland has been appointed as Accountable Officer and is responsible for the preparation of these accounts. The following sections provide a summary from the accounts. The financial statements are published from [page 63](#).

Resource outturn

Our year in figures	Note	2024/25			2023/24
		Actual £000	Budget £000	Variance £000	Actual £000
People costs	Staff Report	24,019	24,588	569	22,355
Fees and expenses paid to external firms	4	9,396	7,737	(1,659)	8,147
Other operating expenditure	4	5,078	4,993	(85)	4,564
Total operating expenditure		38,493	37,318	(1,175)	35,066
Operating income	5	(25,707)	(24,544)	1,163	(23,375)
Net operating expenditure		12,786	12,774	12	11,691
Net finance expenditure/(income)	6	(1,591)	232	1,823	(1,693)
Corporation Tax payable		9	-	(9)	13
Net expenditure after tax		11,204	13,006	1,802	10,011
Capital expenditure	7 and 8	298	300	2	247
RoU Leases Capital	15	127	283	156	4,930
Total resource required from Parliament		11,629	13,589	1,960	15,188

Net expenditure after tax

In 2024/25, Audit Scotland spent £38.5 million on services for the Auditor General and the Accounts Commission. Of this, £25.7 million was recovered through charges to audited bodies and other income. The balance was met by net finance income of £1.6 million and £11.2 million of Scottish Parliament direct funding. The Parliament also directly funded the £0.3 million capital investment programme and the £0.1 million required to meet non-cash capital on leases.

Our 2024/25 budget proposal was approved with a target of £1.4 million in efficiency savings. The actual saving against the budget in the year was £1.5 million (3.9 per cent), with the final operational outturn being a £0.1 million underspend. Most savings came from staff costs, travel and subsistence. The financial year remained extremely challenging with wider fiscal constraints affecting our organisation as with all public bodies.

There was no requirement for additional 2024/25 Spring Budget Revision (SBR) funding. The actual adjustment in the accounts for pensions in 2024/25 was a credit of £1.7 million.

People costs represent 63 per cent of Audit Scotland's total operating expenditure, with the year-end position being £0.6 million under budget. Staff salaries and on-costs were £0.8 million less than budget. This was mainly due to forward planning of vacancy management in the knowledge that we were increasing our vacancy target in the 2025/26 budget from two per cent to five per cent. Agency staff costs were £0.2 million more than budget. This support was required to cover for vacant posts as well as to provide expertise for specific projects.

Fees and expenses paid to firms was £1.7 million more than budget. This is due to additional work being undertaken and the recognition of costs to complete prior year audit work. Additional fee income covered the increase in costs paid to the firms. This income came from additional work the firms had to do due to a significant number of adjustments, discrepancies in the application of accounting standards, and delays in the availability of working papers.

Other operating expenditure was £0.1 million more than budget, mainly due to the additional resources and external support required on the audit modernisation, estates and resourcing system projects. This additional expenditure was reduced by savings in training, travel and subsistence.

Operating income was £1.2 million more than budget. This is due to the recognition of unbudgeted prior audit year fee income and additional fees.

Capital expenditure

In addition to a net revenue expenditure budget, Audit Scotland receives a capital budget to purchase assets that have a use beyond one year.

The original budget for 2024/25 of £0.2 million was planned to be used to deliver our commitment to invest in office infrastructure. In the 2024/25 SBR, we transferred revenue budget of £0.1 million to increase our capital budget to £0.3 million. During the year, we spent £0.27 million on building work to fit out our Glasgow office.

The balance was used to purchase IT hardware as part of our laptop replacement programme.

RoU Leases capital

Under the lease standard IFRS 16, there is a non-cash capital funding requirement on initial recognition of the total obligations under leases. Audit Scotland leases offices in Edinburgh, Glasgow and Inverness, and also operates a car lease scheme for eligible employees.

The non-cash capital expenditure in 2024/25 of £0.1 million was for car lease renewals and was £0.1 million less than budget.

Resources required for 2025/26

The 2025/26 budget has been approved by the Scottish Parliament with revenue resources totalling £39.8 million. Of these, £25.0 million will be recovered through charges to audited bodies and miscellaneous income. The £14.8 million balance will be met from direct Scottish Parliament funding. A capital resource of £0.2 million will also be provided by the Scottish Parliament.

Stephen Boyle

Stephen Boyle
Accountable Officer
9 June 2025

Accountability report

In this section of the report we set out:

- Our Corporate governance report, including the:
 - Directors' report
 - Statement of Accountable Officer's responsibilities
 - Governance statement
 - Governance framework
- Remuneration and staff report
- Independent auditors' report

Corporate Governance Report

Directors' report

Directors

The directors of Audit Scotland are the Executive Team and non-executive board members whose details are set out in the [Governance statement](#).

Register of interests

Executive Team and board members must complete a declaration of interests. No significant company directorships or other interests were held which may have conflicted with their management responsibilities and no member of the board had any other related party interests which conflicted with their responsibilities.

Auditor of Audit Scotland

Our accounts must, under Section 19 of the Public Finance and Accountability (Scotland) Act 2000, be sent to the Scottish Commission for Public Audit (SCPA) for auditing. The SCPA appointed Alexander Sloan Accountants and Business Advisers as external auditors for a period of four years starting with the year to 31 March 2022.

Statement of Accountable Officer's responsibilities

Under Section 19(4) of the Public Finance and Accountability (Scotland) Act 2000, Audit Scotland is required to prepare resource accounts for each financial year, in conformity with the direction of Scottish ministers, detailing the resources acquired, held, or disposed of during the year and the use of resources by Audit Scotland during the year.

The resource accounts are prepared on an accruals basis and must give a true and fair view of the state of affairs of Audit Scotland, the net resource outturn, comprehensive net expenditure, cash flows and movement in taxpayers' equity for the financial year.

The SCPA has appointed the Auditor General for Scotland as Accountable Officer for Audit Scotland, with responsibility for preparing the accounts of Audit Scotland and for submitting them for audit to the SCPA.

In preparing the accounts, the Accountable Officer is required to comply with the Financial Reporting Manual (FReM) and has:

- observed the accounts direction including the relevant accounting and disclosure requirements, and applied suitable accounting policies on a consistent basis
- made judgements and estimates on a reasonable basis
- stated whether applicable accounting standards, as set out in the FReM, have been followed; and disclosed and explained any material departures in the accounts
- prepared accounts on a going concern basis.

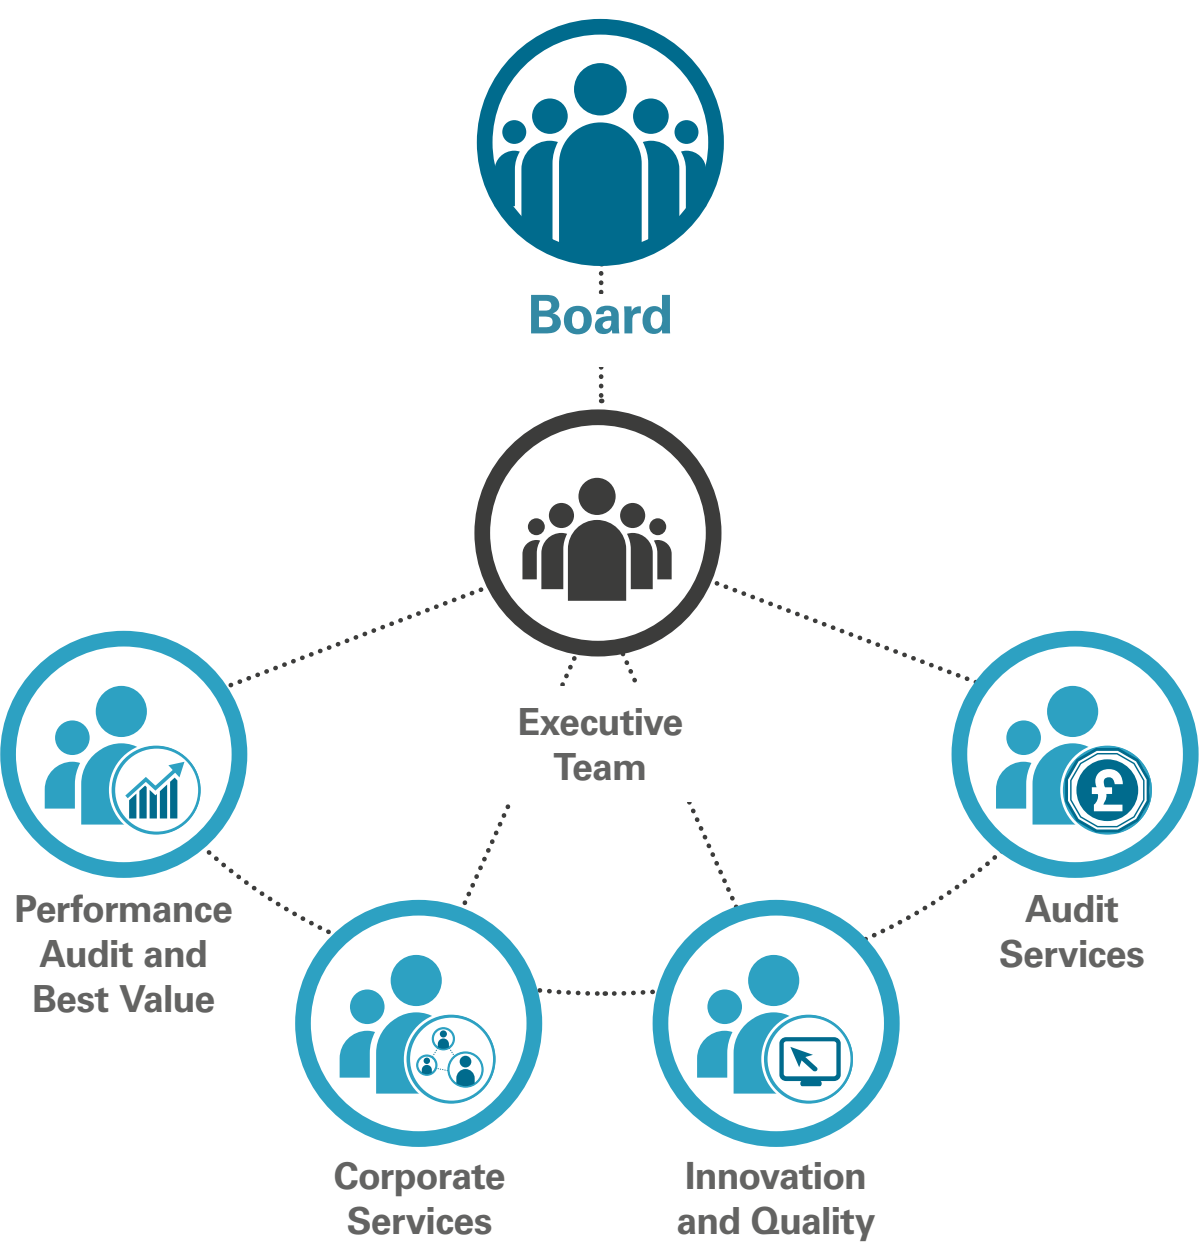

The Accountable Officer confirms that so far as he is aware there is no relevant audit information of which Audit Scotland's auditors are unaware, and that he has taken all the steps that he ought to have taken to make himself aware of any relevant audit information and to establish that Audit Scotland's auditors are aware of that information.

The Accountable Officer confirms that this annual report and accounts taken as a whole is fair, balanced and understandable. The Accountable Officer takes personal responsibility for the annual report and accounts and the judgements required for determining that it is fair, balanced and understandable.

The responsibilities of the Accountable Officer (including the propriety and regularity of the public finances) for keeping proper records and for safeguarding assets are set out in the [Memorandum to Accountable Officers for Other Public Bodies](#).

Governance statement

As Accountable Officer, I have responsibility for maintaining a sound system of internal control that supports the achievement of Audit Scotland’s policies, aims and objectives. I am also responsible for safeguarding the public funds and assets assigned to Audit Scotland, in accordance with the responsibilities set out in the [Memorandum to Accountable Officers for Other Public Bodies](#).

Board members

Colin Crosby

Independent non-executive member and Chair of the Audit Committee

Jo Armstrong

Chair of the Accounts Commission

Stephen Boyle

Auditor General for Scotland and Accountable Officer for Audit Scotland

Jackie Mann

Independent non-executive member and Chair of the Human Resources and Remuneration Committee

Patrick Bartlett

Independent non-executive member and Chair of the Audit Committee (Mr Bartlett joined the board in January 2025)

*Professor Alan Alexander OBE was chair of the board until the end of his term in September 2024

The board

The Audit Scotland Board is responsible for the exercise of all functions of Audit Scotland. It exercises its powers and authorities through a Scheme of Delegation, which it determines and approves.

The board is made up of the Auditor General, the chair of the Accounts Commission and three independent non-executive members appointed by the SCPA. The chair of the board and the board's committees are non-executive members.

Our board sets and monitors the strategic direction of Audit Scotland, oversees Audit Scotland's work and sets high standards of governance and management:

- The board meets in public and board papers are available on our [website](#).
- The board reviews the quality of board reports and the effectiveness of its meetings as a standing item at every meeting.

Giving something back

Supporting the board members of the future

In January 2025, Dr Catherine Maclean joined Audit Scotland as our first Boardroom apprentice, under a national programme to train future public sector board members.

Catherine is a consultant in acute medicine at NHS Lanarkshire with more than 20 years of experience in healthcare in Scotland.

Catherine joined our board for 12 months as part of the UK-wide [Boardroom apprentice](#) initiative. The programme places people who want to serve on public or third sector boards with organisations to learn and gain experience. The programme aims to help people from a wider diversity of backgrounds contribute to the UK's boards.

While Catherine attends all meetings, she does not have voting rights. See our website for [more information](#).

Dr Catherine Maclean
Boardroom apprentice

Board committees

The board has two standing committees:

Audit committee

This committee oversees the arrangements for corporate governance, internal control, audit quality, risk and financial management and internal and external audit. This includes reviews of the Standing Orders, Scheme of Delegation, the Financial Regulations and the annual accounts. The audit committee submits an Annual Statement of Assurance to the board.

The audit committee comprises Patrick Bartlett (chair from January 2025), Jo Armstrong and Jackie Mann. Colin Crosby was chair until October 2024. Jackie Mann chaired the committee's November meeting.

The committee appoints the internal auditors and approves the internal audit plan. Internal audit services are provided by an external firm. Following a procurement process, Wbg (formerly Wylie & Bisset) were appointed in April 2022. Six of the seven audits in 2024/25 achieved a 'strong' rating (the highest assurance rating available), while the remaining audit received a 'substantial' rating. Across the audits there were 16 recommendations, of which 14 were of low priority and two of medium priority.

Remuneration and human resources committee

This committee sets and reviews the salaries of senior staff (excluding the Auditor General, whose salary is agreed by the Scottish Parliamentary Corporate Body) and the main terms and conditions for all staff. The committee takes advice from external advisors as required.

The committee comprises Jackie Mann (chair), Jo Armstrong, Colin Crosby, Patrick Bartlett and Stephen Boyle. Alan Alexander was a member until his term as chair ended in September 2024.

Attendance during 2024/25¹:

During 2024/25:

- the Board held five ordinary meetings and two extraordinary meetings
- the Audit Committee held five ordinary meetings and one extraordinary meeting
- the Remuneration and Human Resources Committee held three ordinary meetings and one extraordinary meeting.

The figures below record all attendances. They show the number of meetings each member attended compared to the number held while each member was in post (eg, Patrick Bartlett was in post for one Board meeting, which he attended).

Committee ¹	Colin Crosby	Stephen Boyle	Jo Armstrong	Jackie Mann	Patrick Bartlett ²	Alan Alexander ³
Board (7)	7/7	7/7	7/7	7/7	1/1	5/5
Audit committee (6)	5/5	-	6/6	6/6	1/1	-
Remuneration and human resources committee (4)	4/4	4/4	4/4	4/4	1/1	2/2

Notes:

1. Board members who are not formal members of the Audit Committee and the Remuneration and Human Resources Committee attend as observers. Our board apprentice Catherine Maclean attends meetings, however she does not appear above as she is not a formal decision-maker.
2. Mr Bartlett joined the board in January 2025.
3. Professor Alexander's term as chair ended in September 2024.

Executive team

Audit Scotland's Executive Team oversees the day-to-day operations of Audit Scotland's work, with each member taking responsibility for a specific area.

During 2024/25, the Executive Team was made up of the Auditor General for Scotland, who is the Accountable Officer, the Chief Operating Officer, the Controller of Audit and three executive directors. It normally meets on a weekly basis, takes business decisions and considers regular reports from managers on the progress towards meeting the organisation's objectives.

Parliamentary accountability

Audit Scotland is held to account by the Parliament through statutory arrangements put in place by the Scotland Act 1998 and through the Public Finance and Accountability (Scotland) Act 2000.

Our spending and use of resources are examined by the SCPA, a statutory body comprising five MSPs which meets in public and reports to the Parliament.

The SCPA appoints our non-executive board members and chair, scrutinises our budget, annual report and accounts, and produces reports on these. It appoints our external auditors, currently Alexander Sloan LLP Accountants and Business Advisers.

In considering the 2025/26 [budget proposal](#), the SCPA explored a number of areas including the impact of the 35-week on productivity, our vacancy factor, audit modernisation, increased National Insurance costs, and the potential of private firms moving out of the public audit market.

The SCPA supported the 2025/26 budget proposal in principle and submitted it to the Finance Committee. The SCPA's report said it understood why audit modernisation and increased National Insurance costs needed to be funded by the Parliament, but expected these to be recovered through fees in future. It also said the Commission was 'encouraged' by our 'positive' response to its requests for additional evidence on how we have achieved efficiency savings.

Governance framework

As Accountable Officer, I have responsibility for reviewing the effectiveness of the systems of internal control. The systems seek to identify the principal risks to the achievement of Audit Scotland's policies, aims and objectives. They are designed to manage rather than eliminate the risk of failure and they follow the guidance to public bodies as set out in the Scottish Public Finance Manual.

Risk management and control

The board sets the strategic direction for Audit Scotland in consultation with the Auditor General and the Accounts Commission.

The board's audit committee has responsibilities for risk, control, assurance, audit quality and governance. The committee recommends the appointment of our internal auditors and receives our annual accounts and internal and external audit reports.

We have a [Risk Management Framework](#) which sets out how we manage risk within the organisation. Included within the Framework is how we use the corporate and other risk registers. We use the risk register to record the key risks facing the organisation, analyse the likelihood and impact of the risk crystallising, and capture the active and monitoring controls in place and the ways in which the risk is monitored. The register also identifies any actions required to further reduce the risk. The risks are aligned to our strategic objectives and many of the mitigating actions form part of our strategic improvement programme.

The risk register is reviewed regularly by the Executive Team and by the Audit Committee.

At the operational level, risks are managed by relevant business groups. Information risk is managed by the Corporate Information Governance Management Group.

The corporate risk register, as at March 2025, records key strategic risks for action and attention relating to our capacity to protect against cyber and information security threats and to recover from a successful cyber-attack, maintaining audit quality and sustainability in audit delivery, maintaining our organisational capacity and staff health, safety and wellbeing, demonstrating efficiency and value for money, promoting innovation and implementing our audit modernisation project, maintaining private sector interest in the public sector audit market, and delivering the current operational and financial plans.

Many of the risks are interlinked; for example, risks to cyber security could have an impact on audit delivery.

Information security

Highly-effective digital services are essential to our business. We continue to enhance our digital services, systems and devices, ensuring that we have resilient and high-quality systems to support our audit work.

Our Digital Services Strategy 2021-24 focused on three objectives: cyber security; providing a virtual business; and digital transformation. Our new Digital Services Strategy 2025-28 is due to be published in June 2025. It will expand on these objectives and focus on how AI and better collaboration can deliver efficiencies while increasing the effectiveness of our audit work.

We have privileged access to information to support our audit function and ensure that reports to the Parliament and the Accounts Commission are factual, accurate, and complete. Audit Scotland must ensure this privileged information is properly safeguarded. We maintain ISO 27001 certification for our information security and cyber resilience frameworks.

Information security and data protection training is part of our induction process, and all staff must complete monthly cyber security training and follow data protection updates. Cyber resilience features prominently in our risk registers, is a standing item for our Information Governance and Management Group, and is reported to our executive team and the audit committee every six months.

There have been no incidents of personal data loss in 2024/25 which required to be notified to the Information Commissioner.

Fraud, corruption and bribery

Audit Scotland has policies and procedures on fraud, corruption and bribery and these are reviewed and updated on a regular basis. They include the counter-fraud policy; the staff and members' codes of conduct; the annual 'fit and proper review' (which covers every member of staff); the terms and conditions for the supply of goods and services; and the broader financial governance arrangements.

Audit Scotland subscribes to the principles outlined in the Scottish National Fraud Initiative (NFI). We include data on our staff as part of the NFI exercise.

We maintain a hospitality and gifts register, which is updated regularly and published on our website.

We produce annual reports on fraud and bribery and hospitality and gifts. These are considered by the audit committee and this forms part of the

annual assurance process. The 2024/25 reports confirms that there were no instances of fraud or bribery identified or detected in Audit Scotland this year.

Review of effectiveness of internal control and risk management

The systems of internal control are designed to evaluate the nature and extent of any risks and to manage them efficiently, effectively and economically.

The systems are based on a framework of regular management information, administrative procedures and a system of delegation and accountability. This includes:

- detailed budgeting processes with an annual budget approved by the board
- regular reviews by the board and the management team of financial reports covering progress towards financial targets
- annual reviews and updates to Standing Orders, Scheme of Delegation and Financial Regulations
- quarterly reviews of the corporate risk register
- risk workshops/ 'deep dives' into specific risks
- the programme of internal and external audits.

The systems are designed to manage rather than eliminate the risk of failure to achieve Audit Scotland's policies, aims and objectives. It can therefore only provide reasonable and not absolute assurance of effectiveness.

The system has been in place for the year ended 31 March 2025 and up to the date of approval of the annual report and accounts.

As Accountable Officer, I have responsibility for reviewing the effectiveness of the systems of internal control and risk management arrangements. My review is informed by:

- an assurance framework established in accordance with the Scottish Public Finance Manual that provides certificates of assurance from executive directors and senior managers who are responsible for developing, implementing and maintaining internal controls across their delegated areas
- the work of the internal auditors, which is directed through an audit plan agreed by the audit committee and focuses on areas of identified risks to our controls. The internal auditors submit regular reports on the adequacy and effectiveness of the organisation's systems of internal control together with recommendations for improvement

- quarterly reviews by the audit committee of the organisation's corporate risk register and the work of internal audit in assessing the effectiveness of risk management arrangements
- comments made by the external auditors in their management letters and other reports.

Significant issues

During the financial year to 31 March 2025 and to the date of this statement no significant control weaknesses or issues have arisen, and no significant failures have arisen in the expected standards for good governance, risk management and control.

Remuneration and staff report

Remuneration policy

The Auditor General for Scotland

The Auditor General for Scotland is not an employee of Audit Scotland. He is a Crown appointment following nomination by Parliament. His appointment is for a fixed term of eight years from 1 July 2020 and his salary is determined by the Scottish Parliamentary Corporate Body.

Audit Scotland Board

Under the provisions of Schedule 2 of the Public Finance and Accountability (Scotland) 2000 Act, the Auditor General and the chair of the Accounts Commission are not entitled to any remuneration in respect of their membership of the Audit Scotland Board.

The Audit Scotland Board has three independent members including the chair of the board. The annual remuneration for independent members of the board is set by the Scottish Commission for Public Audit (SCPA). All independent board member appointments are part-time and non-pensionable. Independent board member remuneration was:

Remuneration banding (audited) ¹	2024/25 £000	2023/24 £000
Chair – Colin Crosby ²	10 - 15	5 - 10
Chair – Alan Alexander ³	5 - 10	10 - 15
Independent board member – Jackie Mann	5 - 10	5 - 10
Independent board member – Patrick Bartlett ⁴	0 - 5	-

Notes:

1. Catherine Maclean joined the board as an apprentice in January 2025. She does not receive remuneration, but does receive expenses.
2. Mr Crosby's term as chair started on 4 October 2024. Full year equivalent remuneration £15k - £20k as Chair and £5k - £10k as independent board member.
3. Professor Alexander's term as chair ended on 3 October 2024. Full year equivalent remuneration £15 - £20k.
4. Mr Bartlett joined the board on 22 January 2025. Full year equivalent remuneration £5k - £10k.

Accounts Commission for Scotland

Members of the Accounts Commission are appointed by Scottish ministers, who also set their remuneration. Commission members are not employed by Audit Scotland. Detail of their remuneration is not required under the policy outlined in the FReM, but we include the following details for information and transparency.

All Commission member appointments are part-time and non-pensionable. The average number of members of the Commission throughout the period was 12 (12 in 2023/24). The total amount of remuneration to Commission members in 2024/25 was £185k. They were remunerated in the following bands:

	2024/25 £000	2023/24 £000
Remuneration banding (audited)		
Chair – Jo Armstrong ¹	45 - 50	5 - 10
Deputy Chair – Andrew Burns ²	15 - 20	-
Commission Members (10)	5 - 10	5 - 10
Interim Chair – Ronnie Hinds ³	-	30 - 35
Chair – William Moyes ⁴	-	0 - 5
Deputy Chair – Tim McKay ⁵	-	5 - 10

Notes:

1. Ms Armstrong joined the Commission on 1 February 2024. Full year equivalent remuneration in 2023/24 £45k - £50k.
2. Mr Burns was appointed deputy chair on 1 April 2024. During 2023/24 he was a member.
3. Mr Hinds was interim chair from 1 June 2023 to 31 January 2024. Full year equivalent remuneration £45k - £50k.
4. Dr Moyes was chair until 5 May 2023. Full year equivalent remuneration £45k - £50k.
5. Mr McKay was deputy chair until 31 October 2023. Full year equivalent remuneration £15k - £20k.

Audit Scotland staff remuneration

Audit Scotland has a remuneration and human resources committee that sets the remuneration and terms and conditions of employment of Audit Scotland staff. Levels of remuneration are set at an appropriate level to recruit, retain and motivate able, qualified and high-calibre people within our budget.

Executive Team

Stephen Boyle
Auditor General for
Scotland and Accountable
Officer for Audit Scotland

Vicki Bibby
Chief Operating Officer

John Cornett
Executive Director of
Audit Services

Alison Cumming
Executive Director of
Performance Audit and
Best Value (from
9 September 2024)

Kenneth Oliver
Executive Director of
Innovation and Quality

Helena Gray
Controller of Audit
(from April 2023)

The salaries (excluding employer’s superannuation and national insurance contributions), benefits in kind and pension entitlements of the executive team are shown in the following tables. Information is presented for the whole year to 31 March 2025. Further information on the pensions payable to Audit Scotland staff, including senior management, can be found in [Note 3. Pension assets and liabilities \(page 73\)](#).

Accrued pension benefits included in this table for any individual affected by the Public Service Pensions Remedy have been calculated based on their inclusion in the legacy scheme for the period between 1 April 2015 and 31 March 2022, following the McCloud judgment. The Public Service Pensions Remedy applies to individuals that were members, or eligible to be members, of a public service pension scheme on 31 March 2012 and were members of a public service pension scheme between 1 April 2015 and 31 March 2022. The basis for the calculation reflects the legal position that impacted members have been rolled back into the relevant legacy scheme for the remedy period and that this will apply unless the member actively exercises their entitlement on retirement to decide instead to receive benefits calculated under the terms of the Alpha scheme for the period from 1 April 2015 to 31 March 2022.

Single total remuneration (Audited)	2024/25 Salary £000	2023/24 Salary £000	2024/25 Benefit in kind £	2023/24 Benefit in kind £	2024/25 Pension Benefit ¹ £000	2023/24 Pension Benefit ¹ £000	2024/25 Total £000	2023/24 Total £000
Stephen Boyle Auditor General for Scotland	175 – 180	160 – 165	-	-	68	63	240 – 245	225 – 230
Vicki Bibby Chief Operating Officer	145 – 150	135 – 140	-	-	63	30	210 – 215	165 – 170
John Cornett Executive Director of Audit Services	135 – 140	125 – 130	-	-	44	27	180 – 185	155 – 160
Alison Cumming² Executive Director of Performance Audit and Best Value (from 9 September 2024)	70 – 75	-	-	-	-	-	70 – 75	-
Helena Gray Controller of Audit	130 – 135	125 – 130	-	-	107	-	240 – 245	125 – 130

Kenneth Oliver Executive Director of Innovation and Quality	130 – 135	125 – 130	-	-	147	-	280 – 285	125 – 130
Antony Clark³ Executive Director of Performance Audit and Best Value (until 3 September 2024)	55 – 60	125 – 130	-	-	-	13	55 – 60	140 – 145

Notes:

1. The value of pension benefits accrued during the year is calculated as the real increase in pensions and applying the HMRC methodology multiplier of 20 plus the real increase in any lump sum. The real increases exclude increases due to inflation (4.1 per cent) and are net of contributions made by the individual. This figure can be significant in year one for new members of the Executive Team with prior service in the scheme.
2. 2024/25 full year equivalent salary £125,000 to £130,000.
3. 2024/25 full year equivalent salary £135,000 to £140,000.

Accrued pension benefits included in this table for any individual affected by the Public Service Pensions Remedy have been calculated based on their inclusion in the legacy scheme for the period between 1 April 2015 and 31 March 2022, following the McCloud judgment. The Public Service Pensions Remedy applies to individuals that were members, or eligible to be members, of a public service pension scheme on 31 March 2012 and were members of a public service pension scheme between 1 April 2015 and 31 March 2022. The basis for the calculation reflects the legal position that impacted members have been rolled back into the relevant legacy scheme for the remedy period and that this will apply unless the member actively exercises their entitlement on retirement to decide instead to receive benefits calculated under the terms of the Alpha scheme for the period from 1 April 2015 to 31 March 2022.

Pensions (Audited)	Accrued pension at 31 March 2025 £000	Accrued lump sum at 31 March 2025 £000	Real increase in annual pension £000	Real increase in lump sum £000	CETV at 31 March 2025 ¹ £000	CETV at 31 March 2024 ¹ £000	Real increase in CETV ¹ £000
Stephen Boyle Auditor General for Scotland	15 – 20	-	2.5 – 5.0	-	183	131	24
Vicki Bibby Chief Operating Officer	35 – 40	20 – 25	2.5 – 5.0	0.0 – 2.5	587	508	64
Alison Cumming² Executive Director of Performance Audit and Best Value (from 9 September 2024)	-	-	-	-	17	-	10
John Cornett Executive Director of Audit Services	10 – 15	-	2.5 – 5.0	-	229	173	43

Kenneth Oliver Executive Director of Innovation and Quality	5 – 10	-	7.5 – 10.0	-	95	57	25
Antony Clark Executive Director of Performance Audit and Best Value (until 3 September 2024)	-	-	-	-	-	767	-

Notes:

1. A CETV is the actuarially assessed capitalised value of the pension scheme benefits accrued by a member at a point in time. The benefits valued are the member's accrued benefits and any contingent spouse's pension payable from the scheme. A CETV is a payment made by a pension scheme or arrangement to secure pension benefits in another pension scheme or arrangement when the member leaves a scheme and chooses to transfer the benefits accrued in their former scheme.

The pension figures shown relate to the benefits that the individual has accrued because of their total membership of the scheme including any benefit transferred from another scheme and not just their service in a senior capacity to which the disclosure applies. The real increase in CETV reflects the increase in CETV effectively funded by the employer. It does not include the increase in accrued pension benefits due to inflation, contributions paid by the employee and uses common market valuation factors for the start and end of the period.

2. No pension benefits payable with less than two years' service.

Fair pay disclosure (audited)

Reporting bodies are required to disclose the relationship between the remuneration of the highest-paid director in their organisation and the lower quartile, median and upper quartile remuneration of the organisation's workforce.

Total remuneration includes salary, non-consolidated performance-related pay and benefits-in-kind. It does not include severance payments, employer pension contributions or the CETV of pensions.

	2024/25	2023/24
Remuneration banding for highest paid individual	£175,000 - £180,000	£165,000 - £170,000
Percentage change from previous financial year for highest paid individual	+6.0%	+8.0%
Average percentage change from previous financial year for employees	+2.5%	+5.6%
Lower quartile remuneration	£36,370	£37,238
Lower quartile ratio	4.9	4.5
Median remuneration	£51,058	£50,304
Median ratio	3.5	3.3
Upper quartile remuneration	£62,820	£60,877
Upper quartile ratio	2.8	2.8
Remuneration range	£25,000 - £175,000 to £180,000	£22,500 - £165,000 to £170,000

The percentage increase in the remuneration of the highest paid individual and the average change for employees includes the impact of incremental progression and the cost of living pay award.

The Auditor General is the highest paid individual. He is not an Audit Scotland employee. He is a Crown appointment and his salary is set by the Scottish Parliamentary Corporate Body, not Audit Scotland.

The pay settlement for 2024/25 was 4.2 per cent across the organisation. However, the movement from 2023/24 of the average percentage change for employees, lower quartile remuneration and lower quartile ratio disclosed above is due to our policy to increase the number of trainees, modern apprentices and student placements. The impact of this leads to a lower increase in average pay, with the increase in employees at the lower pay scale bringing the average salary down from the previous year even though the pay settlement was the same for all employees.

Audit Scotland has a consistent pay, reward and progression policy for all its employees which is reflected in the movement in remuneration and ratios for the median and upper quartile.

Pensions

Employees of the NAO transferring to Audit Scotland on 1 April 2000 and the Auditor General for Scotland have pension benefits provided through the Principal Civil Service Pension Scheme (PCSPS). Audit Scotland makes payments of superannuation contributions to PCSPS at rates set by the Government Actuary.

All other staff are eligible to enter the Local Government Superannuation Scheme in Scotland. Audit Scotland has an agreement with The City of Edinburgh Council under which all staff are eligible to enter the Lothian Pension Fund (the name of the Local Government Superannuation Scheme managed by the council) in accordance with its rules. It is a defined benefit scheme providing pension benefits and life assurance for all permanent staff.

Employment contracts

Audit Scotland staff hold permanent appointments which are open-ended until they retire. Early termination, other than through misconduct, would result in the individual receiving compensation.

Staff report

	2024/25	2023/24	2022/23

Turnover rate	10.09%	9.33%	9.02%
Trainee auditors	57	49	48

In recent years we have bolstered our quality and professional development capacity.

In 2024/25, we revamped our recruitment approach, introducing a recruitment board to review all recruitment requests. We are also moving our vacancy factor from two to five per cent. We ended our career development gateway programme as it was no longer appropriate. We introduced a revamped performance appraisal and development approach that aligns individual objectives with corporate priorities, and aids flexible deployment of resources.

Health and wellbeing

The wellbeing of our staff is fundamental to our organisation, and one of the five pillars of our People strategy 2024-28. In November, we published our Health, safety and wellbeing plan 2024-28. See Making a difference on [page 23](#).

Learning and development

Our People strategy will help us to look ahead at the skills that the future auditor will need and to consider the development of our target operating model in line with this.

We are committed to being innovative and creative about how we develop and support our people. Our Learning and development plan sets out the learning for colleagues based on our strategic priorities, areas identified through quality reviews and engagement with colleagues. The plan focuses on helping our colleagues to develop the right knowledge, skills and behaviours to deliver high-quality audits, equip them for the future and demonstrate Audit Scotland's values.

The plan expands mandatory learning to cover the increased demands within the audit profession, the role of managers and to protect time for learning. This provides the basis for colleagues to meet relevant continuous professional development requirements.

This is complemented by self-directed learning through our personal development process. This empowers colleagues to target their learning to individual professional needs, career aspirations and corporate objectives.

All planned learning is accessed through our learning management system, and a mix of in-person course and online modules tailored to each colleague's role and responsibilities. Each staff member received an average of 19.9 days training during 2024/25 (18.5 in 2023/24).

Organisational development

We are committed to organisational development and 'Developing our people and our business' and 'Insights driving innovation and improvement' are two of our five strategic objectives set out in our [Corporate plan 2023-28](#).

We have a strategic improvement plan in place and our development work is led and supported by our Innovation and Quality business group. Its mission includes leading organisational transformation and development, providing technical and professional expertise and a constructive quality monitoring process. This includes continually enhancing methodologies and best practice and the effective use of new technologies, delivering professional learning and development, and driving our role as system leader for public audit.

We have an excellent working relationship with the Public and Commercial Services (PCS) union. We work collaboratively with PCS and have successfully concluded negotiations in connection with pay. In 2024, we settled a two-year deal for both 2024/25 and 2025/26, giving staff assurance and early information about pay, and the organisation stability and clearer financial planning. We also involve PCS in a range of projects to improve the work experience of colleagues which focus upon how our work gets done.

Early retiral and severance (audited)

In the year to March 2025, no member of staff left under a voluntary early release arrangement.

Further disclosure on early retirement and severance is set out in Note 14. Provision for early retirement and severance ([page 84](#)).

Exit package cost band	2024/25	2023/24

Staff relations

We recognise the importance of good industrial relations and effective communication with our staff. A partnership forum between members of Audit Scotland management and staff representatives of the Public and Commercial Services union (PCS) meet regularly and has been in place since 2002.

The Trade Union (Facility Time Publication Requirements) Regulations 2017 came into force on 1 April 2017 and the information requirements of the Regulations for 2024/25 are disclosed in the following tables.

Relevant union officials

Number of employees who were relevant union officials during the relevant period	11
Full-time equivalent employee number	10.68

Total pay bill	£23,655,146
Percentage of total pay bill spent on facility time	0.1%

Paid trade union activities

Time spent on paid trade union activities as a percentage of total paid facility time	3.3%
---	------

Diversity, equality and inclusion

We actively strive to improve diversity and equality, not only in Audit Scotland but also across the public sector through our audit work.

Audit Scotland is committed to eliminating discrimination, and valuing and promoting equality, diversity and inclusion among our workforce. Through our partnership with Business in the Community, we have received support to develop a new DEI strategy, published in April 2025, as well as L&D support for colleagues, and support with benchmarking our progress.

We are actively working to increase the diversity of our workforce. Our policy is to treat all job applicants and employees equitably regardless of age, disability, sex, gender reassignment status, marriage or civil partnership status, maternity or pregnancy, race, religion or belief or sexual orientation. More information is in our [Equality Outcomes report 2021-25](#). This details our commitments to increasing diversity, equality and inclusion, how we achieve this and how we will measure our performance. In October, we widened the range of DEI data we collect to include areas such as carer status and social mobility.

We published our eighth [Gender pay gap report](#) in September 2024, based on a snapshot at 31 March 2024. Our workforce of 341 full pay employees was made up of 194 women (56.89 per cent) and 147 men (43.1 per cent). This included 45 graduate trainees, comprising 23 women and 22 men.

At 31 March 2024, the pay gap between male and female staff was 3.76 per cent by mean average, and 2.6 per cent by median. This means that, on average, female staff were paid 97 pence for every £1 paid to male colleagues. We have narrowed the gap over recent years and will continue to address the reasons behind it. A factor may be a higher proportion of female colleagues working part-time; women comprise 80 per cent of our part-time workforce.

Audit Scotland has six diversity network groups, led by colleagues for colleagues. As well as providing support to colleagues, our networks engage with our leadership on a wide range of areas affecting staff and working practices. Our networks are: carers support group; disability confident group; LGBTQ+ network; managing menopause group; neurodiversity group; and REACH (race, ethnicity and cultural heritage) group.

Human rights

Human rights and equalities considerations are central to how we assess the delivery of public services. We integrate these from the outset of audits and projects and are committed to ensuring that the experience of service users is reflected in our auditing and reporting.

Our work and progress in human rights is shaped and overseen by our internal Equality and Human Rights Steering Group.

Ongoing engagement with stakeholders is invaluable in informing and challenging our approach. This includes working with our external [Equalities and Human Rights Advisory Group](#), which has representatives from 21 wide-ranging equality and human rights organisations.

Our [Mainstreaming Equality and Equality Outcomes 2019-21](#) outlines the progress we have made to date.

Giving something back

We are committed to conducting our work to the highest standards, building positive relationships with communities across Scotland and empowering our workforce to give back through volunteering and other activities.

In June 2024, we published our Social responsibility strategy 2024-28 alongside our new Volunteering policy. Our strategy sets out our pillars of: environmental; diversity, equality and inclusion; and communities. Our volunteering policy supports colleagues to volunteer or participate in fundraising or awareness-raising activities.

During 2024/25, ten colleagues took paid volunteer leave.

Independent auditors' report

To the Scottish Commission for Public Audit (under Section 25(3) of Public Finance and Accountability (Scotland) Act 2000).

Opinion

We have audited the accounts of Audit Scotland for the year ended 31 March 2025 which comprise the Statement of Comprehensive Net Expenditure, Statement of Financial Position, Statement of Cash Flows, Statement of Changes in Taxpayers' Equity and the related notes 1 to 20. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the UK, and as interpreted and adapted by the 2024/25 Government Financial Reporting Manual (the 2024/25 FReM) and directions made by Scottish ministers.

In our opinion the accounts:

- give a true and fair view of the state of Audit Scotland as at 31 March 2025 and of its net resource outturn for the year then ended
- have been properly prepared in accordance with IFRSs as adopted by the UK as interpreted and adapted by the 2024/25 FReM
- have been properly prepared in accordance with the Public Finance and Accountability (Scotland) Act 2000 and Directions by Scottish ministers issued thereunder.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the accounts section of our report. We are independent of Audit Scotland in accordance with the ethical requirements that are relevant to our audit of the accounts in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the accountable officer's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on Audit Scotland's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the accountable officer with respect to going concern are described in the relevant sections of this report.

Other information in the annual accounts

The accountable officer is responsible for the other information. The other information comprises the information other than the accounts, the audited part of the Remuneration Report, and our auditor's report thereon. Our opinion on the accounts does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. As auditors we are not required to consider whether the Accountable Officer's Governance statement covers all risks and controls, nor are we required to form an opinion on the effectiveness of the risk and control procedures.

In connection with our audit of the accounts, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the accounts or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the accounts or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on regularity

In our opinion in all material respects:

- the expenditure has been incurred and the receipts have been applied in accordance with Section 22(1)(a) and (b) of the Public Finance and Accountability (Scotland) Act 2000

- the sums paid out of the Scottish Consolidated Fund for the purpose of meeting the expenditure shown in the accounts were applied in accordance with Section 65 of the Scotland Act 1998.

Opinion on other matters

In our opinion:

- the sections of the Remuneration Report marked as audited have been properly prepared in accordance with the Direction by the Scottish ministers
- the information given in the Accountability report is consistent with the accounts.

Matters on which we are required to report by exception

We are required to report to you if, in our opinion:

- adequate accounting records have not been kept; or
- the accounts are not in agreement with the accounting records and returns; or
- certain disclosures of Board and staff remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the Accountable Officer's Governance statement contains any apparent misstatements or material inconsistencies with the accounts.

We have nothing to report in respect of these matters.

Responsibilities of the Accountable Officer

As explained more fully in the Statement of Accountable Officer's responsibilities, the Accountable Officer is responsible for the preparation of the accounts in conformity with the Direction by the Scottish ministers and for being satisfied that they give a true and fair view. The Accountable Officer is responsible for the propriety and regularity of the public finances, for keeping proper books and for safeguarding assets, as set out in the Accountable Officer's Memorandum.

In preparing the accounts, the Accountable Officer is responsible for assessing Audit Scotland's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Audit Scotland plans to cease operations or has no realistic alternative to do so.

Auditor's responsibilities for the audit of the accounts

Our objectives are to obtain reasonable assurance about whether the accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these accounts.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

The extent to which the audit was considered capable of detecting irregularities including fraud

Our approach to identifying and assessing the risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, was as follows:

- the engagement partner ensured that the engagement team collectively had the appropriate competence, capabilities and skills to identify or recognise non-compliance with applicable laws and regulations;
- we gained an understanding of the legal and regulatory framework applicable to Audit Scotland through discussions with management, and from our wider knowledge and experience;
- we focused on specific laws and regulations which we considered may have a direct material effect on the financial statements or the operations of Audit Scotland, including The Financial Reporting Manual, Public Finance and Accountability (Scotland) Act 2000, Directions by Scottish ministers and other laws and regulations applicable to Audit Scotland. We also considered the risks of non-compliance with the other key legislation and we considered the extent to which non-compliance might have a material effect on the financial statements;
- we assessed the extent of compliance with the laws and regulations identified above through making enquiries of management and inspecting legal correspondence; and
- identified laws and regulations were communicated within the audit team regularly and the team remained alert to instances of non-compliance throughout the audit.

We assessed the susceptibility of Audit Scotland's financial statements to material misstatement, including obtaining an understanding of how fraud might occur, by:

- making enquiries of management as to where they considered there was susceptibility to fraud, their knowledge of actual, suspected and alleged fraud; and
- considering the internal controls in place to mitigate risks of fraud and non-compliance with laws and regulations.

To address the risk of fraud through management bias and override of controls, we:

- performed analytical procedures to identify any unusual or unexpected relationships;
- tested journal entries to identify unusual transactions;
- assessed whether judgements and assumptions made in determining the accounting estimates set out in the Notes were indicative of potential bias; and
- investigated the rationale behind significant or unusual transactions.

In response to the risk of irregularities and non-compliance with laws and regulations, we designed procedures which included, but were not limited to:

- agreeing financial statement disclosures to underlying supporting documentation;
- attending audit committee meetings during the year and reviewing the minutes of meetings of those charged with governance;
- enquiring of management as to actual and potential litigation and claims;
- enquiring of management as to whether there has been any legal correspondence.

There are inherent limitations in our audit procedures described above. The more removed that laws and regulations are from financial transactions, the less likely it is that we would become aware of non-compliance. Auditing standards also limit the audit procedures required to identify non-compliance with laws and regulations to enquiry of the accountable officer and other management and the inspection of regulatory and legal correspondence, if any.

Material misstatements that arise due to fraud can be harder to detect than those that arise from error as they may involve deliberate concealment or collusion.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. The description forms part of our audit report.

Use of Our Report

The report is made solely to the Scottish Commission for Public Audit, as a body, in accordance with Section 25 of the Public Finance and Accountability (Scotland) Act 2000. Our audit work has been undertaken so that we might state to the Scottish Commission for Public Audit those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Scottish Commission for Public Audit as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the accounts

1. Statement of accounting policies

The accounts have been prepared in accordance with the accounts direction issued by Scottish ministers under section 19(4) of the Public Finance and Accountability (Scotland) Act 2000 and also in accordance with the Financial Reporting Manual (FReM) applicable for the year. The accounting policies contained in the FReM apply UK adopted International Financial Reporting Standards (IFRS) as adapted or interpreted for the public sector context. Where the FReM permits a choice of accounting policy, the accounting policy which is judged to be most appropriate to the particular circumstances of Audit Scotland for the purpose of giving a true and fair view has been selected. The accounting policies adopted by Audit Scotland are described below. They have been applied consistently in dealing with items considered material in relation to the accounts.

a) Basis of accounting

The accounts have been prepared under the historical cost convention. Figures are presented in pounds sterling and are rounded to the nearest £1,000. In accordance with the principles of resource accounting, the gross funding received from the Scottish Consolidated Fund is recorded directly within the General Fund and is not included in the operating income received in the year in the Statement of Comprehensive Net Expenditure.

In common with similar public bodies, the future financing of Audit Scotland's liabilities will be met by future grants of Supply and the application of future income, both to be approved annually by the Scottish Parliament. The approval of amounts for 2025/26 has already been given and there is no reason to believe that future approvals will not be forthcoming. Accordingly, it is considered appropriate to adopt a going concern basis for the preparation of these financial accounts.

b) New accounting standards not yet effective

Audit Scotland disclose accounting standards not yet applied and assesses the possible impact that initial application would have on the financial statements. There is one standard not yet effective, IFRS 17 (Insurance Contracts).

IFRS 17 (Insurance Contracts) was issued in May 2017, replacing IFRS 4 Insurance Contracts, with the effective date of the standard in the public sector being 1 April 2025. IFRS 17 requires that insurance liabilities be measured at the present value of future cash flows, resulting in more uniform measurements and presentation for all insurance contracts.

Management has assessed the likely effect of the new standard and has concluded that there are no material assets or liabilities recognised as insurance contracts in Audit Scotland and this standard will have no impact on Audit Scotland's accounts.

c) Non-current assets

The minimum level of capitalisation for a non-current asset is £5,000 for individual or group purchases. Non-current assets are held at fair value. Depreciated historic cost has been used as a proxy for fair value due to the low value and short life of the assets held. All property occupied by Audit Scotland is leasehold.

d) Depreciation

Depreciation has been provided at a rate calculated to write off cost in equal annual instalments over the estimated useful lives of assets. Asset cost is written off as follows:

Leasehold premises	remaining period of lease (from 1–15 years)
Furniture and fittings	5 years
Computer equipment	3 - 5 years
Software	3 - 5 years

e) Operating income

Operating income relates directly to the audit activities of Audit Scotland and income recognition is consistent with the principles of IFRS 15 Revenue from Contracts with Customers.

Operating income comprises fees for financial audit that are recognised on the basis of work undertaken for the year and charges for other work which are recognised evenly throughout the year.

f) Work in progress

Work in progress is valued on the basis of a proportion of the agreed auditor remuneration earned by the balance sheet date less an allowance for any foreseen losses. This calculation is based on an assessment of the amount of audit work completed by the balance sheet date as a proportion of the total expected amount of audit work. Payments made or received on account of work in progress in excess of or below the value of carrying out the relevant work are included in debtors or creditors as appropriate.

g) Leases

IFRS 16 requires Audit Scotland to recognise an asset in the Statement of Financial Position where under the contract it has exclusive right to use the asset (right-of-use assets). A corresponding lease liability is recognised at the same time. Recognition exemptions have been applied for short-term and low-value leases.

The definition of a lease under IFRS 16 has been applied to contracts entered into after the 1 April 2022. Upon lease commencement a right-of-use asset and lease liability are recognised.

At the commencement of a new, or extension of an existing, property lease Audit Scotland recognises a right-of-use asset and a lease liability. The lease liability is measured at the present value of the payments for the remaining lease term, net of irrecoverable VAT, discounted by the rate implicit in the lease, or where this cannot be determined, the rate advised by HM Treasury for the calendar year.

In respect of new car leases the right-of-use asset and lease liability are measured at cost and not discounted as the difference is not material due to the short nature and annual payment in advance contractual arrangements.

The right-of-use asset is subsequently depreciated, in the same way as other assets of the same type, using a straight-line method from the commencement date over the lease term, which is equal to, or shorter than, the asset's useful life. The right-of-use asset will be periodically reviewed to account for any potential impairment losses and any material remeasurement of the lease liability.

h) Value Added Tax (VAT)

Input tax in respect of external auditor fees and expenses incurred in the delivery of local authority audits is reclaimed from HMRC on behalf of the Accounts Commission and is used to offset audit fees payable by local authorities. All other input tax is charged to the Statement of Comprehensive Net Expenditure. Audit Scotland is registered for VAT in respect of business activities.

i) Pension arrangements

Audit Scotland complies with the requirements of International Accounting Standard No 19 (IAS 19) for the year ended 31 March 2025. Audit Scotland makes pension provision for present and former employees through two pension schemes. Employees joining Audit Scotland after 1 April 2000, and those transferring to Audit Scotland from the Accounts Commission, have benefits provided through the Local Government Pension Scheme. Employees transferring to Audit Scotland at 1 April 2000 from the NAO are covered by the provisions of the Principal Civil Service Pension Scheme. The Auditor General for Scotland has benefits provided through the Principal Civil Service Pension Scheme.

j) Key sources of judgement and estimation uncertainty

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates, assumptions and judgements that have a risk of adjustment to the carrying amount of assets and liabilities within the financial statements within the next financial year are:

- Revenue recognition is based on time charged to audits adjusted where applicable to reflect the stage at which completion of work is done. At the year-end an assessment is undertaken to consider the reasonableness of income recognised in the Statement of Comprehensive Net Expenditure. Income recognised in advance of invoices being raised is treated as Work in Progress ([see Note 9](#)). Invoices raised in advance of work being done is treated as Deferred Income ([see Note 12](#)).
- Provisions have been made where in the opinion of management it is more likely than not that a financial liability exists which cannot be accurately quantified at present ([see Notes 13 and 15](#)).
- Estimation of the net pension liability or asset is based on a number of complex judgements including the discount rate, salary increase rate, retirement ages, mortality rates and expected returns on pension fund assets, following work carried out by our actuaries. Further estimates consider the extent to which the IAS19 and IFRIC14 asset ceiling limits on defined benefits are applied based on the estimated present values of future service costs and minimum funding contributions. If these estimates project that minimum funding contributions will be in excess of future service costs then in accordance with IFRIC14 no pension asset will be recognised and an asset ceiling of Nil will be applied. Note 3 provides more detail on the movement in the net pension position.

2. People costs and numbers

More details on staff numbers and related costs can be found in the Staff Report on pages [51 to 52](#).

	2025 £000	2024 £000
Wages and salaries	18,738	17,216
Social Security and Employment Tax costs	2,081	1,990
Pension and Early Retirement / Severance Costs	3,200	3,149
	24,019	22,355

3. Pension assets and liabilities

In accordance with IAS 19, Audit Scotland is required to disclose certain information concerning assets, liabilities, income and expenditure related to pension schemes for its employees. Audit Scotland operates two main pension schemes; the Local Government Pension Scheme, administered by the Lothian Pension Fund, and the Principal Civil Service Pension Scheme (PCSPS). Audit Scotland is not required to record information related to the PCSPS as the scheme does not identify assets and liabilities by employer.

a) Local Government Pension Scheme

Audit Scotland has an agreement with The City of Edinburgh Council under which all staff are eligible to enter the Lothian Pension Fund (the name of the Local Government Superannuation Scheme managed by the council) in accordance with its rules. It is a defined benefit scheme providing pension benefits and life assurance for all permanent staff.

The following valuations have been provided by Hymans Robertson LLP, the independent actuaries to Lothian Pension Fund. The financial and actuarial assumptions used for the purposes of their IAS 19 calculations as at 31 March 2025 were as follows:

	2025	2024
Salary increases	3.45%	3.25%
Pension increases	2.75%	2.75%
Discount rate	5.80%	4.85%
The assumed average life expectancy for a retiree at age 65 are as follows:		
	Male	Female
	Years	Years
Current pensioners	21.9	24.0
Future pensioners	22.5	25.3

As at the date of the most recent valuations, the duration of the employer's funded obligation is 19 years.

Liabilities are valued on an actuarial basis using the projected unit method, which assesses the future liabilities of the fund discounted to their present value. The valuations at 31 March 2025 have been prepared by Hymans Robertson LLP.

The movement in the funded part of the net pension position for the year to 31 March 2025 is as follows:

Period ending 31 March 2025

	Assets £000	Liabilities £000	IFRIC 14 Adjustment £000	Net (Liability) / Asset £000

Net Asset restriction applied	-	-	(51,458)	(51,458)
Closing position as at 31 March 2025	154,417	102,959	(51,458)	-

IAS 19 limits the measurement of a net defined benefit asset to the lower of the surplus in the defined benefit plan and the asset ceiling. The asset ceiling is defined as the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. As there is no unconditional right to a refund, the actuaries have calculated whether there are economic benefits in the form of reductions in future contributions, in accordance with IFRIC 14. As the estimated present value of minimum funding contributions exceed the estimated present value of future service costs, there is deemed to be no economic benefit and the asset ceiling is Nil. An adjustment to the defined benefit plan asset has been required in accordance with IAS19 and IFRIC 14.

Information in respect of the defined benefit obligation

	Liability split	
	£000	%
Active members	49,869	48.4%
Deferred members	16,892	16.4%
Pensioner members	36,198	35.2%
Total	102,959	100.0%

Statement of Comprehensive Net Expenditure (SOCNE): The net credit to SOCNE of £1,743k is based on the financial conditions at the start of the year (i.e. assumptions as at last year's Accounting Date). The Current Service Cost and net interest cost for this year is broadly in line with the projections made at last year's Accounting Date. The projected charge to SOCNE for next year is likely to be lower than the charge for this year as a result of the higher net discount rate at the Accounting Date.

Return on assets: In the period to the Accounting Date, individual LGPS Fund investment performance percentage returns have typically been lower than assumed (compared to last year's accounting discount rate assumption). A lower than assumed investment return has led to

a negative adjustment of £9,442k in the 'Return on assets excluding amounts included in net interest' line within the Results Schedule.

Obligations: The remeasurements in the obligations roll-forward are split into three separate parts to differentiate between 'Changes in financial assumptions', 'Changes in demographic assumptions' and 'Other experience'.

- As at the Accounting Date, the net discount rate (discount rate net of CPI inflation) has increased significantly compared to last year, leading to the recognition of a gain on obligations of £19,910k in the Statement of financial position as at the Accounting Date. This is shown in the 'Changes in financial assumptions' within the schedule.
- Using a more up-to-date longevity improvement assumption at the Accounting Date leads to a small gain on obligations of £189k. The baseline longevity and all other demographic assumptions are now based on the 2023 funding valuation assumptions and the impact is employer specific.
- The 'Other experience' item captures a loss of £974k by applying the roll-forward approach to allow for actual experience over the period. This adjustment is a combination of two factors:
 - The gain (decrease in obligations) resulting from applying the actual Pensions Increase Order for April 2024 of 1.7% to the benefits, which is lower than the expected CPI assumption.
 - After subtracting the Pensions Increase Order monetary impact, the remainder of the 'Other experience' item will be in relation to unfunded obligations experience.

The movement in the funded part of the net pension liability for the year to 31 March 2024 was as follows:

Period ending 31 March 2024

	Assets £000	Liabilities £000	IFRIC 14 Adjustment £000	Net (Liability) / Asset £000
Fair value of employer assets	143,568	-	-	143,568

Adjusted Total			102,959				117,022	

The sensitivities regarding the principal assumption used to measure the funded scheme liabilities are set out below:

	Approx. % increase to employer obligation	Approx. monetary amount £000
Sensitivity analysis at March 2025		
0.1% decrease in real discount rate	2%	2,018
1 year increase in member life expectancy	4%	4,118
0.1% increase in salary increase rate	0%	137
0.1% increase in pension increase rate	2%	1,936

During the year ended 31 March 2025, Audit Scotland's contribution to the pension fund represented 17.6% (2024 – 19.4%) of contributing employees' pensionable pay. Under Superannuation Regulations, contribution rates are set to meet 100% of the overall liabilities of the fund.

The latest triennial valuation undertaken by Hymans Robertson LLP as at 31 March 2023 recommended employers' contributions be set at 17.6% over the next three-year period from 2024/25 to 2026/27. The estimate for employer contributions in 2025/26 based on this rate will be approximately £3,097k.

b) PCSPS scheme

Employees of the NAO transferring to Audit Scotland on 1 April 2000 and the Auditor General for Scotland from 1 July 2012, have pension benefits provided through the Principal Civil Service Pension Scheme (PCSPS) and Civil Servant Other Pension Scheme (CSOPS). Audit Scotland makes payments of superannuation contributions at rates set by the Government Actuary.

The PCSPS and CSOPS - known as 'Alpha' - are unfunded multi-employer defined benefit schemes but Audit Scotland is unable to identify its share of the underlying assets and liabilities.

You can find more details of the scheme in the [resource accounts of the Cabinet Office: Civil Superannuation](#).

During the year ended 31 March 2025, Audit Scotland paid an employer's contribution of £92k (2024 – £96k) into the PCSPS at the rate of 28.97% of pensionable earnings, based on salary bands.

The Scheme Actuary reviews employer contributions usually every four years following a full scheme valuation. The contribution rates are set to meet the cost of the benefits accruing during 2024/25 to be paid when the member retires and not the benefits paid during this period to existing pensioners.

Audit Scotland has been advised that employer's contributions in 2025/26 will remain at the one rate of 28.97%.

c) Early departure costs

Certain costs arising from the early retirement of staff are payable by Audit Scotland. These relate to the early payment of pensions which employers must make to the pension fund and severance costs.

4. Other operating expenditure

	£000	2025 £000	2024 £000
Fees and expenses to appointed audit firms:

- Rebate (See note 15)	14	-
	25,695	23,376
 Miscellaneous income	 12	 (1)
	25,707	23,375

Audit Scotland applies the requirements of IFRS 15 to income earned from fees and charges payable. There is no legal contract with audit clients but there is deemed to be a contract in accordance with the FReM adaptation of IFRS 15 that the definition of a contract is expanded to include legislation and regulations enabling an entity to receive income.

The performance obligations are satisfied over time rather than a point in time and Audit Scotland has a right to payment for performance completed to date.

Details on the contract asset (accrued income) calculation can be found in Note 1f). Payments received in advance of performance under the contract are recognised as a contract liability (payments on account). This is then recognised as revenue as the work is performed.

Fee income in the current period of £2,258k (2023/24 - £2,880k) was included in the opening contract liability (payment on account).

At 31 March 2025 forecast future income on audits still in progress is £17,454k (31 March 2024 - £17,543k). The typical audit cycle is a year and therefore we expect to recognise this income in 2025/26.

6. Net finance expenditure

	2025 £000	2024 £000
Interest income on pension scheme assets	7,546	6,856
Interest cost on pension scheme defined obligations	(5,769)	(5,181)

9. Trade and other receivables

	2025	2024
£000	£000	£000
Amounts falling due within one year:		
Trade receivables:		
Central Government bodies	258	102
Local authorities	1,245	276
NHS bodies in Scotland	289	889
Bodies external to government	-	-
	1,792	1,267
Work in progress in advance of billing	1,714	1,922
VAT	125	440
Prepayments	395	416
	4,026	4,045

There are no trade and other receivables due after one year.

10. Cash and cash equivalents

	2025 £000	2024 £000
Balance at 1 April	2,048	2,839
Net change in cash and cash equivalents	(347)	(791)
Balance at 31 March	1,701	2,048
The following balances at 31 March were held at:		
Commercial banks	1,701	2,048

11. Net funding from the Scottish Parliament

	2025 £000	2024 £000
Opening cash balance payable to the Consolidated Fund	2,048	2,839
Funding received from the Consolidated Fund	12,594	11,152
Closing cash balance payable to the Consolidated Fund	(1,701)	(2,048)
Net funding from the Scottish Parliament	12,941	11,943

12. Trade payables and other current liabilities

	2025 £000	2024 £000
Amounts falling due within one year:		
Trade payables:		
Central Government	-	-
Local authorities	10	-
NHS bodies in Scotland	-	-
Bodies external to government	1,268	506
	1,279	506
Cash balance payable to Consolidated Fund	1,701	2,048
Deferred income	2,258	2,880
VAT	-	60

	2025 £000	2024 £000
Corporation Tax	9	13
Accruals	581	744
Staff benefits - untaken holidays	847	899
	6,675	7,150

The cash balance payable to the Scottish Consolidated Fund is based on accounting conventions adopted for resource-based accounting.

13. Provision for early retirement and severance

The provision represents the actuarially computed liabilities for early retirement added years, pension strain (early payment of pension) and severance liabilities. The movement during the year was as follows:

	2025 £000	2024 £000
Opening balance at 1 April	1,427	1,450
Additions	-	-
Utilised in year	(124)	(116)

Closing balance at 31 March	1,264	1,427
Payable within 1 year	126	116
Payable after 1 year	1,138	1,311
	1,264	1,427

Discount rate used	5.80%	4.85%
--------------------	-------	-------

Former Local Government Ombudsmen

Prior to establishment of the Public Services Ombudsman's office, Audit Scotland provided support services including payroll and finance for the Scottish Local Government Ombudsman. The related liabilities were assumed to transfer to the new Ombudsman following the enactment of the Scottish Public Services Ombudsman Act 2002. However, following a review of the implementation of the Act it was determined that the liability for pensions of former Local Government Ombudsmen and their staff did not transfer to the new Ombudsman's office. Since 31 March 2007, Audit Scotland has recognised the pension liability for staff previously employed by the Scottish Local Government Ombudsman. The liability as at 31 March 2025 was £196k (31 March 2024 – £220k).

14. Leases

Right-of-use assets

Audit Scotland recognises a right-of-use asset upon lease commencement. The right-of-use asset is initially measured at cost, being the initial amount of the lease liability adjusted for any lease payments made before the commencement date, less incentives received.

At transition to IFRS 16 on 1 April 2022 the right-of-use assets were measured at an equal amount to the lease liability adjusted by the amount of any prepaid or accrued lease payments.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date over the term (which is equal to, or shorter than, the asset's useful life). The right-of-use asset will be periodically reviewed for impairment losses and adjustments on remeasurement of the lease liability.

Cost	Premises £000	Vehicles £000	Total £000

At 31 March 2024	861	247	1,108
Net book value			
At 31 March 2024	5,078	439	5,517

Obligations under leases

On transition to IFRS 16 lease liabilities were measured at cost of the remaining lease payments at 1 April 2022.

The present value approach has been adopted to determine the lease obligations for our Edinburgh and Glasgow offices. Upon commencement of new car leases the liability is measured at cost of unpaid lease payments.

Periodic reviews of this approach will be undertaken and any remeasurement adjustments will be made as required.

	2025 £000	2024 £000
Premises		
Within one year	103	234
Later than one year and not later than five years	1,012	737
Later than five years	4,072	4,344
	5,187	5,315
Vehicles		
Within one year	152	157
Later than one year and not later than five years	129	197
	281	354

	2025 £000	2024 £000
Total lease obligations		
Within one year	255	391
Later than one year and not later than five years	1,141	934
Later than five years	4,072	4,344
	5,468	5,669

15. Other provisions

Other provisions comprise audit expenses rebate, rent review/contractual costs and property dilapidations.

Audit expenses rebate: In financial year 2021/22, a provision was raised for £1,320k to meet a legal obligation to rebate audit fees for an element of our 'pooled costs' charges. This arose due to the significant reduction in the cost of in-house and firm's expenses in relation to travel and subsistence. During 2022/23 and 2023/24 the majority of this provision was released and as at 31 March 2024 there was a balance of £107k being held in respect of the pooled costs savings generated on 2021/22 audits. This legal obligation has been released in 2024/25 as part of the fee instalment invoicing arrangements.

Rent review/contractual obligation: In 2022/23, our offices in Glasgow and Inverness were scheduled rent reviews in accordance with their existing lease agreements and we also had a potential contractual obligation that needed to be provided for. Settlement of these obligations occurred in 2023/24 and the provisions were released.

Dilapidations: Audit Scotland leases three properties across Scotland. The leases for Edinburgh and Glasgow contain provisions in respect of obligations for property dilapidations, reinstatement and decoration. Estimates of likely costs in respect of obligations under our property leases for dilapidations, reinstatement and property decorations are charged in accordance with IFRS 16 Leases, which requires dilapidation estimates to be added to the right-of-use asset and depreciated.

The movement in other provisions during the year were as follows:

	2025 £000	2024 £000
Opening balance at 1 April	875	1,204
Provided in year	80	94
Released in year	(195)	(423)
Closing balance at 31 March	760	875
Payable within 1 year	-	120
Payable after 1 year	760	755
	760	875

16. Related party transactions

Audit Scotland is a statutory body funded by the Scottish Parliament. The latter is regarded as a related party. Audit Scotland's income arises principally from audit fees and charges levied on public sector bodies. During the period, none of Audit Scotland's directors and board members has undertaken any material transactions with related parties.

17. Events after the reporting period

There have been no significant events after 31 March 2025 that require adjustment to, or disclosure in, the financial statements.

The financial statements were authorised for issue by the Auditor General for Scotland on 9 June 2025.

18. Contingent liabilities

At 31 March 2025, there were no contingent liabilities.

19. Capital commitments

At 31 March 2025, there were no capital commitments.

20. Segmental reporting

Audit Scotland is considered to have just one operating segment and therefore no segmental information is produced.

Direction by the Scottish ministers

In accordance with section 19(4) of the Public Finance and Accountability (Scotland) Act 2000

- The statement of accounts for the financial year ended 31 March 2006 and subsequent years, shall comply with the accounting principles and disclosure requirements of the edition of the Government Financial Reporting Manual (FReM) which is in force for the year for which the statement of accounts are prepared.
- The accounts shall be prepared so as to give a true and fair view of the net resource outturn, resources applied to objectives, recognised gains and losses and cash flows for the financial year, and of the state of affairs as at the end of the financial year.
- This direction shall be reproduced as an appendix to the statement of accounts. The direction given on 25 April 2001 is hereby revoked.

Signed by the authority of the Scottish ministers
17 January 2006
