## followed by Scottish Government Debate: Scotland's Economy, Opportunities for Growth

**S5M-06045 Keith Brown: Scotland's Economy, Opportunities for Growth**—That the Parliament recognises that Scotland's economic fundamentals remain strong with opportunities for growth; welcomes the fact that Scotland has closed the gap in productivity performance with the UK as a whole, the continued attractiveness of Scotland's economy for inward investment and, in particular, the recent analysis by Ernst and Young, which shows that Scotland attracted more research and development foreign direct investment projects than anywhere else in the UK in 2016; recognises and acknowledges the challenges facing Scotland's economy, in particular from the downturn in the oil and gas sector and the damage that will be caused by the UK Government taking Scotland out of the EU and the single market; believes that Scotland must continue to invest for sustainable and inclusive growth by promoting and supporting innovation, investment and internationalisation, as set out in Scotland's Economic Strategy; highlights the important contribution that European structural and investment funds make to support sustainable and inclusive growth in Scotland, and calls on the UK Government to commit to ensuring that it replaces this funding in full following Brexit.

The Presiding Officer has selected the following amendments

**S5M-06045.1 Dean Lockhart: Scotland's Economy, Opportunities for Growth**—As an amendment to motion S5M-06045 in the name of Keith Brown (Scotland's Economy, Opportunities

for Growth), leave out from "that Scotland's economic" to end and insert "opportunities for growth in Scotland's economy; welcomes the continued attractiveness of Scotland for inward investment; acknowledges the many challenges facing Scotland's economy, including negative economic growth and low business confidence; considers that these can be addressed by the introduction of a more competitive tax system in Scotland and by the Scottish Government removing the uncertainty of a second referendum on independence; believes that Scotland can best achieve sustainable and inclusive growth, and increase innovation, investment and internationalisation through active cooperation and participation in a UK-wide industrial strategy, and supports the objectives of the UK Government in achieving the maximum possible access to the European single market while maximising the opportunities afforded by fostering stronger trading relationships with the rest of the world."

**S5M-06045.3 Jackie Baillie: Scotland's Economy, Opportunities for Growth**—As an amendment to motion S5M-06045, Keith Brown (Scotland's Economy, Opportunities for Growth), leave out from "economic fundamentals" to end and insert "economy remains fragile, with no growth in the fourth quarter of 2016 and that growth in Scotland has lagged behind the UK for a number of years; further recognises the challenges Scotland faces in particular from the downturn in the oil and gas sector; considers that the previous UK administration's approach to a hard Brexit is a major challenge to the Scottish economy and should be abandoned; believes that the Scottish Government's Economic Strategy must be urgently reassessed, and notes the Fraser of Allander Institute comments that 'all of the [Scottish] government's economic strategy priorities - internationalisation, innovation, investment and inclusive growth - have been turned on their head by the decision to leave the EU. It is simply not possible to continue as normal. An urgent review of current policy initiatives is needed'; further believes that the growth of Scotland's economy should be inclusive so that everyone benefits and people and jobs are put first; considers that the Scottish Government should accelerate investment in infrastructure, innovation and research to nurture business growth, stimulate the economy and create jobs; further considers that the Scottish Government should ensure that a real living wage of £10-an-hour is paid in all public procurement and commissioning contracts; regrets that the Scottish Business Pledge has not been widely taken up; considers that the Scottish Government's continued priority of a second independence referendum, which was rejected at the General Election, creates uncertainty for business and households, and therefore commits the Scottish Government to abandon its plans for a second independence referendum."

**S5M-06045.4 Patrick Harvie: Scotland's Economy, Opportunities for Growth**—As an amendment to motion S5M-06045, Keith Brown (Scotland's Economy, Opportunities for Growth), leave out from "economic fundamentals" to end and insert "economy must serve the needs of citizens now and in the future by respecting the limited resources of the planet; notes Scotland's continued overdependence on the fossil fuel industry and considers that this is a source of significant vulnerability; considers that the GDP growth of an economy is a poor indicator of the wellbeing of its citizens or the health of the ecosystem that sustains them; urges the Scottish Government to build on the steps that it has taken with the National Performance Framework and develop a comprehensive approach to measuring meaningful economic progress instead of continuing to place undue emphasis on GDP growth, and considers that economic development must focus on creating well-paid work, building local economies, ensuring fair redistribution of wealth, and developing low-carbon industries as a replacement for, rather than an addition to, the role of fossil fuels in Scotland's economy."

**S5M-06045.2 Willie Rennie: Scotland's Economy, Opportunities for Growth**—As an amendment to motion S5M-06045 in the name of Keith Brown (Scotland's Economy, Opportunities for Growth), leave out from "welcomes the fact" to end and insert "however, recognises that official

figures show Scotland on the brink of a recession while Ernst and Young reports that the Scottish economy is 'stuck in the slow lane'; believes that repeated warnings about the fragility of the economy and business confidence have been dismissed; recognises and acknowledges the challenges facing Scotland's economy, including the threat of another divisive independence referendum, a hard Brexit and skills shortages, and believes that a long-term plan to build a strong economy must include the removal of the threat of a referendum on Scottish independence and avoiding a hard Brexit, combined with transformative additional investment in education and a step-change in mental health to help people achieve their potential and enable businesses to find the skills they need."

## Motions for Debate

**\*[S5M-06073](#) Fiona Hyslop: Recognise and Celebrate Edinburgh's International Festivals in their 70th Anniversary Year**—That the Parliament recognises the success and impact of Edinburgh's world-leading international festivals, which are in their 70th year; notes that the festivals, their partners, supporters, funders, artists and audiences make an invaluable contribution to Edinburgh and Scotland's communities and wider society, economy and culture, and acknowledges and celebrates the impact that the festivals have made establishing Scotland's place internationally as innovators, thinkers and cultural leaders, and for providing a welcome to the world, while maintaining and growing their world-leading status.

**[S5M-06045](#) Keith Brown: Scotland's Economy, Opportunities for Growth**—That the Parliament recognises that Scotland's economic fundamentals remain strong with opportunities for growth; welcomes the fact that Scotland has closed the gap in productivity performance with the UK as a whole, the continued attractiveness of Scotland's economy for inward investment and, in particular, the recent analysis by Ernst and Young, which shows that Scotland attracted more research and development foreign direct investment projects than anywhere else in the UK in 2016; recognises and acknowledges the challenges facing Scotland's economy, in particular from the downturn in the oil and gas sector and the damage that will be caused by the UK Government taking Scotland out of the EU and the single market; believes that Scotland must continue to invest for sustainable and inclusive growth by promoting and supporting innovation, investment and internationalisation, as set out in Scotland's Economic Strategy; highlights the important contribution that European structural and investment funds make to support sustainable and inclusive growth in Scotland, and calls on the UK Government to commit to ensuring that it replaces this funding in full following Brexit.

**\*[S5M-06045.4](#) Patrick Harvie: Scotland's Economy, Opportunities for Growth**—As an amendment to motion [S5M-06045](#), Keith Brown (Scotland's Economy, Opportunities for Growth), leave out from "economic fundamentals" to end and insert "economy must serve the needs of citizens now and in the future by respecting the limited resources of the planet; notes Scotland's

continued overdependence on the fossil fuel industry and considers that this is a source of significant vulnerability; considers that the GDP growth of an economy is a poor indicator of the wellbeing of its citizens or the health of the ecosystem that sustains them; urges the Scottish Government to build on the steps that it has taken with the National Performance Framework and develop a comprehensive approach to measuring meaningful economic progress instead of continuing to place undue emphasis on GDP growth, and considers that economic development must focus on creating well-paid work, building local economies, ensuring fair redistribution of wealth, and developing low-carbon industries as a replacement for, rather than an addition to, the role of fossil fuels in Scotland's economy."

**\*S5M-06045.3 Jackie Baillie: Scotland's Economy, Opportunities for Growth**—As an amendment to motion S5M-06045, Keith Brown (Scotland's Economy, Opportunities for Growth), leave out from "economic fundamentals" to end and insert "economy remains fragile, with no growth in the fourth quarter of 2016 and that growth in Scotland has lagged behind the UK for a number of years; further recognises the challenges Scotland faces in particular from the downturn in the oil and gas sector; considers that the previous UK administration's approach to a hard Brexit is a major challenge to the Scottish economy and should be abandoned; believes that the Scottish Government's Economic Strategy must be urgently reassessed, and notes the Fraser of Allander Institute comments that 'all of the [Scottish] government's economic strategy priorities - internationalisation, innovation, investment and inclusive growth - have been turned on their head by the decision to leave the EU. It is simply not possible to continue as normal. An urgent review of current policy initiatives is needed'; further believes that the growth of Scotland's economy should be inclusive so that everyone benefits and people and jobs are put first; considers that the Scottish Government should accelerate investment in infrastructure, innovation and research to nurture business growth, stimulate the economy and create jobs; further considers that the Scottish Government should ensure that a real living wage of £10-an-hour is paid in all public procurement and commissioning contracts; regrets that the Scottish Business Pledge has not been widely taken up; considers that the Scottish Government's continued priority of a second independence referendum, which was rejected at the General Election, creates uncertainty for business and households, and therefore commits the Scottish Government to abandon its plans for a second independence referendum."

**\*S5M-06045.2 Willie Rennie: Scotland's Economy, Opportunities for Growth**—As an amendment to motion S5M-06045 in the name of Keith Brown (Scotland's Economy, Opportunities for Growth), leave out from "welcomes the fact" to end and insert "however, recognises that official figures show Scotland on the brink of a recession while Ernst and Young reports that the Scottish economy is 'stuck in the slow lane'; believes that repeated warnings about the fragility of the economy and business confidence have been dismissed; recognises and acknowledges the challenges facing Scotland's economy, including the threat of another divisive independence referendum, a hard Brexit and skills shortages, and believes that a long-term plan to build a strong economy must include the removal of the threat of a referendum on Scottish independence and avoiding a hard Brexit, combined with transformative additional investment in education and a step-change in mental health to help people achieve their potential and enable businesses to find the skills they need."

**\*S5M-06045.1 Dean Lockhart: Scotland's Economy, Opportunities for Growth**—As an amendment to motion S5M-06045 in the name of Keith Brown (Scotland's Economy, Opportunities for Growth), leave out from "that Scotland's economic" to end and insert "opportunities for growth

in Scotland's economy; welcomes the continued attractiveness of Scotland for inward investment; acknowledges the many challenges facing Scotland's economy, including negative economic growth and low business confidence; considers that these can be addressed by the introduction of a more competitive tax system in Scotland and by the Scottish Government removing the uncertainty of a second referendum on independence; believes that Scotland can best achieve sustainable and inclusive growth, and increase innovation, investment and internationalisation through active cooperation and participation in a UK-wide industrial strategy, and supports the objectives of the UK Government in achieving the maximum possible access to the European single market while maximising the opportunities afforded by fostering stronger trading relationships with the rest of the world."

## Progress of Legislation

### Bills

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/576.aspx>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
