Members' Business motions that have not achieved cross party support

***S5M-11737 Joan McAlpine: Appropriate Housing for People with Learning**

Disabilities—That the Parliament recognises what it sees as the importance of where a person with a learning disability lives to his or her quality of life; welcomes the reported reduction in recent years in the number of people in hospitals or other NHS settings when there is no clinical need for them to be there and the shift away since 2000 from using residential care homes toward a greater use of supported accommodation; recognises the continuing challenges of ensuring the availability of appropriate housing, the accessibility of tenancy agreements and balancing sustainable care provision with people's housing preferences, and notes the view that the Scottish Government, local authorities and relevant partners should work together to ensure that every person in the South Scotland region and across the country who has a learning disability can access the appropriate housing and support that is required to give that person the choice and control to live the life that he or she wants.

***S5M-11721 Brian Whittle: Report Highlights Lack of Mental Health Support for Cancer**

Patients—That the Parliament acknowledges the recent report by the Mental Health Foundation, which highlighted the significant impact on a person's mental health that a cancer diagnosis can have; understands that the report found that mental health issues can often occur at the very end of cancer treatment when patients describe the sense of having "fallen off a cliff edge" as the sudden loss of support leaves them feeling isolated and abandoned; understands that of those interviewed for the report, 49% said that they received no support or advice from health services about managing their mental health through cancer, while 66% said that they were given no information about the potential for mental health problems arising at the end of their treatment; notes the calls in the report for tailored, person-centred mental health support at all stages of the cancer journey, greater collaboration among service providers, improved signposting for mental wellbeing services, clear support pathways post-treatment and further research into the most effective ways to tackle social deprivation and co-morbid health inequalities; recognises the important role that good mental health can play in the recovery process of patients, including patients in the South Scotland region, and commends the Mental Health Foundation for its work on this report.

***S5M-11739 Pauline McNeill: Music Tuition, Develop, not Dismantle**—That the Parliament supports the aims of the campaign, Develop, Not Dismantle, which aims to protect and enhance music tuition in schools; understands that it has been launched in response to the reported impact that budget cuts to local authorities are having on the availability of such tuition; shares what it understands are the concerns of former head of the Royal Conservatoire, John Wallace, that council music services could cease to exist in the next 20 years if the current trends continue and that, because of this, there is a danger the arts become monopolised by middle class people; notes that the campaign has already received support from Scottish artists such as Paolo Nutini, Nicola Benedetti, Sir James MacMillan and the composer, Patrick Doyle; believes that learning music enriches the lives and education of young people and that more priority should be given to it in schools, and considers that, to ensure that that generations of children in Scotland do not miss out, a strategy must be put in place to maintain the sustainability of music tuition in schools.

Progress of Legislation

Bills

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/576.aspx>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
