Debate on the subject of—

S5M-10202 Mary Fee: Celebrating Scotland's Gypsy/Traveller Community—That the Parliament celebrates what it sees as the rich social and cultural contribution that the Gypsy/Traveller community has made to society in Scotland since the 12th century; acknowledges that the Equality and Human Rights Commission has estimated that the country's Gypsy/Traveller population is between 15,000 to 20,000; understands that the term, "Gypsy/Traveller", refers to distinct groups, including Romany Gypsies, Scottish and Irish travellers, and others who regard travelling as being part of their ethnic identity; believes that they experience a variety of issues related to provision of adequate housing and access to public health services, with a much higher proportion rating their health as "bad" or "very bad" compared with the national average; believes that this contributes to a male life expectancy of 55 years, 12 years shorter than the average; understands that they are a disproportionately marginalised and discriminated group and are stigmatised by inaccurate myths and stereotyping about their culture; notes with distress that the most recent statistics from the Scottish Social Attitudes Survey suggests that 31% of people would be "unhappy or very unhappy" about a close relative marrying a Gypsy/Traveller, and that 35% said that a Gypsy/Traveller would be "very/fairly unsuitable" as a primary school teacher, and notes the calls on the Scottish Government to increase its commitment to eliminating discrimination against the Scottish Gypsy/Traveller community in West Scotland and throughout the country through strengthening existing equality legislation and providing greater support for inclusivity and equality training to ensure greater protection.

Members' Business motions that have not achieved cross party support

***S5M-12415 Jamie Greene: Future Potential for Hydrogen Fuel Technology on Scotland's Transport Network**—That the Parliament welcomes the announcement by the French train manufacture, Alstom, on 14 May 2018, that it would convert a fleet of Class 321 train carriages to run on hydrogen fuel; understands that this is the first instance in the UK where any trains would be powered using hydrogen technology; recognises that hydrogen generally does not emit CO2 and that its only major exhaust is condensed steam and water; understands that Germany expects to launch the Cordinia iLint model onto its railways this year with a view to rolling them out to its commercial fleet in the coming years, becoming the world's first hydrogen-powered consumer train service; underlines that hydrogen trains do not require full electrification lines and carriages, potentially minimising the potential cost or disruption that occurs in large-scale electrification projects and offering a viable alternative to diesel-driven carriages; notes the view that Scotland's transport strategy must be future-proofed, for the benefit of passengers in the West Scotland region and across the country; further notes the view that investment decisions should take into account the potential that hydrogen fuel can play in rail, marine, aviation and road strategies; understands the significance that this technology could have, and notes the calls for there to be a sensible, wide-ranging conversation at policy and government level on the potential that hydrogen technology can bring to the transport network.

***S5M-12396 Neil Findlay: Portugal's Approach to Addressing Record Drug Deaths**—That the Parliament recognises what it sees as the effectiveness of Portugal's change in drugs policy since 2001, when it decriminalised the possession of all drugs for personal use as a major part of its fight against overdose deaths, HIV infection and drug-related crime; commends its decision to treat possession and the use of small quantities of drugs as a public health concern rather than a criminal matter; understands that, rather than being arrested, people who are caught with a personal supply are given a warning, a small fine or have to appear before a local commission to discuss treatment, harm reduction and support services; believes that, since this policy was introduced, HIV infection rates have fallen from an all-time high in 2000 of 104.2 new cases per million to 4.2 new cases per million in 2015, and that the adult death rate has fallen to three per

million, compared with approximately 78 per million in 2001; understands that the Portuguese policy rests on three pillars, firstly, that there is no such thing as a "soft" or "hard" drug, only healthy and unhealthy relationships with drugs, secondly, that having unhealthy relationships with drugs often conceals users having frayed relationships with loved ones, themselves and the wider world and thirdly, that the eradication of all drugs is an impossible goal, and notes the view that it is essential to learn from this approach in Lothian and across Scotland to effectively address the reported record levels of drugs deaths, which saw 867 users across the country die in 2016.

***S5M-12421 Kevin Stewart: Planning (Scotland) Bill**—That the Parliament agrees to the general principles of the Planning (Scotland) Bill.

***S5M-12418 Jamie Halcro Johnston: Face Equality Day 2018**—That the Parliament welcomes the second Face Equality Day on 23 May 2018 organised by the charity, Changing Faces; recognises that this year's day will focus on the experiences and views of children and young people; notes its report, *Looking Different: The Future of Face Equality*, which highlights the pressure on young people to look a certain way and the negative impact that this can have on those with a visible difference; acknowledges the priority of ensuring that all children and young people are valued, respected and treated fairly; appreciates that unfair representation of people with visible differences on television and in the media can have a damaging impact on children and young people, and encourages schools to take the lead on raising awareness of appearance and appearance-related bullying among young people and the harm that bullying based on appearance can cause.

***S5M-12402 Aileen Campbell: Equality Act 2010 (Specific Duties) (Scotland) Amendment Regulations 2018 [draft]**—That the Health and Sport Committee recommends that the Equality Act 2010 (Specific Duties) (Scotland) Amendment Regulations 2018 [draft] be approved.

***S5M-12401 Neil Findlay: More Contracts Awarded to Keir Construction**—That the Parliament notes with concern the reported award of £180 million in taxpayer-funded contracts to Kier Construction; questions how a company with its record can successfully navigate the public procurement process and secure what it sees as high-value contracts, including for schools and NHS work, following reports of it being implicated in the blacklisting of construction workers and, it understands, an inquiry into a public contract to build a leisure centre in Dumfries criticising its work, and considers that, in light of this, the public procurement guidance is completely ineffective.

***S5M-12400 Liam McArthur: Increase in Tourism Numbers to Orkney**—That the Parliament notes the increase in the number of tourists visiting Orkney, with 174,273 visits being made in 2017; recognises that this was worth around £49.5 million to the islands' economy; believes that, compared with 2013, when 142,816 visitors boosted the economy by £31.1 million, this represents a substantial increase; acknowledges the findings of a survey that was commissioned by Orkney Islands Council and VisitScotland, which stated that the main reasons for visitors coming to Orkney in such large numbers were the islands' stunning scenery and world-class historical sites; understands that such large and growing numbers of visitors bring the challenge of investing in the islands' infrastructure and the need to carefully manage the tourist experience, but looks forward to what it believes will be Orkney's continuing success in demonstrating why it has been described as a "glittering centrepiece in Scotland's treasure chest of attractions".

***S5M-12398 Bill Bowman: University of Dundee Architecture Student, Louisa**

Schmolke—That the Parliament congratulates Louisa Schmolke on being named as the Best Final Year Student 2018 by the Dundee Institute of Architects; notes that Louisa, who is a fifth-year student at the University of Dundee, has been recognised for using historic Walloon maps to help design modern buildings in Mons, Belgium, which has similarities to Dundee, and wishes her all the best with her endeavours.

***S5M-12397 Liam Kerr: Portlethen and District Voluntary Community Ambulance**

Association—That the Parliament congratulates the Portlethen and District Voluntary Community Ambulance Association on purchasing a new vehicle, which is due to be delivered by the end of June 2018; understands that the group runs a minibus to help older, disabled and disadvantaged people in the community attend medical appointments and to transport charities and sporting groups from the area to various events; recognises the hard work of the association over the last six months in raising the money to purchase the new minibus; notes that, to celebrate this, it is holding an open day on 21 July to showcase the new vehicle and allow people to meet its drivers, who volunteer half-a-day each to the group; believes that this initiative is invaluable for the community, and wishes the association every success.

***S5M-12395 John Finnie: Betty MacIntyre, UK Nurse of the Year**—That the Parliament congratulates Betty MacIntyre, who is from Oban, on being named as the first winner of the UK Nurse of the Year title at the NHS Heroes Awards; understands that Betty is a midwife with NHS Highland and covers North Argyll and the Western Isles; acknowledges that she serves these rural areas by travelling day and night to new and expectant mums by car, ferry, helicopter, lifeboat, dingy and even quad bike; believes that, in her 50 years of service, she has been the driving force behind making sure that midwifery in the Western Isles embraces modern technology, techniques and treatments, including having the most up-to-date clinical skills, offering FaceTime appointments and providing virtual breastfeeding advice online; appreciates these awards, which recognise the selflessness, devotion and dedication of NHS staff, including the care that they provide, and commends all working in the NHS on what it sees as their tireless work.

***S5M-12394 James Kelly: Scottish Football Memories Wins Volunteers of the Year**

Award—That the Parliament congratulates the Scottish Football Memories Volunteer Network on winning the Volunteers of the Year Award at the 2018 Museums and Heritage Awards; understands that the project received this award because of the impact that its volunteers make to the lives of carers and those living with dementia; understands that one carer stated that “I drop off this sad old man with dementia and take home my husband”; notes that there are now over 200

***S5M-12386 Pauline McNeill: UN Human Rights Council Investigation**—That the Parliament condemns the UK Government's abstention on a UN Human Rights Council vote, which took place on 18 May 2018, calling for an immediate investigation into the reported killing of 110 Palestinians by Israeli soldiers on 14 May on the Gaza-Israel border; further condemns what it understands is the UK Government's stance that Israel should hold its own inquiry into the killings; believes that this is a wholly inadequate response to the reported violence carried out by Israel on this occasion; welcomes the resolution by the UN Human Rights Council to investigate the killings, and hopes that the international community will stand up against human rights abuses wherever they take place.

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no indication is given that the Scottish Government or UK Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 5 Proposals:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/12419.aspx>

Final Proposal for Member's Bills

David Stewart: Proposed Social Housing (Automatic Fire Suppression Systems) (Scotland) Bill—Proposal for a Bill to require new-build Scottish social housing to be fitted with automatic fire suppression systems. (lodged 22 May 2018)

Bills

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/576.aspx>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
