followed by Members' Business — [S5M-15746](#) Miles Briggs: Parkinson's in Scotland

[S5M-15746](#) Miles Briggs: Parkinson's in Scotland—That the Parliament understands that Parkinson’s is the second most common neuroprogressive condition after Alzheimer’s; recognises that it has a profound impact on people with the condition, and their close friends and family; welcomes what it sees as a comprehensive new report from Parkinson’s UK, *People. Parkinson's. Scotland. What do we know about services and support for people with Parkinson’s in Scotland?*; notes with concern that it suggests that there are about 12,400 people in the country with the condition and that this is expected to increase by 40% within 20 years; acknowledges the view that the Scottish Government, NHS boards and health and social care partnerships must plan now to meet the care needs of the growing number of people with Parkinson's; accepts that it is a very complex condition with over 40 recognised symptoms, which can affect every aspect of daily living and can require ongoing support from a multidisciplinary team of health professionals; understands with concern that 10% of neurologist and medicine for older people consultant posts

in Scotland is currently vacant and that waiting times are growing; believes that Scotland has fewer Parkinson's nurses than it needs and that, in NHS Lothian, NHS Lanarkshire, NHS Highland and NHS Forth Valley, there are reportedly about half the number of required nurses; understands that around one in every five people with the condition has extremely high levels of care need; believes that it can be challenging for people with Parkinson's to access the information, care and support that they need to maintain their independence and prevent emergency hospital and care home admissions; celebrates what it sees as the excellent work that is carried out by NHS and social care professionals across the country to provide better support for people with Parkinson's and their carers, including as members of the UK Parkinson's Excellence Network, and applauds the efforts of Parkinson's UK's small team of staff and over 300 volunteers to support everyone in Scotland who is living with the condition.

Motions for Debate

***[S5M-17091](#) Liz Smith: Subject Choice**—That the Parliament believes that Scottish education should be based on the principles of excellence and equity and that all young people, whatever their background, should be afforded the best possible educational experience at all levels of the curriculum; further believes that, while these principles are enshrined in the policy aims of the curriculum for excellence, the delivery of the new curriculum structure has exposed some fundamental failings with regard to subject choice, including the inequity that exists between schools in more affluent areas and those in more deprived communities, and calls on the Scottish Government to recognise the serious concerns, which have been expressed by teachers, parents, young people and academics, and take urgent action to address these failings in the delivery of the curriculum for excellence.

Members' Business motions that have not achieved cross party support

***[S5M-17102](#) Kezia Dugdale: Foster Care Fortnight 2019**—That the Parliament welcomes Foster Care Fortnight 2019, which takes place from 13 to 26 May; understands that this will be the UK's biggest foster care awareness raising campaign and will showcase the commitment, passion and dedication of foster carers; notes that it will also seek to highlight that more foster carers are needed; understands that, in Scotland, although there are approximately 4,000 foster families, the Fostering Network estimates that this represents a shortfall of 550; believes that Action for Children, which supports 54 foster carers in Scotland, has stated that "becoming a foster carer can be one of the most rewarding things a person could ever do, as that person provides a loving and stable home for a child who can no longer live with their family"; acknowledges that people who have considered becoming a foster carer should know that, if they want to take the next step, organisations such as Action for Children, as well as local authorities, can provide support and information to assist their journey towards this; hopes the organisers of the fortnight enjoy every success with this celebration of fostering, and commends this work that aims to inspire more people to become foster carers.

Progress of Legislation

Bills

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/parliamentarybusiness/Bills/576.aspx>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
