**[S5M-15243](#) Michael Matheson: Ultra-low Emission Vehicles**—That the Parliament recognises the progress being made in Scotland on ultra-low emission vehicles (ULEV) during an unprecedented period of innovation in mobility; recognises that Scotland has one of Europe's most comprehensive charge point networks and that this is continuing to be expanded, including the launch of the Electric A9; notes the promising growth in ULEV registrations in Scotland; further notes that the Scottish Government is on target to double the number of ULEVs in the public fleet, and recognises the leadership being shown by local authorities and other organisations to bring the benefits of ULEVs to communities across Scotland.

The Presiding Officer has selected the following amendments

**[S5M-15243.3](#) Jamie Greene: Ultra-low Emission Vehicles**—As an amendment to motion S5M-15243 in the name of Michael Matheson (Ultra-low Emission Vehicles), insert at end "; understands that further efforts will be required for the Scottish Government to meet its 2032 target; underlines that additional steps will be required to tackle 'range anxiety' and ensure that sufficient charging points are available across Scotland, particularly in remote, rural and island communities; recognises that lack of standardisation of charging points remains an obstacle; understands that creative and innovative schemes and funds may be required to encourage uptake of ULEVs; recognises that concerted effort will be required to fully deliver the benefits of mass ULEV usage, and calls on all Members to adopt a cross-party approach to ensure that Scotland meets its obligations to reducing carbon emissions and continues to lead the world in tackling climate change."

**[S5M-15243.4](#) Colin Smyth: Ultra-low Emission Vehicles**—As an amendment to motion S5M-15243 in the name of Michael Matheson (Ultra-low Emission Vehicles), insert at end "; further recognises the importance of ULEVs to tackling air pollution and improving public health and tackling greenhouse gas emissions; notes the need for more investment in infrastructure to significantly grow the use of ULEVs; believes that the promotion of ULEVs must also be

accompanied by a modal shift towards increased use of public transport and active travel, within a better integrated, more affordable and sustainable public transport system; notes the importance of hydrogen as well as electricity in powering ULEVs, including potentially rail as well as road vehicles; welcomes the action already taken to promote hydrogen vehicles, and calls on the Scottish Government to continue working with local authorities and energy and transport companies on the further development of electric, hydrogen and other low-emission transport technologies in Scotland."

**S5M-15243.1 John Finnie: Ultra-low Emission Vehicles**—As an amendment to motion S5M-15243 in the name of Michael Matheson (Ultra-low Emission Vehicles), after "registrations in Scotland" insert "; welcomes the important role that ULEVs can play in decarbonising the transport sector, but recognises that this technology does not address the need to cut congestion and to improve road safety".

**S5M-15243.2 Liam McArthur: Ultra-low Emission Vehicles**—As an amendment to motion S5M-15243 in the name of Michael Matheson (Ultra-low Emission Vehicles), after "registrations in Scotland" insert "; understands, however, that Scotland lags behind European leaders in the provision of charge points and ULEV share; believes that the Scottish Government should urgently review how the charging network can be further expanded and efficiently maintained, and work with the UK Government to ensure that effective incentives are in place to support increased take-up of greener vehicles".

Debate on the subject of—**

**S5M-14266 Brian Whittle: Transport Infrastructure in South West Scotland**—That the Parliament recognises the importance of good transport links to the economy of south west Scotland and the country as a whole; acknowledges the reported concerns expressed by individuals, businesses and community campaign groups regarding the ability of the existing transport network in the south west, including the A77, A76, A75, the Bellfield interchange and the Stranraer-Ayr and Dumfries-Kilmarnock rail lines, to cope with existing demand; notes that the A77 and A75, which are the main road links used by traffic travelling to and from the Stena Line and P&O ferry terminals at Loch Ryan, are single carriageway roads over much of their length; understands that they offer few safe opportunities for overtaking and pass through a number of communities; believes that several campaign groups have been set up calling for various improvements to transport infrastructure, including investment in the trunk road network to bypass towns and villages and upgrading routes to dual carriageway where possible, the re-opening of Cumnock railway station, and improvements to reliability and quality of rail services; considers that good transport infrastructure plays a valuable role in economic development, tourism and

## Progress of Legislation

### Bills

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/576.aspx>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
