Motions

Motions and amendments are usually printed the day after lodging. When an amendment is lodged, then the original motion will be republished alongside it.

Motions and amendments can be published with symbols:

- * before the number indicates publication for the first time
- *...* around a section of text indicates changes to previously published material
- R indicates a member has declared a registered interest

The Parliamentary Bureau periodically deletes motions or amendments that are over six weeks old and not scheduled for debate.

Questions regarding this section should be directed to the Chamber Desk.

Members' Business motions that have achieved cross party support

*[S6M-02360](#) Sarah Boyack: Ending Pharmaceutical Monopolies of COVID-19 Vaccines—

That the Parliament notes the calls by a coalition of Scottish charities to support the ending of what it considers to be pharmaceutical monopolies; understands that these monopolies are reportedly artificially limiting vaccine supply to low-income countries; considers that vaccine inequality has resulted from a handful of pharmaceutical companies rationing supply, by refusing to share their vaccine recipes and know-how with the rest of the world, and notes the calls on the Prime Minister to back plans to waive intellectual property rules and to insist that vaccine know-how and technology is shared via the World Health Organization's COVID-19 Technology Access Pool, in order to enable a life-saving escalation in global vaccine production and help avoid the development of further COVID-19 variants like Omicron, which may impact people in Scotland, including in the Lothian region.

*[S6M-02299](#) Fergus Ewing: Scotland's Fair Share, the Potential of Solar Energy in

Scotland—That the Parliament welcomes Solar Energy Scotland's policy agenda, *Scotland's fair share: Solar's role in achieving net zero in Scotland*, published in the run-up to COP26, which sets out the potential for solar energy to play a much greater role in Scotland's low-carbon energy mix; understands that Scotland has levels of solar irradiation that can be effectively captured and that, compared to other nearby countries on the same latitude, such as Denmark, Scotland is behind in equivalent levels of solar technology deployment; considers that a number of policy matters within the control of the Scottish Government, including permitted development rights and business rates, could help the sector grow significantly; recognises what it sees as the ability of solar energy systems to work as a good companion to wind to make more effective, efficient use of the electricity grid and storage network; considers that, due to reported projections for solar to be the UK's cheapest form of energy this decade, and to have the unique capability to be deployed at all scales, solar is vital to supporting an affordable energy mix, and a just transition, and notes the calls on the Scottish Government to urgently assess the potential for a 2030 solar deployment

***S6M-02315 Gillian Mackay: Lanarkshire eSports Group Helps Organise Tournament that Results in 8000 trees Being Planted**—That the Parliament commends The Brave Jnr, a youth eSports group, which uses gaming as a way to help young people feel empowered and build brighter futures, for helping to organise the #GetOnWithIt Cup that resulted in 8,000 trees being planted; notes that, alongside Edinburgh Napier University, the group came up with the idea of the gaming event, which ran during COP26 and challenged players to chop down as many trees as they could during their matches on Fortnite with the promise that the University would plant the equivalent number of trees in real life; acknowledges that more than 200 pupils from North Lanarkshire Schools took part in the tournament, and wishes the group all the best in securing funding for its hub in Wishaw where it hopes to run courses and groups based on eSports while also teaching young people life lessons.

***[S6M-02311](#) Jackson Carlaw: UK Government Funding for Hydrogen Storage Project at Whitelee Windfarm, Eaglesham**—That the Parliament welcomes the UK Government's decision to invest almost £10 million in a new hydrogen storage project at Whitelee Windfarm in Eaglesham; understands that this pioneering initiative, which was announced following the landmark UK Government-hosted COP26 conference in Glasgow, will aim to produce hydrogen for the storing of energy and to provide a zero-carbon fuel source, as the UK moves towards a future of clean energy use; considers that this will be a state-of-the-art facility; notes that it has been developed by ITM Power and BOC, alongside Scottish Power's hydrogen division; understands that it will have the capacity to produce sufficient quantities of green hydrogen on a daily basis, between 2.5 to 4 tonnes, which, when stored, could provide the equivalent of enough zero-carbon fuel to power 225 bus journeys between Glasgow and Edinburgh per day; understands that the funding support will enable the Whitelee green hydrogen project to develop the country's largest electrolyser, a system that transforms water into hydrogen gas, as a means of storing energy; believes that this considerable UK Government investment in Scotland will assist with the creation of highly-skilled jobs, and lead progress towards decarbonising the UK transport sector; welcomes that the £9.4 million of UK Government funding for the hydrogen storage project places Eastwood, and Scotland, at what it considers will be the very forefront of the UK's transition to clean energy; notes that when Whitelee was first constructed, it was the largest onshore windfarm in Europe, and agrees that it is fantastic news to see the Eaglesham site leading the way again, and this time on hydrogen.

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 6 Proposals:

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.
