barrels of oil, the equivalent of running between 16 and 18 coal-fired power stations for a year; considers that climate change is an existential crisis that needs urgent and radical action; believes that the Cambo oil field is at odds with Scotland's aims of being net zero by 2045 and the global goals of the Paris Agreement; supports calls on the UK Government to stop the Cambo oil field and urges both the UK Government and Scottish Government to act faster to reduce demand for fossil fuels; further supports calls for focus to be prioritised on transitioning to a low-carbon economy, with a clear industrial plan and consultation with trade unions and workers, particularly from the oil and gas sector, to ensure a just transition for workers and communities across Scotland, and is concerned that approving the Cambo project ahead of COP26 will undermine the UK Government's position at the crucial summit.

***S6M-00721 Emma Harper: Asthma and Household Products Health Warnings**—That the Parliament notes with concern recent research by Smartline, which suggests that many household cleaning products, paints and cosmetics containing Volatile Organic Compounds (VOCs) can significantly increase the risk of adults developing asthma, and exacerbate existing asthma symptoms; understands that around 368,000 people in Scotland live with a diagnosis of asthma, including 72,000 children; notes that, following the research, calls have been made for products with VOCs to carry health warnings for people with asthma and other lung conditions, and welcomes the advice from Asthma UK and the British Lung Foundation, which outlines both the impact of indoor air pollution, including VOCs, and steps that people with lung conditions can take to minimise the risks of indoor air pollution, such as ventilating the home, or other spaces, where using these products. **R**

***[S6M-00689](#) Patrick Harvie: Concern over Calls to Ban Online Anonymity**—That the Parliament notes that racism, misogyny, homophobia and transphobia, among other forms of abuse, are prevalent on social media; believes social media companies should do more to tackle this, including permanently banning any users of their service who repeatedly carry out such abuse; notes the findings of a three-year-long research project entitled *Digital Social Norm Enforcement: Online Firestorms in Social Media*, published in 2016, which found that "non-anonymous individuals are more aggressive compared to anonymous individuals"; considers that many people have a legitimate reason for requiring anonymity online, including people who have experienced domestic abuse, LGBTQ+ people who may not be out, sex workers who may also not be out, whistleblowers and activists living in repressive regimes, and believes that regulation to prohibit anonymity and require the use of real names would be counter-productive and could cause serious unintended harm.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.
