Debate on the subject of—**

[S6M-01310](#) Foysoil Choudhury: Linking Food and Climate Change at COP26—That the Parliament considers that COP26 is a key opportunity for placing food and local action at the heart of the response to the climate emergency; notes the Glasgow Food and Climate Declaration from the partners, Nourish Scotland and IPES-Food, which is a commitment by subnational

governments to tackle the climate emergency through integrated food policies and a call on national governments to act; commends those local authorities in Scotland that have signed the Glasgow Declaration to date, including the City of Edinburgh Council; believes that a resilient food system approach would target all the sustainable development goals to accelerate climate action while delivering many co-benefits, including the promotion of biodiversity, ecosystem regeneration and resilience, circularity, equity, access to healthy and sustainable diets for all, and the creation of resilient livelihoods for farm and food workers; understands that global food systems account for one third of emissions and are at the heart of many major challenges today, including biodiversity loss and enduring hunger and malnutrition; celebrates the significant signatories from five continents that have already made their commitment to accelerating climate action via local food system transformation, and considers that the road from the Paris Agreement to COP26 has to go through the farm gate.

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 6 Proposals:

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
