- 2. Mark Griffin:** To ask the Scottish Government what its response is to reports that local government directors of finance have written to the finance secretary regarding an unprecedented £1 billion budget gap, and of COSLA stating that the current spending plans will lead to job losses. followed by Scottish Government Debate: COP27 Outcomes

[S6M-07093](#) **Màiri McAllan: COP27 Outcomes**—That the Parliament notes the outcome of COP27; recognises the ground-breaking global agreement to give formal recognition to the fact of loss and damage as a result of the climate crisis and to establish a fund under the United Nations Framework Convention on Climate Change (UNFCCC), alongside other financial mechanisms, to provide support to those countries suffering loss and damage; commends the commitment of the Global South and campaigners over 30 years in arguing for such a fund; notes that the agreement at COP27 follows the commitment by the Scottish Government at COP26 of £2 million for loss and damage, making Scotland the first developed nation to recognise its obligations in this area; is disappointed that COP27 was unable to build on the progress made in Glasgow towards keeping 1.5 degrees alive, and failed to extend the language of the Glasgow pact on a phasedown of unabated coal-use to include other fossil fuels, despite support from the EU, USA, UK and others for doing so, and calls for a coalition of action to be built ahead of COP28 to secure greater progress in global efforts to tackle the climate crisis; welcomes the focus on human rights during COP27 and urges the Egyptian government to take firm action to ensure that human rights in Egypt are fully respected, protected and fulfilled; notes that COP15, the biodiversity COP, begins on 7 December 2022 in Montreal and that it is vitally important that nations reach an ambitious global agreement on the protection and restoration of nature, including reaching agreement on protecting 30% of land and seas by 2030, and welcomes the conclusion of the Edinburgh Process, which collated views from over 400 subnational governments, cities and local authorities, and resulted in nearly 300 signatories to the Edinburgh Declaration committed to take action for biodiversity.

The Presiding Officer has selected the following amendments

[S6M-07093.2](#) **Liam Kerr: COP27 Outcomes**—As an amendment to motion S6M-07093 in the name of Màiri McAllan (COP27 Outcomes), leave out from ", and failed" to "Egypt" and insert "; recognises that the Scottish Government has failed to meet a host of climate change targets and is on track to miss future targets; acknowledges that the ethos of COP27 was around working

together and collaboratively across borders, and sees, therefore, that working with the UK Government as part of the UK is the best way to move Scotland towards net zero and meet future targets; calls for a coalition of action to be built ahead of COP28 to secure greater progress in global efforts to tackle the climate crisis; welcomes the focus on human rights during COP27 and urges all governments to take firm action to ensure that human rights across the world".

[S6M-07093.1](#) Colin Smyth: COP27 Outcomes—As an amendment to motion S6M-07093 in the name of Màiri McAllan (COP27 Outcomes), insert at end "; notes that the Scottish Government has repeatedly not met its own annual target for emissions; agrees that it is important for Scotland to lead by example through action and delivery, and calls on the Scottish Government to use all the powers available to it to realise Scotland's full potential in the renewable energy sector, including consideration of establishing a publicly-owned energy company, to improve public transport, including by providing adequate funding for councils to establish municipal bus companies, to implement a bold industrial strategy to grow domestic supply chains and create local green jobs in communities across Scotland, and to take all necessary steps to secure a just transition to net zero."

followed by Standards, Procedures and Public Appointments Committee Debate: Standing Orders Temporary Rule Change – Proxy Voting Pilot

[S6M-07078](#) Martin Whitfield on behalf of the Standards, Procedures and Public Appointments Committee: Standing Orders Temporary Rule Change – Proxy Voting Pilot—That the Parliament notes the Standards, Procedures and Public Appointments Committee's 7th Report, 2022 (Session 6), *Report on a Proxy Voting pilot* (SP Paper 270), and agrees that the temporary rule change to Standing Orders set out in Annexe A of the report be made with effect from 4 January 2023.

Debate on the subject of—**

[S6M-06783](#) Paul O'Kane: Carers Rights Day 2022—That the Parliament recognises that Carers Rights Day 2022 takes place on 24 November 2022; understands that Carers Rights Day is about raising the awareness of the rights that carers have, but also of what carers still lack in rights and representation; notes the view that amplifying the voice of carers has become even more vital; believes that they have been demonstrably impacted by particular pressures, from the COVID-19 pandemic to the rise in the cost of living; notes the view that, as the cost of living crisis continues, carers must be listened to and their concerns taken seriously and acted upon by the Scottish and

UK governments; notes that the State of Caring in Scotland 2022 survey, conducted by Carers Scotland, found that 40% of carers on carers allowance are cutting back on food and heat to make ends meet; celebrates what it sees as the immense contribution that carers make, firstly to their own families and loved ones, who they take care of and support, but also to their wider communities, and believes that their efforts, in turn, prevent added pressures being put onto health and social care services.

Motions for Debate

***[S6M-07111](#) Stephen Kerr: The State of the Scottish Education System**—That the Parliament believes that access to a first-class education is the right of all children; notes that teachers have been neglected and let down by the Scottish Government, that young people, from early years education to further and higher education, have suffered from failures in government, and that the people of Scotland have been let down by the undermining of an education system of which they were once proud; believes that, through badly-drawn reform, inaction and a failure to innovate, the Scottish Government has fundamentally undermined the education system in Scotland, meaning that action is required now to address these problems, and calls on the Scottish Government to urgently outline a new education plan with a focus on respect for Scotland's teachers, opportunities for its young people and growth for the whole sector, so that education in Scotland can once again be the best gift for its children.

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at [Proposals for Members' Bills/Session 6 Proposals](#):

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
