followed by Scottish Government Debate: Scotland's Approach to 2022 Coastal States Negotiations - Securing Principled Sustainable Outcomes

[S6M-06889](#) Mairi Gougeon: Scotland's Approach to 2022 Coastal States Negotiations - Securing Principled Sustainable Outcomes—That the Parliament acknowledges the ongoing negotiations with international partners to agree fishing opportunities for 2023, including coastal state and regional fisheries management organisation negotiations, and bi- and tri-lateral negotiations with the EU, Norway and the Faroe Islands; notes that the outcome of these negotiations will be pivotal in providing fishing opportunities to the Scottish industry, and in ensuring the sustainable management of fish stocks in the long term, and supports the Scottish Government's efforts to achieve the best possible outcome for Scotland's fishers, the wider seafood sector, coastal communities and the environment through a collaborative and co-management approach with stakeholders.

The Presiding Officer has selected the following amendment

[S6M-06889.1](#) Colin Smyth: Scotland's Approach to 2022 Coastal States Negotiations - Securing Principled Sustainable Outcomes—As an amendment to motion [S6M-06889](#) in the name of Mairi Gougeon (Scotland's Approach to 2022 Coastal States Negotiations - Securing Principled Sustainable Outcomes), insert at end "; believes that distribution of fish quotas secured at these negotiations must follow key tests, including catch limits that meet scientific advice for maximum sustainable yield, as well as socially, economically and environmentally beneficial fisheries being given preferable access to quota, Scottish seafood being landed in Scotland, and securing the maximum share of sustainable fishing opportunities for Scottish fishers; recognises the importance of the transition to low-impact fishing; calls on the Scottish Government to report yearly on how it incentivises the use of selective fishing gear and the use of techniques that have a reduced impact on the environment, when distributing catch quotas and effort quotas to fishing boats, in line with Section 25 of the Fisheries Act 2020; notes the value of the fishing sector and the jobs that it provides, often in rural communities; further notes the need to support and develop

Scotland's fish processing industry; commends those working in the sector, and recognises the resilience and bravery of Scotland's fishermen."

[S6M-05709](#) Christine Grahame: Brexit's Impact on Inflation—That the Parliament notes with concern the reported impact of Brexit on inflation and the cost of living across Midlothian South, Tweeddale and Lauderdale and elsewhere in Scotland; further notes that research by the UK in a Changing Europe think tank reportedly revealed that Brexit has increased food prices by 6%; notes reports that sterling has lost 10% of its value, leaving households poor by increasing import costs and inflation while lowering wage growth; is aware of research published by the London School of Economics and Resolution Foundation stating that Brexit has reduced how open and competitive Britain is, leading to, it believes, reduced productivity and wages over the next decade; recognises that the Office for Budget Responsibility reportedly says that Brexit will have the long-

term effect of cutting UK GDP by 4%; understands that the *Financial Times* agreed that such a decline will mean £100 billion of lost output and £40 billion less revenue for the Treasury each year; is concerned by reports that the UK has now fallen behind all other G7 countries in the pace of its recovery from the COVID-19 pandemic, with, it understands, exports down significantly, and notes the view that Scotland will prosper more by regaining its independence and re-joining the EU than by remaining in the UK.

Motions for Debate

***[S6M-06899](#) Jackie Baillie: Protecting Primary Care**—That the Parliament notes the recent warnings by BMA Scotland about the pressures on general practice, with 81% of practices surveyed reporting that demand was exceeding capacity and it estimating that an extra 1,000 whole time equivalent (WTE) GPs are needed now; understands that not all practices have access to full multi-disciplinary teams, limiting GPs' ability to focus on the patients that need them most, and therefore regrets the Scottish Government's decision to cut £65 million from primary care services and £5 million from the Sustainability Payment to practices; considers that this diminishes the ability of GPs to respond to winter pressures and will exacerbate the crisis in primary care, with serious consequences for staff and patients and the wider NHS this winter; is alarmed by reports that NHS board chief executives are considering the implementation of a two-tier system of access within the NHS, and considers this to be privatisation through the back door; remains committed to the founding principle of the NHS of being freely available at the point of need; calls on the Scottish Government to reconsider the cuts to primary care and to give an urgent update on where the 800 additional GPs it pledged in 2017 will be located, and regrets that the Scottish National Party administration is considering the privatisation of the NHS in Scotland.

Supported by: Carol Mochan*

***[S6M-06898](#) Mark Griffin: Cost of Living: Mortgage Rescue Scheme**—That the Parliament notes the increase in mortgage costs due to the sharp rise in interest rates following the UK Government's disastrous mini-budget; believes that, combined with wider cost of living pressures, higher mortgage repayments will push some households into poverty and that action is needed to prevent a spike in arrears and homelessness; recognises that the Scottish Government's Mortgage to Shared Equity scheme has not had a successful application since 2015-16, and calls for the Scottish Government to relaunch and revamp the scheme so that it is not limited to only those with existing high levels of equity, that eligibility thresholds reflect true house price values and that there is a maximum application turnaround time of two months.

Supported by: Daniel Johnson*

***[S6M-06897](#) John Swinney: Patient Safety Commissioner for Scotland Bill: Financial Resolution**—That the Parliament, for the purposes of any Act of the Scottish Parliament resulting

from the Patient Safety Commissioner for Scotland Bill, agrees to any expenditure of a kind referred to in Rule 9.12.3A of the Parliament's Standing Orders arising in consequence of the Act.

***[S6M-06889](#) Mairi Gougeon: Scotland's Approach to 2022 Coastal States Negotiations - Securing Principled Sustainable Outcomes**—That the Parliament acknowledges the ongoing negotiations with international partners to agree fishing opportunities for 2023, including coastal state and regional fisheries management organisation negotiations, and bi- and tri-lateral negotiations with the EU, Norway and the Faroe Islands; notes that the outcome of these negotiations will be pivotal in providing fishing opportunities to the Scottish industry, and in ensuring the sustainable management of fish stocks in the long term, and supports the Scottish Government's efforts to achieve the best possible outcome for Scotland's fishers, the wider seafood sector, coastal communities and the environment through a collaborative and co-management approach with stakeholders.

Supported by: Màiri McAllan*

***[S6M-06889.1](#) Colin Smyth: Scotland's Approach to 2022 Coastal States Negotiations - Securing Principled Sustainable Outcomes**—As an amendment to motion S6M-06889 in the name of Mairi Gougeon (Scotland's Approach to 2022 Coastal States Negotiations - Securing Principled Sustainable Outcomes), insert at end "; believes that distribution of fish quotas secured at these negotiations must follow key tests, including catch limits that meet scientific advice for maximum sustainable yield, as well as socially, economically and environmentally beneficial fisheries being given preferable access to quota, Scottish seafood being landed in Scotland, and securing the maximum share of sustainable fishing opportunities for Scottish fishers; recognises the importance of the transition to low-impact fishing; calls on the Scottish Government to report yearly on how it incentivises the use of selective fishing gear and the use of techniques that have a reduced impact on the environment, when distributing catch quotas and effort quotas to fishing boats, in line with Section 25 of the Fisheries Act 2020; notes the value of the fishing sector and the jobs that it provides, often in rural communities; further notes the need to support and develop Scotland's fish processing industry; commends those working in the sector, and recognises the resilience and bravery of Scotland's fishermen."

Members' Business motions that have not achieved cross party support

***[S6M-06825](#) Stephen Kerr: The Children and Young People's Commissioner Annual Report**—That the Parliament notes the annual report of the Children and Young People's Commissioner Scotland; thanks the Commissioner and the stakeholders, including those in the Central Scotland Region, who contributed to the work over the course of the last year; notes the findings regarding safeguarding of children and young people, and considers that the role of the commissioner, in ensuring that children are protected from harm and violations of their rights, is of paramount importance to them and to the Parliament.

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 6 Proposals:

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
