[S6M-07511](#) Foysoil Choudhury: Damp Housing in Scotland—That the Parliament notes the tragic death of Awaab Ishak due to mouldy housing; notes the view that there is a need for urgent action to avoid similar tragedies happening in Scotland, including in the Lothian region; recognises that mould and damp in homes can be dangerous and cause health problems; understands that the cost of living crisis has caused constituents across Scotland to avoid heating their homes, which can further exacerbate the problem of damp and mould; further understands that damp housing is disproportionately affecting those living in poverty; acknowledges the calls for every constituent in Scotland to have a right to safe, warm housing; notes the view that extra investment for a whole house retrofitting programme is required to tackle problems caused by damp housing; further notes the calls for the creation of a grant scheme to tackle the problems of damp housing across the housing sector, including social housing, housing associations and the private sector; notes the belief that there is a need for increased support and guidance for constituents on the prevention of damp in properties across Scotland; believes that this issue is of nationwide importance, and notes the calls for all political parties in the Parliament to collaborate to tackle damp housing in Scotland.

followed by Ministerial Statement: Deposit Return Scheme

followed by Scottish Government Debate: Delivering on Climate Change and the Just Transition

[S6M-08626](#) Màiri McAllan: Delivering on Climate Change and the Just Transition—That the Parliament recognises the scale and the urgency of the climate crisis and the need for Scotland to show continued global leadership in a Just Transition to net zero; further recognises that the draft Energy Strategy and Just Transition Plan sets out a just and fair pathway to maximise the opportunities of that transition; acknowledges that a highly-skilled workforce will be required to deliver the opportunities of a net zero economy, including Scotland's existing oil and gas and construction workforces, and that upskilling, reskilling and attracting new talent should be a key just transition priority of the Scottish Government; celebrates the significant contribution of those who manage land and marine areas, including those working in farming and fishing, to food security, the economy and the environment; agrees that Scotland's economic potential as a net zero nation is vast, including world-leading clean energy sectors and supply chains, its nature-based sectors and food and drink, through innovative green technology and services, including finance, and by maximising Scotland's strengths and potential in the decarbonisation of transport and the built environment; endorses that Scotland's sectoral Just Transition Plans must be co-designed by those most impacted by the transition, including workers and trades unions, and anticipates the contribution that Scotland's next Climate Change Plan, and both site and sectoral Just Transition Plans, will make on the journey to a fairer, greener Scotland.

The Presiding Officer has selected the following amendments

[S6M-08626.2](#) Liam Kerr: Delivering on Climate Change and the Just Transition—As an amendment to motion [S6M-08626](#) in the name of Màiri McAllan (Delivering on Climate Change and the Just Transition), insert at end “; recommends that a science and evidence-based approach be taken to deliver on national net zero targets and ensure a just transition; emphasises the need for Scotland to act as a responsible global partner by contributing to global efforts to support mitigation, adaption, and green technology projects, and not offsetting carbon emissions to other nations; asserts that collaboration with the UK Government and other devolved nations is essential to delivering a just transition; argues that the draft Energy Strategy and Just Transition Plan lets down the people of Scotland and fails to provide a fair and just pathway to maximise the opportunities of that transition; notes that greater efforts are required to improve circularity within the Scottish economy, and believes that a workable Deposit Return Scheme, which addresses the current flaws, must be delivered.”

[S6M-08626.1](#) Sarah Boyack: Delivering on Climate Change and the Just Transition—As an amendment to motion [S6M-08626](#) in the name of Màiri McAllan (Delivering on Climate Change and the Just Transition), leave out from "further recognises" to end and insert "notes the damning report from the UK Climate Change Committee, which states that the Scottish Government's

targets are “in danger of becoming meaningless”, and that more action must urgently be taken; agrees that the Scottish Government’s plans are insufficient to meet Scotland’s climate change targets and believes that a stronger emphasis on adaptations to address climate risks is needed; recognises Scotland’s huge potential as a net zero nation and considers that it is well placed to realise the opportunities of a net zero economy, with its highly-skilled workforce, including in the oil and gas and energy sectors; believes that, if the Scottish Government is to deliver a just transition for these workers and communities, it must increase efforts in upskilling, reskilling and attracting new talent in these sectors; celebrates the significant contribution of those who manage land and marine areas, and is concerned that they must not be left behind in the transition to net zero, and therefore calls for greater support for community-based projects; recognises the huge benefits that could come to Scotland through the Labour Party’s proposed Green Prosperity Plan, which would create a clean power system across the UK by 2030, and supports the proposals to create a publicly-owned energy generation company so that the profits, jobs and benefits of Scotland’s natural resources are no longer offshored but benefit local people.”

followed by **Members' Business** **Debate on the subject of—**

[S6M-07598](#) Kenneth Gibson: Bringing Back the Eurasian Lynx to Scotland—That the Parliament notes the recent campaign for the Eurasian lynx, a medium-sized wildcat native to Scotland, to be reintroduced; understands that lynx have been extinct in Britain for around 500 years; is aware that this was probably caused by widespread loss of woodland, the collapse of wild deer populations and hunting by humans; acknowledges a study carried out by the Lynx to Scotland partnership, made up of Trees for Life, Lifescape and Scotland: The Big Picture, which sought to assess the social feasibility of potential lynx reintroduction through consultation with stakeholders and communities in the Cairngorms National Park and Argyll, and found that there was sufficient support for lynx reintroduction among stakeholders and a desire among others to further investigate the potential, to warrant a continued exploration of feasibility; considers that the case for lynx reintroduction is both moral and ecological and that lynx would make Scotland’s ecosystems richer and stronger; believes that lynx are an important species due to their role in maintaining balance and diversity in an ecosystem, as they help regulate numbers and behaviour of deer and some smaller carnivores; is aware that lynx are mainly crepuscular animals, and pose no danger to people; considers that attacks on livestock such as sheep are uncommon; is aware that lynx have slowly spread across mainland Europe in the last few decades, and have been reintroduced in several European countries, including Germany, Switzerland and France; believes that lynx could also act as high-profile ambassadors for nature-rich landscapes, attracting valuable tourism revenue in Scotland’s rural communities, and notes the calls on the Scottish Government to rectify lynx extinction in Scotland by a controlled reintroduction, once the necessary ecological and practical assessments have been undertaken.

***[S6M-08569](#) David Torrance: Congratulating Wendy Hisbent for Services to School**

Sports—That the Parliament congratulates Wendy Hisbent on being named runner-up in the Fife Active Services to School Sport Award at the 2023 Kirkcaldy and Central Fife Sports Council Awards; acknowledges that the Active Schools service aims to provide more and higher-quality opportunities to take part in sport and physical activity before school, during lunchtime and after school, and to develop effective pathways between schools and sports clubs in the local community; believes that this award marks dedication and commitment to supporting or volunteering in school sport by an individual, club, organisation or group; recognises that, since 2021, Wendy has volunteered as a dance coach, delivering twice-weekly ballet classes for kids in P1 to P4 at Dysart Primary School, providing opportunities for pupils who, without her, may not otherwise have them; notes the feedback from the school about the increased levels of confidence in pupils, which has impacted positively on concentration levels, classroom conduct and educational attainment; understands that the pupils' recent participation in the Fife 678 Dance Festival was a memorable and inspiring experience for the children; commends Wendy's motivation, infectious enthusiasm and commitment to the pupils, and wishes her all the very best for the future.

***[S6M-08566](#) Paul Sweeney: Glasgow Man, Frank McArdle, Receives Gradam Ceoil Award for Outstanding Contribution**

—That the Parliament congratulates Glasgow resident, Frank McArdle, of the Garngad-based Irish Minstrels Branch of Comhaltas Ceoltóirí Éireann and the famous St Roch's Ceili Band, on receiving the prestigious Gradam Ceoil Outstanding Contribution Award; notes that the Gradam Ceoil awards, hosted by Irish language station, TG4, have a global recognition in world music; understands that the award is in recognition of the thousands of musicians who have been taught music for free on a Tuesday night at St Roch's secondary school in Glasgow for over 40 years; considers that this award reaffirms the close cultural links between Scotland and Ireland, and what it sees as the positive impact that the Irish community has had in Glasgow; commends what it considers to be the immeasurable impact that Frank has made on lives and families across Scotland and Ireland, and congratulates Frank, his wife, Marie, and his daughters, Eileen, Catriona, Roisin, Patricia and Siobhan, on this prestigious and deserved recognition.

***[S6M-08565](#) Finlay Carson: Team Mouat Wins World Curling Championship with Flawless Display**

—That the Parliament congratulates Scotland's historic men's curling rink, captained by Bruce Mouat, from Edinburgh, alongside Dumfriesshire's Grant Hardie, Bobby Lammie, Hammy McMillan, from Stranraer, and Kyle Waddell, from Hamilton, on their sensational World Men's Curling Championship win in Ottawa, Canada, which was watched by a sell-out crowd of 6,500 people who witnessed a display of near-perfect percentage curling, as the team recorded an emphatic 9-3 victory over the host nation in the final to take the gold medal; understands that this win was Scotland's first men's world title since 2009; notes that it follows on from Team Mouat's success at the Winter Olympics in Beijing in 2022, where they won the silver medal after being narrowly defeated 5-4 by Sweden; hopes that the Scots' continued success will help elevate the sport across Scotland, provide a lasting legacy and inspire a new generation of curlers, and wishes Team Mouat further success in the future.

***[S6M-08524](#) Rachael Hamilton: Union Chain Bridge Reopens after Restoration.**—That the Parliament welcomes the reopening of the Union Chain Bridge after a major restoration project; commends the hard work of the Friends of the Union Bridge for their dedication in getting the historic monument restored just after the bridge's 200th birthday; understands that the Union Chain Bridge still holds the world record as the world's oldest suspension bridge still carrying vehicles; thanks all builders and restorers who have dedicated the past two and a half years to putting new life into the historic monument, and believes that the reopening of the Union Chain Bridge underlines the ability to achieve more in union with those who are closest neighbours than without them.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
