Motions

Motions and amendments are usually printed the day after lodging. When an amendment is lodged, then the original motion will be republished alongside it.

Motions and amendments can be published with symbols:

- * before the number indicates publication for the first time
- *...* around a section of text indicates changes to previously published material
- R indicates a member has declared a registered interest

The Parliamentary Bureau periodically deletes motions or amendments that are over six weeks old and not scheduled for debate.

Questions regarding this section should be directed to the Chamber Desk.

Motions for Debate

***[S6M-07983](#) Mairi Gougeon: Shark Fins Bill - UK Legislation**—That the Parliament agrees that the relevant provisions of the Shark Fins Bill, introduced in the House of Commons on 15 June 2022, and as amended at its committee stage on 16 November 2022, relating to shark finning, so far as these matters fall within the legislative competence of the Scottish Parliament or alter the executive competence of the Scottish Ministers, should be considered by the UK Parliament.

Supported by: Màiri McAllan*

***[S6M-07977](#) Graham Simpson: A9 Dualling**—That the Parliament believes that the Scottish Government's failure to deliver on its promise to dual the A9 between Perth and Inverness by 2025 is a betrayal; recognises the vital importance of this route to the economic and social wellbeing of the communities it serves; notes the serious safety implications of failing to meet the commitment to dual, with lives lost and serious accidents having occurred since the commitment was made, and calls on the Scottish Government to provide a specific date for when a revised timescale of works and costs will be published, and to ensure that Transport Scotland publishes a quarterly update setting out progress against published targets.

***[S6M-07975](#) Maurice Golden: Launching a Successful Deposit Return Scheme**—That the Parliament believes that a Deposit Return Scheme (DRS) can make a positive contribution to increasing the rate of recycling and reducing litter for drinks containers; recognises that the Scottish Government has been committed to introducing a DRS since 2013; welcomes the widespread support that the scheme's environmental objectives have received from businesses, and recognises their concerns over key operational elements of the scheme; understands that businesses, and waste management experts have called for at least 18 months' notice prior to the scheme launch, and that, with less than six months until the proposed launch, information is still required by stakeholders to both ensure compliance and maximise the operational success of the scheme; notes the findings of the Gateway Review Final Report, which stated that "...a fully functioning and compliant DRS cannot be in operation for the revised August 2023 schedule", and calls for an urgent independent review of the launch date to enable a successful launch as soon as practically possible.

***[S6M-07890](#) Emma Harper: Wear A Hat Day 2023**—That the Parliament recognises what it sees as the importance of Wear A Hat Day, taking place on 31 March 2023, in raising awareness of brain tumours; understands that brain tumours are the biggest killer of children and adults under 40 with cancer in Scotland, reducing life expectancy by 20 years on average; believes that this is the highest life expectancy reduction of any cancer, but that the treatment and understanding of brain tumours are 20 years behind those relating to more common cancers; notes that brain tumours often cause side effects that have a severe impact on a person's quality of life; understands that there are over 130 different types of brain tumour, and that some symptoms of brain tumours can mimic other equally serious conditions, which often renders early diagnosis and treatment more difficult in many cases; further understands that brain tumour charities, such as the Brain Tumour Charity, are working hard to fund pioneering research, raise awareness of the signs and symptoms of brain tumours, and provide support to people affected by brain tumours; commends the success of national campaigns, which it considers have contributed to a reduction in the average diagnosis time for childhood brain tumours, from 9.1 to 6.5 weeks, since 2011; believes that national campaigns are a basis on which to develop further awareness; notes the significant efforts of Dumfries and Galloway Medical Physics Technician, Alan Johnstone, in both raising awareness of brain tumours and funding for research and development into the causes of brain tumours, their treatment and, ultimately, a cure; understands that Alan's late wife, Anneka Johnstone, was diagnosed with a glioblastoma brain tumour and sadly died in 2019, despite being a very fit and active 33-year-old, and further understands that, despite losing Anneka, Alan has raised more than £55,000 for the Brain Tumour Charity by walking the 214-mile Southern Upland Way, videos of which were posted to Alan's TikTok account, which has attracted a huge following.

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). All current proposals (together with associated documents) are available on the Scottish Parliament website at [Proposals for Members' Bills/Session 6 Proposals](#):

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
