followed by **Scottish Labour Party Debate: Addressing the Crisis in the NHS and Social Care**

[S6M-07538](#) **Jackie Baillie: Addressing the Crisis in the NHS and Social Care**—That the Parliament is deeply concerned about the experiences of patients and staff across Scotland’s NHS; notes that in recent weeks A&E has recorded the worst ever performance against the 4-hour target, levels of delayed discharge have reached their highest ever and record numbers of people are waiting for appointments, tests and treatment; considers that this has not been caused by short-term problems, but is the result of 15 years of the Scottish Government failing to tackle systemic issues in Scotland’s health and social care system, and believes that, instead of sticking plaster solutions, Scotland needs an NHS Recovery Plan that is community care-led, focuses on preventative healthcare, properly values social care and delivers £15 per hour for social care staff, and has a fully-funded and sustainable workforce plan for health and care services so that Scotland’s NHS is fit for the 21st century.

The Presiding Officer has selected the following amendments

[S6M-07538.2](#) **Humza Yousaf: Addressing the Crisis in the NHS and Social Care**—As an amendment to motion S6M-07538 in the name of Jackie Baillie (Addressing the Crisis in the NHS and Social Care), leave out from "is deeply" to end and insert "recognises the unprecedented pressure that NHS and care staff have faced over the winter and thanks them for all their efforts in caring for the people of Scotland at this challenging time; notes that these are challenges that are being faced across the UK and beyond; recognises that the triple impact of Brexit, the COVID-19 pandemic and the UK Government’s cost of living crisis has exacerbated the pressures faced by the health service; believes that freedom of movement within Europe would be beneficial to help addressing recruitment challenges, and that the only route to securing that is membership of the European Union; welcomes that constructive industrial relations in Scotland’s health service mean that Scotland is the only part of the UK not experiencing strike action from health staff this winter; notes the ongoing £1 billion NHS Recovery Plan, which is supporting new ways of delivering care that are creating additional capacity for inpatients, day case patients and outpatients, including investment to support the four National Treatment Centres (NTC) due to open over 2023; recognises that the expanded NTC network will provide additional capacity of eight additional orthopaedic theatres, an additional inpatient/day case ward, five endoscopy rooms and two general theatres, initially providing over 12,250 additional procedures, dependent on workforce; welcomes the Scottish Government’s draft Budget, which included additional investment to increase adult social care wages, and believes that, through the creation of the National Care Service, there is a real opportunity for underpinning fair work in social care and delivering national sectoral bargaining for social care workers."

[S6M-07538.1](#) **Sandesh Gulhane: Addressing the Crisis in the NHS and Social Care**—As an amendment to motion S6M-07538 in the name of Jackie Baillie (Addressing the Crisis in the NHS and Social Care), leave out from ", and believes" to end and insert "; recognises in evidence of this fact that the 62-day cancer treatment target has not been met in a decade, and that the Child and

Adolescent Mental Health Services target has never been met since its introduction in 2014, and calls on the Scottish Government to take action by introducing new crisis maximum waiting times, increasing GP capacity by introducing a full electronic repeat prescription system, introducing an NHS care app to allow patients to see live hospital waiting times, introducing prehab for those awaiting treatment, and expanding rehabilitation and assessment in the community and home (ReACH) teams across all health boards to prevent older individuals from having to return to hospital."

Motions for Debate

***[S6M-07558](#) Mairi Gougeon: Carbon Neutral Islands Project – First Steps Towards Decarbonisation**—That the Parliament welcomes the Scottish Government's publication of a progress report on the Carbon Neutral Islands Project; notes that the first steps to support the six islands towards becoming fully carbon neutral by 2040 are underway; recognises that the six islands included in the project will act as lighthouse communities, spreading knowledge and good practices to other Scottish islands; acknowledges that communities are at the heart of the project and that they will be supported to take advantage of the opportunities that the transition to net zero presents; continues to support this initiative and the soon-to-be-published community climate change action plans, and acknowledges that the six Carbon Neutral Islands will demonstrate Scotland's climate change ambitions on the international stage.

[S6M-07538](#) Jackie Baillie: Addressing the Crisis in the NHS and Social Care—That the Parliament is deeply concerned about the experiences of patients and staff across Scotland's NHS; notes that in recent weeks A&E has recorded the worst ever performance against the 4-hour target, levels of delayed discharge have reached their highest ever and record numbers of people are waiting for appointments, tests and treatment; considers that this has not been caused by short-term problems, but is the result of 15 years of the Scottish Government failing to tackle systemic issues in Scotland's health and social care system, and believes that, instead of sticking plaster solutions, Scotland needs an NHS Recovery Plan that is community care-led, focuses on preventative healthcare, properly values social care and delivers £15 per hour for social care staff, and has a fully-funded and sustainable workforce plan for health and care services so that Scotland's NHS is fit for the 21st century.

Members' Business motions that have not achieved cross party support

***[S6M-07526](#) Stephen Kerr: Biochar Regulation**—That the Parliament believes that the current environmental regulations for biochar are out of date and preventing commercialisation of this product; understands that optimised biochar can enable nutrient recovery in water, remove impurities in gases and metal contamination in soil, and direct CO2 capture in exhaust systems; believes that such benefits can support efforts to both protect the natural environment and grow the green economy, including in the Central Scotland region, and notes the view that Scotland must demonstrate a leading role in shaping new environmental regulations.

***[S6M-07522](#) Rona Mackay: The Cost to Families of Imprisonment and Release**—That the Parliament acknowledges what it sees as the deepening financial and emotional hardship of families with a loved one in prison after a decade of austerity, the COVID-19 pandemic and the present cost of living crisis; notes the impact of what it considers this harsh reality in a new report by Families Outside, the only national charity that works solely on behalf of families in Scotland, including in the Strathkelvin and Bearsden constituency, who are affected by imprisonment; understands that one in three children in disadvantaged areas of the country are now living in poverty; believes that the cost of imprisonment is overwhelmingly borne by single women on low incomes, with single parents hit especially hard financially, along with the added adverse impact

on mental health as a consequence of supporting someone in prison; notes the view that more support is needed for people on release from prison, which it considers would in turn help their families; highlights what it considers the role of prison in creating, sustaining and deepening poverty among children and families, and notes the view that more must be done to relieve what it sees as the financial and mental burden carried silently by families for too long, and to ensure that their voices are heard.

***[S6M-07543](#) Annie Wells: Branches of Brave Tree Glasgow Royal Hospital** —That the Parliament congratulates the play team staff at Glasgow Royal Hospital, which has introduced a special tree to help children feel calm during cancer treatment; understands that the tree has brave branches that allow children and their families to add their handprints or anything else that is special to them as leaves; further understands that while the play team is associated with making sure children can have fun while having treatment, it also educates children about their illness in a way that they can understand and provides support for families, and notes that the branches of brave idea was created by Emma McWilliam, a health play assistant in the Royal Hospital for Children's (RHC) paediatric intensive care unit, and that it is hoped that the branches of brave tree will demonstrate to children that it is okay to be scared and share their feelings.

***[S6M-07542](#) Annie Wells: Glasgow Mums Launch Playgroup for Kids with Autism**—That the Parliament congratulates Autisfun, an inclusive playgroup launched in Glasgow to support families of children with autism; notes that the playgroup was founded by three local mothers, who wanted to create a space for parents and children to make connections and support each other; understands that the opening was a big success, with more than three dozen families taking part in the session at the Barmulloch Community Development Company; acknowledges that children played with an inflatable castle, dolls, puzzles, building blocks and more, while the adults enjoyed food and conversation; considers that raising children with additional support needs can be isolating and intimidating; notes that the entire family can attend the playgroup as it believes that siblings are also affected by an autism diagnosis; understands that local parents and carers were delighted by the two-hour session, which will return every Friday, in the hope to reach more families, and acknowledges that the group can be found every Friday at Barmulloch Community Development Company, from 4pm.

***[S6M-07540](#) Ruth Maguire: Auchenharvie Pupils Win Judges Award**—That the Parliament congratulates S6 pupils from Auchenharvie Academy, Stevenston, on winning the Judges Award at the UK F1 in Schools final, which was held in Birmingham in 2023; understands that the UK F1 in Schools is a science, technology, engineering and mathematics (STEM) competition with the aim of introducing younger people to engineering in a more fun environment; notes that the competition is held annually, with regional and national finals; further notes that it is a multi-disciplinary challenge in which teams of students aged nine to 19 deploy CAD/CAM software to collaborate, design, analyse, manufacture, test, and then race miniature compressed air powered cars made from F1 model block; understands that the overall winners of the national finals are invited to compete at the world finals, which are held at a different location each year, usually held in conjunction with a Formula One Grand Prix; further understands that there are several aspects of the competition, which include specifications judging, engineering judging, portfolio and pit display judging, verbal presentation judging and racing; commends the S6 pupils for winning the Judges Award, and wishes them every success in the future.

***[S6M-07539](#) Ruth Maguire: Kilwinning Sports Club Kit Exchange**—That the Parliament congratulates Kilwinning Sports Club on its kit exchange initiative; understands that the initiative allows those who have football kit, which they have outgrown or no longer use, but is still usable, to donate the items to the club; further understands that the donated items are placed in the exchange for others to collect for free, to ensure that the items do not go to waste, and that locals have a chance to pick up useful gear without the big price tag; acknowledges that Rangers FC made a very generous donation of football boots to the club; encourages those who have items they no longer use, to donate them to the exchange; congratulates Kilwinning Sports Club on giving access to sports kit, and wishes it continued success with the initiative.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
