***[S6M-07555](#) Sandesh Gulhane: Chronic Kidney Disease in Scotland**—That the Parliament understands that chronic kidney disease affects more people in Scotland than cancer and that there is no cure; further understands that only around two thirds of those affected by kidney disease have received a diagnosis, with many of them diagnosed too late to prevent renal failure, while others are identified by accident when tested for other conditions; believes that there are significant opportunities to address inequalities in the diagnosis and outcomes for people in Scotland, including in the Glasgow region, with chronic kidney disease, based on their backgrounds; marks the launch of the Kidney Research UK report, *Changing the future for chronic kidney disease in Scotland*, which it understands makes key recommendations to transform the outcomes for people in Scotland with chronic kidney disease, and notes the calls on patients and their advocates, families, clinicians, researchers, NHS leaders and policymakers to work together to devise and deliver a national approach that can transform kidney health in Scotland, prevent more people developing this potentially life-threatening disease, slow its progression, avoid

***S6M-07561 Alasdair Allan: Portrait of Britain Photography Awards**—That the Parliament congratulates Deljeem Rai from Stornoway, Isle of Lewis, on his winning entry to the Portrait of Britain Photography Awards; recognises that his entry of a boy sitting on a ball came from a collection of photos depicting life in the Cearns, a social housing estate Deljeem grew up in after moving to the Isle of Lewis from Nepal, as a teenager; understands that the series of photos aimed to challenge pre-conceived ideas about the Cearns, which Deljeem sees as a close-knit community whose relationships are strong and whose support for one another is given without

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.
