recognises what it sees as the significant cultural and economic benefit to the town brought by the thousands of AC/DC fans who travelled from around the world to attend the 2024 event; commends the wider work of local charity, DD8 Music, to provide young people and adults in Angus with opportunities to take part in music, and wishes it every success as it now looks to Bonfest 2025.

***S6M-13097 Murdo Fraser: Economic Benefits of Taymouth Castle Development—**That the Parliament congratulates the developers of Taymouth Castle in Perthshire on producing an economic impact analysis, which shows that the estate is estimated to contribute £390 million gross value added (GVA) to the Perth and Kinross economy over 25 years, including £210 million in local wages; notes that the impact analysis also projects that the estate will contribute to an uplift of at least 6% in the number of jobs within the Highland ward of Perth and Kinross; further notes that the project is projected to create 2,620 construction jobs in the region, including £70 million in associated wages and £160 million in GVA, along with creating an additional 200 jobs and £8 million in annual wages for employees in Perth and Kinross; understands that spending at restaurants, shops and other local businesses by those living or staying at the estate will create 55 jobs in Perth and Kinross and £1 million in annual wages, and that the estate is also projected to generate £55 million in income tax and national insurance receipts over a 25-year period, and £11 million in council tax, and wishes the developers of the project, Discovery Land Company, and the project itself all the best for the future.

***S6M-13095 Michael Marra: Ehlers-Danlos Syndrome Awareness Month—**That the Parliament recognises May 2024 as Ehlers-Danlos Awareness Month; understands that Ehlers-Danlos syndromes (EDSs) are part of the inherited connective tissue disorders and are mainly characterised by joint hypermobility, skin hyperextensibility and tissue fragility; further understands that these syndromes are classified into 13 subtypes and present great clinical and genetic heterogeneity; believes that the most common is the hypermobile Ehlers-Danlos syndrome (hEDS), the diagnosis of which remains clinical; understands that, after other possible conditions are excluded, a diagnosis of hypermobility spectrum disorders (HSD) may be made, and that, although most commonly characterised by joint hypermobility, skin flexibility and tissue fragility, many patients with hEDS/HSD report a much wider range of co-occurring conditions and symptoms, which can be just as debilitating as these connective tissue manifestations, such as pain, fatigue, dysautonomia, gastrointestinal disorders, anxiety and respiratory symptoms; believes that there is currently no pathway of care for adults living with hEDS/HSD in Scotland or the UK, and that people living with these conditions report feeling dismissed by healthcare professionals, with time to diagnosis reportedly currently averaging two decades, and encourages ministers and parliamentarians to engage fully with the issue, and to work with the NHS, researchers and patient representatives to deliver the care pathways that people need.

***S6M-13086 Kevin Stewart: Crass Cartoon**—That the Parliament condemns what it sees as the crass cartoon printed in *The Times* newspaper on 3 May 2024, featuring four Scottish National Party (SNP) leaders past and present with SNP logos around their necks, as if being hanged; notes that two parliamentarians have been murdered in the UK since 2016, leading to heightened security concerns for those elected to public office in recent years; believes that such violent imagery should have no place in political discourse, falls far short of what right-minded people would consider to be acceptable commentary, and contributes towards creating a toxic environment that puts people off wanting to take part in politics; further believes that suicide is no laughing matter, and calls on newspaper editors to give more thought to the messages that they are giving out before publishing such cartoons in the future.

***S6M-13078 Rachael Hamilton: Endometriosis Awareness Month**—That the Parliament understands that March 2024 was Endometriosis Awareness Month, which aimed to raise awareness of the debilitating condition that affects one in 10 women in the UK, which, it understands, is similar to the number affected by diabetes or asthma; understands that endometriosis is a long-term condition that sees tissue similar to the lining of the womb grow in other parts of the body, generally on organs in the pelvic cavity, such as the ovaries, fallopian tubes and bowel, which can be painful and have devastating impacts on a woman's education, personal and professional relationships, mental health, and quality of life, and which charities in the Scottish Borders, such as Endometriosis South of Scotland, have been championing for women; further understands that findings published by Endometriosis UK to mark the start of Endometriosis Awareness Month in March show that 74% of men do not know what endometriosis is, and 56% of people are unable to name any symptoms of the condition, emphasising what it sees as the need for Endometriosis Awareness Month to educate the general public about this condition; understands that Endometriosis UK says that a lack of education in schools is contributing to societal taboos in talking about female health, which delays access to treatment and increases diagnosis time, which averages what it considers to be a deplorable 7.5 years, and thanks Endometriosis UK for its hard work in raising awareness of this condition that affects so many women across the country.

Progress of Legislation

A list of all Bills in progress can be accessed via the website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
