## followed by Members' Business Debate on the subject of—

**[S6M-17969](#) Douglas Ross: Action to Address the Impact of Gulls in Scotland**—That the Parliament notes with concern the reported changes to the approach taken for granting licences to control gulls in recent years by NatureScot, which, it understands, has led to fewer licences being approved, as demonstrated by 2,041 licences being granted in 2023, but this figure falling to 505 in 2024; understands that communities and businesses in Moray, Nairn and Inverness have had significant problems with gulls in recent years, but that many communities across Scotland also experience similar problems; believes that Business Improvement Districts (BIDs) funding and Common Good Funds should not have to be spent on continually seeking licences to control gulls that display dangerous and aggressive behaviour that are a risk to all, but particularly the young and older people; is concerned that NatureScot reportedly does not fully acknowledge and respect the views of local people and businesses when considering applications to control gulls that are causing significant problems; notes the calls for more robust action from the Scottish Government and NatureScot to protect humans and businesses from what it sees as the menace of dangerous gulls, including the Scottish Ministers taking action through a section 11 order under the Natural Heritage (Scotland) Act 1991, and further notes the calls for a review by the Scottish Government, preceded by a public consultation on the grounds for legal control, with a view to permitting control to tackle significant nuisance caused by gulls, and on the separation of the licensing of control measures and the nature species conservancy functions of NatureScot, in light of reports of an inherent potential conflict between the two and widespread concerns of many constituents that NatureScot neglects the former while preferring the latter.

## Debate on the subject of—

**S6M-17910 Patrick Harvie: The Future of Glasgow's Bus Services**—That the Parliament notes Strathclyde Partnership for Transport's (SPT) proposals to develop bus franchising arrangements for the region and its recent consultation on how to create more affordable, reliable and environmentally sustainable bus services in Strathclyde; further notes the calls for SPT to proceed with the most ambitious approach to franchising, and for the Scottish Government to work constructively with SPT to make this possible; welcomes the report from Scottish Trades Union Congress (STUC), *The Next Stop: The Case for Publicly Owned Buses in Scotland*; notes that it argues that moving local buses into public ownership would have a positive impact for local communities, allow local authorities to plan routes and cap fares, and return revenues to the public sector; understands that Scotland's only publicly owned bus company, Lothian Buses, has returned a dividend of £36 million to its local authority shareholders over the last decade; congratulates Get Glasgow Moving on its continued campaigning work on this issue, and notes the calls for the Scottish Government to further commit to support the expansion of publicly owned bus services and deliver high quality, affordable and reliable bus services, integrated ticketing and higher standards of service across the SPT region and beyond.
