S6M-20178 Tim Eagle: Supporting Scotland's Bridges—That the Parliament recognises what it sees as the vital role that bridges play in connecting communities across Scotland, including in the Highlands and Islands region, supporting access to work, education, healthcare, emergency services and local economies; notes recent reported events highlighting the vulnerability of Scotland's bridge infrastructure, including the partial collapse of the Spey Viaduct and the ongoing closure, restriction or uncertainty affecting key local bridges such as Cloddach Bridge, Kirkcudbright Bridge and the Bridge of Alford; understands that many of these structures carry thousands of vehicles each day and serve as lifeline routes for both rural and urban communities; notes with concern reports that a number of local authorities, including Highland Council, have acknowledged that financial constraints mean that some bridges will be placed into managed decline, and recognises what it sees as the significant impact that bridge closures or long-term restrictions can have on connectivity, community resilience, local economies and public confidence in Scotland's transport infrastructure.

***[S6M-20494](#) Jackson Carlaw: 50th Anniversary of St Cadoc's Primary School and Nursery—**

That the Parliament welcomes the 50th anniversary of St Cadoc's Primary School and Nursery in Newton Mearns; recognises that, to mark this milestone occasion, there was a Golden Jubilee Mass at the St Cadoc's Parish on 19 January 2026; acknowledges that, alongside the mass, a special open evening is to take place on 28 January; notes that there will be a display at the event to celebrate the 50th anniversary and that members of the St Cadoc's community have been invited to contribute photos, memorabilia and stories from any of the school and nursery's previous five decades; understands that St Cadoc's delivers very high standards of education for pupils and that this was highlighted by a positive Education Scotland inspection report in October 2024; acknowledges that St Cadoc's is firmly embedded as an integral part of the Newton Mearns locality, and wishes the school community every success with the celebration event at the end of January.

***[S6M-20493](#) Ross Greer: Place2Be's Children's Mental Health Week—**That the Parliament recognises Place2Be's Children's Mental Health Week, which runs from 9 to 15 February 2026; notes that the theme for 2026 will be, This is My Place; acknowledges that a child's sense of belonging can have a powerful and long-lasting impact on their physical and mental health, education, employment and relationships; notes that belonging is related to several issues increasingly faced by schools, including poor mental health, emotionally-based absence, declining good behaviour in the classroom and, ultimately, attainment; understands that, with half of all mental health issues reportedly arising before the age of 14, childhood is a chance to act, and calls therefore on the Scottish Government to support positive mental health and wellbeing in primary schools, to ensure that children get help early so they can thrive through childhood and into adulthood.

***[S6M-20492](#) Jackson Carlaw: Calderwood Lodge Receives Exemplary Education Scotland Report—**That the Parliament congratulates Calderwood Lodge Primary School, which is in Newton Mearns, on receiving what it believes to be an exemplary report from Education Scotland; acknowledges that, during a visit by a team of inspectors in October 2025, it was established that pupils are articulate, motivated, kind and proud of their school community, with the children making strong progress in the core skills of literacy and numeracy; recognises that Education Scotland identified a welcoming, nurturing, caring and highly inclusive ethos, which is underpinned by positive relationships across the school community and effective communications between staff and parents to embed the Jewish faith in the work of Calderwood Lodge as a core strength; further recognises that the Education Scotland inspection also identified a staff team with strong working relationships and a highly effective headteacher who discharges their duties with honesty, sensitivity and high ambitions for every pupil as strengths; notes that, based on the inspection, Education Scotland graded Calderwood Lodge as "very good" on the four quality indicators of leadership of change, learning,

teaching and assessment, ensuring wellbeing, equality and inclusion and raising attainment and achievement; further notes that Calderwood Lodge is one half of the first Jewish-Catholic joint schools campus to be established anywhere in the world, alongside St Clare's Primary and that it opened in August 2017; commends pupils, staff and parents at Calderwood Lodge for achieving what it views as an outstanding inspection report from Education Scotland, and looks forward to the school community building in future on the very positive set of results.

***[S6M-20491](#) Tim Eagle: Moray Business Revives Rothes Brewery**—That the Parliament welcomes that Rothes Brewery, which closed in 2020, has been revived thanks to the intervention of the local business, Forsyth's, which also owns the Station Hotel in Rothes; understands that the beers produced by the brewery have great flavour profiles and consistency; notes that one of the reasons that Forsyth's stepped in was because the Station Hotel was no longer able to acquire the Toots Ale that Rothes Brewery had produced; recognises that the new range of beers will now be sold in the hotel's Toots Bar and Bistro; believes that local craft breweries are a vital part of Scotland's rural economy, and wishes everyone involved years of successful trading.

***[S6M-20490](#) Tim Eagle: Two Highland Takeaways Win Fish and Chip Awards**—That the Parliament congratulates Monster Fish and Chips Co in Fort Augustus and The Trawler in Golspie on being ranked in the top 50 fish and chip takeaways for 2026 as part of the annual Fry Awards; understands that the rankings were announced by the *Fry Magazine*, which is the leading trade communication outlet for the fish and chip industry in the UK, and that it independently mystery dines each entry; notes that entries had to exceed a pass mark of 97% to be considered, and wishes Monster Fish and Chips Co and The Trawler an excellent trading year.

***[S6M-20489](#) Claire Baker: Recognising and Celebrating the 80th Anniversary of the Twinning Link between Burntisland and Flekkefjord, Norway** —That the Parliament recognises and celebrates the 80th anniversary of the twinning link between Burntisland and Flekkefjord, Norway; understands that the twinning began in February 1946, and is believed to be one of the oldest town twinning links in the world; notes that it aims to develop and maintain friendships and cultural links between the two communities; recognises that Burntisland and Flekkefjord have much in common, including their rich maritime history, industry and tourism; believes that the Burntisland and Flekkefjord Twinning Committee is hosting an exchange programme of events in Burntisland in summer 2026 to celebrate this special anniversary; acknowledges that the most recent annual exchange, in August 2025, took place in Flekkefjord, where a delegation from Burntisland was treated to many great experiences; recognises the hard work of the committee in organising and years of planning and fundraising; expresses its gratitude to supporters, including Tom Courts Butchers, the Sands Hotel, Talented Witches, Fife Council, the Scottish Norwegian Society and the Norwegian Scottish Association; extends its very best wishes for the success of the celebrations and events, and hopes that everyone enjoys them immensely.

 - (d) the Environmental Authorisations (Scotland) Regulations 2018 (S.S.I. 2018/219),
 clean, tissue-free shells of King scallops (*Pecten maximus*) and Queen scallops (*Aequipecten opercularis*) which satisfy the conditions in subsection (3) are to be treated as by-products (and accordingly are not waste) when placed on the market or transferred for a qualifying further use.
- (2) In this section, “by-product” has the meaning given by Article 5 of Directive 2008/98/EC on waste (the Waste Framework Directive), as that Article has effect in Scots law.
- (3) The conditions referred to in subsection (1) are that—
 - (a) the shells result from a production process, the primary aim of which is not the production of shells,
 - (b) further use is certain,
 - (c) the shells can be used directly without any further processing other than normal industrial practice, and
 - (d) the further use is lawful and the shells satisfy all relevant—
 - (i) product,
 - (ii) public health,
 - (iii) animal health, and
 - (iv) environmental protection,
 requirements applicable to that use.
- (4) For the purposes of subsection (3)(c), “normal industrial practice” includes—
 - (a) cleaning,
 - (b) drying,
 - (c) grading,
 - (d) physical size reduction, including crushing, and

- (e) comparable conditioning steps.
- (5) In this section, “clean, tissue-free shells” means shells—
 - (a) from which all animal tissue and organic matter have been completely removed, and
 - (b) that have been cleaned, processed and handled so as to prevent risks to animal or public health, having regard to Regulation (EC) No 1069/2009 and Commission Regulation (EU) No 142/2011, as those instruments have effect in Scots law.
- (6) Nothing in this section affects the status of shellfish shells with residual soft tissue or flesh attached, which remain Category 3 animal by-products and are subject to existing controls.
- (7) The temporary storage, handling and transport of shells that meet the definition in subsection (5), pending their sale, supply or transfer for a qualifying further use, does not, by reason only of such storage, handling, transport, sale or supply, require an authorisation under the Environmental Authorisations (Scotland) Regulations 2018, provided that—
 - (a) storage is limited to such period as is reasonably necessary to facilitate aggregation, marketing and transfer for a qualifying further use,
 - (b) the quantity stored at any one place is limited to that which is reasonably necessary having regard to the scale and seasonality of the production operation, the frequency of collections or onward transport, and the foreseeable demand for the intended qualifying further uses, and
 - (c) records are kept identifying the producer, the date(s) the shells became tissue-free, the quantities stored (by estimate if necessary), and the destination and intended qualifying further use.
- (8) In determining, for the purposes of subsection (7)(a) and (b), what is reasonably necessary, regard is to be had, among other matters, to—
 - (a) the scale and seasonality of landing or processing,
 - (b) the availability and frequency of collections and onward transport,
 - (c) the nature of the intended qualifying further uses and foreseeable market demand, and
 - (d) any relevant constraints arising from animal or public health, environmental protection or planning controls.
- (9) For the purposes of subsection (8)(c), “qualifying further use” includes, without limitation—
 - (a) soil improvement or conditioning,
 - (b) habitat restoration or enhancement (including marine and coastal projects),
 - (c) erosion control or shoreline protection,
 - (d) construction or landscaping applications,
 - (e) aquaculture or shellfish bed regeneration,
 - (f) ornamental, decorative or horticultural use, and
 - (g) educational, artistic or craft uses.
- (10) Placing on the market, sale or supply of shells for a qualifying further use does not, by reason only of such placing on the market, sale or supply, require an authorisation under the Environmental Authorisations (Scotland) Regulations 2018.

- (11) The Scottish Ministers may by regulations make further provision for the purposes of this section, including—
 - (a) standards and certification for cleaning and processing,
 - (b) record-keeping, traceability and labelling requirements, and
 - (c) conditions or limitations on use to protect the environment and public and animal health.
- (12) Before making regulations under subsection (11), the Scottish Ministers must consult—
 - (a) the Scottish Environment Protection Agency,
 - (b) the Animal and Plant Health Agency,
 - (c) Food Standards Scotland,
 - (d) local authorities, and
 - (e) such other persons as they consider appropriate.

Progress of Legislation

A list of all Bills in progress can be accessed via the website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
