**[S6M-20881](#) Dr Pam Gosal MBE: A Scotland-wide Ban on the Use of Mobile Phones in Schools**

—That the Parliament notes what it sees as the dangers that mobile phones and social media pose to children and young people, especially in relation to their physical and mental health; expresses concern regarding the potential safeguarding issues associated with the use of mobile phones, such as exposure to harmful content that is not age-appropriate; further expresses concern regarding reported studies that state that two in three 11- to 17-year-olds find it difficult to put down their phones, with teenagers spending, on average, five hours and 30 minutes each day on their smartphones, including four to five hours on social media, as well as research that reportedly found that one in five 16- to 18-year-olds say that social media has made them feel that "life is not worth living"; notes the calls for a Scotland-wide ban on the use of mobile phones on school premises; understands that schools across Scotland, including in the West Scotland region, and the rest of the UK that have implemented such bans have seen promising results, and that countries across Europe and around the world have taken extensive steps to limit the use of mobile phones in schools, and commends what it sees as the great work done by organisations such as Smartphone Free Childhood, Kids for Now, One Collective Power and Delay Smartphones, which are raising awareness of the potential dangers that come with mobile phone use.

**followed by Members' Business:** Jamie Halcro Johnston: Sustainability of Remote, Rural and Island Communities

**[S6M-20849](#) Jamie Halcro Johnston: Sustainability of Remote, Rural and Island Communities—**

That the Parliament recognises a special duty to ensure the long-term sustainability of Scotland's remote, rural and island communities; notes the view that addressing the needs of these communities requires policy that recognises and accommodates the particular circumstances of the Highlands and Islands region and other parts of remote, rural and island Scotland; acknowledges the challenges of delivering public services such as education, transport, local health and social care, policing and justice to areas with lower population density; believes that a range of local public services have been centralised or downgraded and no longer have a visible presence in many remote and rural communities; considers that the rural economy and rural businesses have faced unprecedented challenges in recent years with the farming and fishing sectors under real pressure and uncertainty, increased regulation impacting the visitor economy, and high streets and town centres struggling; believes that access to housing and affordable accommodation has become increasingly difficult in these communities, particularly for young people; recognises what it sees as the vital importance of connectivity to the prosperity of these communities, including preserving and expanding travel links by road, rail, sea and air and the need to plan for the future investment needs of essential infrastructure, and notes the view that building strong communities in all parts of Scotland will require a greater focus and consideration from across Scotland's public bodies. **R**

## Progress of Legislation

A list of all Bills in progress can be accessed via the website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 2.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.

Cabinet Secretary for Climate Action and Energy

At col 74, para 8, line 1—

#### Original text—

Developers can put forward their own plans, and their application will be judged on those plans, but they can also apply to the Scottish marine recovery fund. There is a strategic recovery fund for the whole of Scotland that will enable large-scale and strategic projects to take place.

#### Corrected text—

Developers can put forward their own plans, and their application will be judged on those plans, but they will also be able to apply to the Scottish marine recovery fund. This will be a strategic recovery fund for the whole of Scotland that will enable large-scale and strategic projects to take place.
