followed by Scottish Government Debate: Addressing the Climate Emergency

[S6M-00278](#) Michael Matheson: Addressing the Climate Emergency—That the Parliament agrees that addressing the twin climate and biodiversity crises remains a critical priority; recognises that the Scottish Government will continue to deliver action to support a green recovery from the COVID-19 pandemic, ensuring a just transition to net zero and a climate-resilient Scotland; agrees that this must be a shared and national endeavour by all sectors of the economy and society as a whole, and commits to working together, as Scotland prepares to welcome the world to Glasgow for COP26 and beyond, to restore nature and become a net zero nation.

The Presiding Officer has selected the following amendments

[S6M-00278.2](#) Liam Kerr: Addressing the Climate Emergency—As an amendment to motion S6M-00278 in the name of Michael Matheson (Addressing the Climate Emergency), insert at end “; recognises the importance of Scotland’s energy sector in delivering the transition; welcomes the UK Government’s North Sea Transition Deal, and calls on the Scottish Government to work collaboratively and constructively with the sector to support businesses through the transition.”

[S6M-00278.1](#) Monica Lennon: Addressing the Climate Emergency—As an amendment to motion S6M-00278 in the name of Michael Matheson (Addressing the Climate Emergency), insert at end “; agrees that progressing a Circular Economy Bill must be an urgent priority; commends children and young people in Scotland who have raised awareness about these twin crises and campaigned positively for the shift to net zero, and supports their calls for the embedment of climate justice education throughout the curriculum as part of learners’ entitlement to Learning for Sustainability.”

[S6M-00278.3](#) Mark Ruskell: Addressing the Climate Emergency—As an amendment to motion S6M-00278 in the name of Michael Matheson (Addressing the Climate Emergency), insert at end “; notes the 166 recommendations made by four parliament committees to improve the Climate Change Plan, including necessary changes to land use, transport, energy and housing policy; recognises the need for urgent and transformational change in these sectors to deliver on Scotland’s climate commitments, and calls on the Scottish Government to bring forward a revised Climate Change Plan early in the current parliamentary session, demonstrating a credible pathway to achieving the 2030 target.”

[S6M-00278.4](#) Alex Cole-Hamilton: Addressing the Climate Emergency—As an amendment to motion S6M-00278 in the name of Michael Matheson (Addressing the Climate Emergency), insert at end “; recognises that rapidly reducing emissions in the transport sector will be critical to Scotland meeting its 2030 and 2045 targets; considers that achieving sustainability will require the acceleration of work, including the opening of new railway lines and stations, establishing a network of well-maintained rapid chargers for electric vehicles and additional support to rapidly increase active travel, and believes that, as an indication of its commitment to sustainability, the Scottish Government should immediately withdraw from its written agreement with Heathrow

Airport to support the building of a third runway, which is incompatible with the climate emergency."

***[S6M-00292](#) Stuart McMillan: Inverclyde Boiler Company on Tree Planting Mission**—That the Parliament commends the Inverclyde Boiler Company for pledging to plant a tree for every boiler fitted; understands that Shayne Stride, who runs the company, will provide funding for the trees, which will be planted by volunteers; notes that 50 dwarf apple trees will be planted in Inverclyde to help kick start the project, with 25 at Coves Community Nature Reserve, and 25 at the walled garden in Gourrock Park; appreciates that every customer who has a boiler fitted in the Inverclyde Boiler Company's peak season will receive a certificate that shows where their tree will be planted; believes that Shayne's gesture will help to offset the carbon emissions created by the gas boilers his company installs, as trees absorb carbon dioxide as they grow, and hopes that the project will encourage other businesses in Inverclyde to consider how they can help Scotland reach its ambitious environmental targets.

***[S6M-00290](#) Pauline McNeill: Refugee Festival Scotland 2021**—That the Parliament warmly welcomes the Refugee Festival Scotland 2021, which again promises to be an inspiring and diverse series of online events, from 14 June until World Refugee Day on 20 June, spanning arts and crafts, literature and poetry, dance, political activism, and a range of family friendly sessions with, and for, children, with a thread through them all of bringing people together in the best traditions of the festival; applauds the resilience and courage of the refugee communities, groups and individuals, in contributing to their new communities across the country, helping neighbours to get through the public health emergency together and to come out with stronger relationships than before the COVID-19 pandemic; notes with concern the apparent hardening of the hostile environment, with the UK Government's new plan for immigration reportedly imperilling the right to seek refugee protection, on the 70th anniversary of the Refugee Convention, and resolves to stand together with refugees.

***[S6M-00262](#) John Mason: Proven or Not Proven**—That the Parliament notes the debate around the current three verdict system in Scotland, and the suggestion that this has led to low conviction levels and confusion for jurors; acknowledges that the campaign to remove the "not proven" verdict from the Scottish legal system; suggests that within the debate surrounding the review of the three verdict system, the option of "proven" and "not proven" as the two available verdicts should be included; understands that a study conducted by the Open University of lawyers in Scotland found preference for "proven" and "not proven," as opposed to "guilty" and "not guilty"; considers that in a court of law it is the purpose of the Crown to prove the case or not, and further considers that having the two options being "proven" and "not proven" is a more honest description of what is happening in a court of law.

***[S6M-00258](#) Kenneth Gibson: The Syrian Civil War – 10 Years of Misery**—That the Parliament acknowledges with sorrow the 10th anniversary of the start of the Syrian civil war, which began when pro-democracy protests in the southern city of Deraa in 2011, inspired by uprisings in neighbouring countries, were reportedly ruthlessly and murderously suppressed by Syrian Government forces; understands that the conflict grew into a many-sided one, involving numerous foreign powers, with tragic consequences for Syria's people; is aware that the Syrian Observatory for Human Rights reportedly documented the deaths of 387,118 people by December 2020, the majority of whom it understands were innocent civilians, often barbarously slain by a bewildering array of ordnance, including barrel bombs and chemical weapons; considers that the documented death toll does not include the estimated 205,300 people who are missing, have disappeared and are presumed dead, with many believed to have perished following torture in state-run prisons; believes that what it considers to be the unelected Syrian President's forces are responsible for the vast majority of casualties; further understands that more than 2.1 million civilians have reportedly suffered conflict-related injuries or permanent disabilities, rape and trauma, while more than half of Syria's pre-war population of 22 million has been forced to flee their homes; further considers that much of Syria's rich cultural heritage has also been destroyed, including the ancient city of Palmyra, which was reportedly partially blown up by so-called Islamic State militants; backs a total ceasefire to prevent the further loss of human life, and to allow externally displaced people and refugees to return to their homes and rebuild a shattered country with much of its infrastructure gone along with a reported 70% of its economy; expresses its sympathy to everyone affected by this protracted conflict, and calls on the international community to prioritise ending this brutal, tragic and ongoing conflict.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
