followed by Scottish Government Debate: A Person Centred Approach to Mental Health and Substance Abuse

**S6M-01761 Angela Constance: A Person Centred Approach to Mental Health and Substance Abuse**—That the Parliament recognises the importance of ensuring a person-centred approach to supporting those with substance use and mental health needs; welcomes the investment of £250 million into the national drug mission and the £120 million Mental Health Recovery and Renewal Fund; supports the development of better working links between mental health and substance use services; recognises the need to embed cultural change to address stigma and include a trauma-informed approach; considers that treatment and assistance should be offered from the first point of contact and consistently throughout each person's journey; notes that, when required, outreach services are available to support people to stay in treatment and that services are designed to ensure that this can happen, and recognises that people may also experience multiple and severe disadvantages, such as homelessness and poverty, which require substance use and mental health services to engage other services.

The Presiding Officer has selected the following amendments

**S6M-01761.2 Sue Webber: A Person Centred Approach to Mental Health and Substance Abuse**—As an amendment to motion S6M-01761 in the name of Angela Constance (A Person Centred Approach to Mental Health and Substance Abuse), insert at end “; notes that people cannot easily get access to the vital mental health or addiction treatment that they need; recognises that Scotland went into this pandemic with a pre-existing mental health crisis, with people seeking mental health treatment being forced to wait far too long for help; believes that progress in the rehabilitation and treatment of addiction in Scotland has been too slow, and calls for a legal right to recovery to tackle Scotland's ongoing drug deaths crisis.”

**S6M-01761.3 Claire Baker: A Person Centred Approach to Mental Health and Substance Abuse**—As an amendment to motion S6M-01761 in the name of Angela Constance (A Person Centred Approach to Mental Health and Substance Abuse), leave out from “that, when required” to “this can happen, and” and insert “with concern that, in 2019-20, there were 14,976 drug-related hospital stays in Scotland, 13,791 (92%) of which included a drug-related mental and behavioural diagnosis, and in the same year the rate of drug-related mental and behavioural stays was more than three times higher than the rate in 1997-98; agrees that those admitted to hospital, treated in A&E or at the scene by the Scottish Ambulance Service need to be linked up with appropriate community-based services to ensure they get the help and support they need to address the underlying drivers of their substance use; regrets that mental health services have been under-resourced for too long with unacceptable waiting times delaying treatment; recognises that outreach services are essential in supporting people to stay in treatment, but considers that more

provision is required across Scotland, and that universal counselling services, such as Drugs, Alcohol and Psychotherapies Limited (DAPL) in Fife, must be more widely available to support people in recovery, and further".

**S6M-00917 Clare Adamson: UK Malnutrition Awareness Week 2021, Malnutrition in Older People**

—That the Parliament acknowledges UK Malnutrition Awareness Week 2021; notes that the annual initiative, which was launched by BAPEN and Malnutrition Taskforce, will take place between 11 and 17 October; believes that malnutrition, which is also known as undernutrition, is a substantial public health issue, with one in 10 older people in Scotland being at risk of, or living with, the condition; recognises that research from projects such as Eat Well Age Well (Food Train) indicates that this figure might be an underestimate, with an estimated 30% of older people at risk; believes that measures such as screening and early intervention, training for health and social care professionals, investment in community initiatives that address social isolation and policies that take account of the differences between food poverty and food insecurity, are integral to addressing malnutrition in older people; understands the continuing challenges faced by older people across Scotland who are at risk of malnutrition with isolation, which has been exacerbated by the COVID-19 pandemic, being a contributory factor; further understands the unprecedented and sustained demand on health and social care services and third sector organisations since the onset of the pandemic; notes the view that addressing malnutrition in older people is a matter of national importance both as a moral imperative and an issue that puts avoidable strain on the country's health and social care services; further notes calls for the Scottish Government do everything in its power to ensure that everyone has reliable access to nutritious, culturally-appropriate and affordable food, as recommended by the Social Renewal Advisory Board in its January 2021 report, *If not now, when?*; commends the work of food policy organisations, such as the charity, Food Train, and dedicated volunteers, in advancing this issue, and wishes everyone involved with UK Malnutrition Awareness Week every success.
