Debate on the subject of—

[S6M-03777](#) Bob Doris: MND Scotland Report, No Time to Lose: Addressing the Housing Needs of People with MND—That the Parliament welcomes the MND Scotland report, *No time to lose: Addressing the housing needs of people with MND*, which outlines the challenges that people with MND, including those in the Glasgow Maryhill and Springburn constituency, face when trying to obtain the accessible home that they need through adaptations or an alternative accessible property; understands that MND is a rapidly progressing terminal neurological disease, which can cause those with the illness to lose the ability to walk, talk, eat, drink or breathe unaided, with the average life expectancy being just 18 months from diagnosis; acknowledges that many waiting lists for adaptations and alternative accessible homes are reportedly too long for people with MND with, it understands, some longer than the average life expectancy with the illness; believes that this can leave people with MND unable to spend the precious time that they have left safely and with the dignity that everyone is entitled to, and that, for some, support never comes in time; understands that speed in service provision is critical for people with MND, and notes the expectation that the Scottish Government and local authorities will give meaningful and early consideration to implementing the report's various recommendations, which include fast-tracking people with MND for adaptations and accessible homes, a proactive, not reactive, approach to adaptations, establishing a national definition of accessible housing, and building more wheelchair accessible housing across Scotland.
