followed by Scottish Conservative and Unionist Party Business: National Care Service Viability

[S6M-06523](#) Craig Hoy: National Care Service Viability—That the Parliament notes the significant cross-party and cross-sectoral concern about the monumental risks involved in the creation of a National Care Service; warns that the financial memorandum to the Bill estimates that the creation of the service could cost up to £1.3 billion over five years and questions the accuracy of the Scottish Government's estimates currently before the Parliament; raises concern about the rationale for creating a National Care Service through major structural reform at a time when social care is in crisis; acknowledges the considerable concerns from local government, trades unions and other industry stakeholders about the potential negative impacts of centralisation; believes that better value for money and better patient care will be achieved by directing investment into frontline provision and staffing rather than reorganisation, and calls for the creation of a Local Care Service focussed on better local delivery, underpinned by a local care guarantee.

The Presiding Officer has selected the following amendments

[S6M-06523.3](#) Kevin Stewart: National Care Service Viability—As an amendment to motion [S6M-06523](#) in the name of Craig Hoy (National Care Service Viability), leave out from "notes" to end and insert "that the experience of the COVID-19 pandemic highlights the imperative for the National Care Service (NCS) to end the postcode lottery in the provision of adult social care; believes that there must be a rights-based, user-led approach to social care with consistent and fair access to high-quality care and support; further believes that the NCS should embed ethical commissioning that promotes fair work and climate change ambitions; recognises that the key consideration is how improvements are made for people who rely on the services of the NCS; welcomes that the NCS will be shaped by co-design and that services will be delivered locally; supports the creation, in line with the recommendation of the Independent Review of Adult Social Care, of a system of national collective bargaining on pay, terms and conditions within the social care sector and for workforce representatives, such as trade unions, to be involved in the governance of the service, including through full membership of Local Care Boards; notes that, in establishing the NCS, including any transfer of financial resources from local authorities to reformed integration boards, the Scottish Government should take into consideration the impact on local authorities' ability to resource and deliver other services; understands that the UK Government's mismanagement of the economy has heaped more pressure on care providers who were already adversely affected by the consequences of Brexit, and recognises the importance of local authorities, health boards, and the Scottish Government working constructively together to deliver improvements to social care in the interim, while mitigating the impact of the UK Government's actions."

[S6M-06523.2](#) Jackie Baillie: National Care Service Viability—As an amendment to motion [S6M-06523](#) in the name of Craig Hoy (National Care Service Viability), leave out from "raises

concern” to end and insert “; recognises that Scottish Labour first proposed a National Care Service over a decade ago with the aim of improving national standards for social care, while also supporting local delivery and accountability; regrets that, instead, the Scottish Ministers have published a bill that is completely lacking in a vision for a National Care Service; acknowledges the serious concerns from local government, trades unions and other stakeholders about the potential negative impacts of centralisation; considers that meaningful reform should focus on changing culture and not structures, so that care users are treated with dignity and staff are valued as skilled professionals; believes that the immediate priority must be to address the current challenges in social care, and calls on the Scottish Government to pause the bill and take stock, and urgently deliver on the recommendations in the Feely Review, including ending non-residential care charges, and to tackle poverty pay in the sector, in the midst of the cost of living crisis.”

followed by Scottish Conservative and Unionist Party Business: Essential Road Improvements

[S6M-06520](#) Graham Simpson: Essential Road Improvements—That the Parliament notes with alarm the number of recent fatalities on the A9 and A96; recognises the pain that these tragedies have caused families; believes that fully dualling both roads could lead to a significant improvement in road safety as well as helping the economy; notes the SNP administration's previous commitment to fully dual the A9 between Perth and Inverness and the A96, and calls on the Scottish Government to set out when these vital works will be completed.

The Presiding Officer has selected the following amendments

[S6M-06520.2](#) Jenny Gilruth: Essential Road Improvements—As an amendment to motion S6M-06520 in the name of Graham Simpson (Essential Road Improvements), leave out from “believes that” to end and insert “and indeed the pain caused by all fatalities and serious accidents across Scotland’s road network; acknowledges that Transport Scotland is working with Police Scotland and partner agencies to understand the circumstances of recent accidents; notes that, as investigations continue, it would be inappropriate for the Parliament to comment on individual cases further; agrees that road safety is paramount and, while the Scottish Government is investing record amounts in road safety to help meet the long-term goal of zero fatalities and injuries on Scotland’s roads by 2050, there is more to do with short-term measures to address specific safety issues on trunk roads like the A9 and A96; acknowledges the investment of £400 million to date for dualling the A9 between Perth and Inverness and that work is continuing across the A9, and notes the Scottish Government’s commitment to take forward a transport enhancements programme on the A96 corridor and that the review of the programme to fully dual the A96 will report by the end of the year.”

[S6M-06520.1](#) Neil Bibby: Essential Road Improvements—As an amendment to motion S6M-06520 in the name of Graham Simpson (Essential Road Improvements), insert at end “, and further calls on the Scottish Government to urgently publish the final Strategic Transport Projects Review (STPR) 2 Report and a clear Delivery Plan for active travel, bus, ferry and rail infrastructure projects, including investment in roads across Scotland that has due regard to road safety, journey times, economic and community development and climate impact, and clear actions to reverse the decline in public transport, which has seen significant cuts to both rail and bus services in Scotland.”

Motions for Debate

***[S6M-06572](#) Ben Macpherson: Progress on the Automation and Take-up of Scottish Social Security Benefits**—That the Parliament welcomes the positive impact that existing automation of Scottish social security payments is having, including ensuring that most eligible people receive the Child Winter Heating Assistance and Carer's Allowance Supplement without needing to apply; further welcomes the proposal to automate the Best Start Grant Early Learning Payment and Best Start Grant School Age Payment for eligible families in receipt of Scottish Child Payment by the end of November 2022; notes the Scottish Government's intention to continue exploring opportunities for further automation; believes that these changes will mean that more people get the benefits that they are entitled to, which is especially important at a time of increasing economic uncertainty; recognises the progress made in promoting Scottish benefit take-up since the publication of the second benefit take-up strategy in 2021, including the launch of an independent advocacy service and funding welfare rights advisors in up to 180 GP practices in Scotland's most deprived areas, as well as remote and rural areas; acknowledges that there is still work to do regarding both automation and take-up, and agrees, therefore, that all governments should ensure that people are aware of, and enabled to access, the financial support that they are eligible for and entitled to.

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at [Proposals for Members' Bills/Session 6 Proposals](#):

[Proposals for Bills – Scottish Parliament | Scottish Parliament Website](#)

A consultation document, lodged with the proposal, may be viewed in the Scottish Parliament Information Centre (SPICe) or on the website page referred to above. The consultation period runs from 2 November 2022 to 2 February 2023.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
