4. **Taxi and Private Hire Car Licensing**

You may respond to all questions or only those you have a specific interest in. (Text boxes have no word limit, they will increase in size accordingly).

35. **What benefits should the licensing of taxis and private hire cars deliver for customers?**

   - Safety
   - Accessibility
   - Value for Money

36. **In what ways do customers, providers of taxi/private hire car services and local authorities benefit from the two-tier licensing regime for taxis and private hire cars?**

   There is no obvious benefit for customers and/or the local authority

37. **The Government states that a radical overhaul of the current two-tier licensing regime would “clearly require a very high level of resource and would cause significant disruption for the trade, local authorities, the police and ultimately the travelling public”. What are your views on this and would the potential costs and disruptions outweigh any potential benefits of a unified system?**
There may be initial disruption in terms of the administration / resourcing a overhaul/ the trade activities. However, a 1 tier system is an efficient outcome as it would streamline legislation and processes. There is also a beneficial practical effect on the public for hiring a taxi and perhaps an economic benefit.

38. Do the changes made by sections 60 (overprovision of private hire car licences) and 61 (testing of private hire car drivers) of the Bill strike the right balance in terms of introducing greater consistency while maintaining justifiable differences?

The above provisions in traduce consistency and get rid of unjustifiable differences.

39. Do you have any views on the section 62 provisions bringing vehicles contracted for exclusive use for 24 or more hours within the licensing regime for taxis and private hire cars, and should any exemptions be included in the Bill?

This is a proposal that would be welcomed (in terms of licensing) but may put a further strain on resourcing.
