Dear Sheenagh

Environment, Climate Change and Land Reform Committee

It was a pleasure to meet with you and your team at Meadowbank House in May to hear about the 17 public registers under your control. I know that Members found the presentations incredibly helpful, particularly in relation to your work to complete the Land Register of Scotland. While it is clearly a challenging task, we were impressed by the range of measures you are employing in order to meet the 2024 deadline.

You may remember that I was particularly keen to ensure that public sector bodies meet the requirement to register their land by 2019. Since then, the Committee has agreed to write, in the first instance, to all local authorities and Health Facilities Scotland to enquire about the progress of local authorities and health boards in registering their properties. We will of course keep you informed of their responses.

In the meantime, can I thank you again for meeting with the Committee and helping us to get a better understanding of your work.

Yours sincerely,

Graeme Dey MSP
Convener
Environment, Climate Change and Land Reform Committee
