Dear Amanda,

Environment, Climate Change and Land Reform Committee Inquiry into the Environmental Impacts of Salmon Farming

Thank you for your correspondence of 30 April 2018 in which you responded to several queries arising from the Environment, Climate Change and Land Reform Committee work on the environmental impacts of salmon farming.

The Committee has considered your response and notes that the following queries have not been addressed:

- How in practice APHA works with fish farms; and
- Is there a requirement for fish farms to advise when a disposal is to take place and if so what happens next in practice?

On behalf of the Committee, I request a response to this letter by 20 June 2018. I look forward to hearing from you.

Yours sincerely,

Graeme Dey MSP
Convener
Environment, Climate Change and Land Reform Committee
