July 2020

I am writing to you in your capacity as convener of the Health and Sport Committee to inform you that the Scottish Government will today publish the guidance “Test and Protect – Multi-sector guidance on collection of customer and visitor contact details – July 2020”. The guidance comes into effect from 15 July and is a tool to support customer and visitor data gathering for businesses and other establishments in Scotland where the nature of the premises means there may be an increased risk of transmission of COVID-19. The collection of this additional data by premises will support Test and Protect, one of the range of public health measures we have deployed in order to ensure low levels of community transmission of COVID-19.
