

**PUBLIC PETITIONS COMMITTEE CONSIDERATION OF PE1628
QUESTIONS/ISSUES ARISING FROM COMMITTEE MEETINGS**

THURSDAY 2 FEBRUARY 2017

Scottish Government –

- What is your view on the petition?
- Would it be beneficial for the Scottish Government to provide greater clarity on when a decision may be deemed to be a major or minor service change and what criteria could be specified to provide greater clarity in guidance to integration authorities in this regard?
- What is your view on how the individual or local impact of broader changes to health and social care service delivery should be managed by integration authorities?
- How is the Scottish Government monitoring the effectiveness of the guidance on public consultation under the integrated health and social care framework?
- What consideration has been given to harmonising the guidance and advice relating to public consultation developed to support the Public Bodies (Joint Working) (Scotland) Act 2014 with the advice and guidance to health boards in the Chief Executive Letter CEL 4 (2010)?
- What is your view on the petitioner's proposed changes to existing guidance to integration authorities on ensuring that public consultation takes place before a decision is made; specifying that the integration authority's plan for the consultation process must be published so that individuals and bodies with an interest understand and can engage in that process; and providing greater guidance on how to engage with vulnerable groups.
