

**SOCIAL SECURITY COMMITTEE
SOCIAL SECURITY (SCOTLAND) BILL
SUBMISSION FROM SHETLAND ISLANDS COUNCIL**

16th August 2017

1. The Bill aims to provide a framework for the creation of the Scottish social security system. In addition the Scottish Government has chosen to put most of the rules about the new benefits in Regulations. It believes that putting the rules in Regulations will make things clearer and less confusing. Parliament cannot change Regulations, only approve or reject them. The Scottish Government intends to develop Regulations with external help.

Q. Do you have any views on this approach?

No.

2. The Bill proposes that the Scottish social security system will be based on the following seven principles:

- Social security is an investment in the people of Scotland.
- Social security is a human right. It is essential to accessing other human rights.
- Respect for the dignity of individuals is at the heart of the Scottish social security system.
- The Scottish Government has a role in making sure that people are given the social security assistance they are eligible for.
- The Scottish social security system will be designed with the people of Scotland, and based on evidence.
- The Scottish social security system should always be trying to improve. Any changes should put the needs of those who require social security first.
- The Scottish social security system is efficient and delivers value for money.

Q. What are your views on these principles and this approach? Please explain the reason for your answer.

Valid principles and approach.

Q. Are there other principles you would like to see included?

No.

3. The Bill proposes that there will be a publicly available social security 'charter'. This will say how the Scottish Government will put the seven principles above into practice. It will also say what is expected from people claiming benefits. A report on the charter will be produced by the Scottish Government each year.

Q. Do you agree with the idea of the charter? Please explain the reason for your answer.

Q. Is there anything specific you would like to see in this charter?

No specific view in this area.

4. The Bill proposes rules for social security which say:

- how decisions are made and when they can be changed
- how to apply and what information people have to provide
- how decisions can be challenged
- when overpayments must be repaid
- what criminal offences will be created relating to benefits.

Q. Do you have any comments on these rules?

It is essential that people who are eligible for social security, the people that may support them, and the people administering it have full clarity on the above. The current level of flexibility in applying the Scottish Welfare Fund leads to challenges in ensuring fair delivery.

5. The Scottish Government will take over responsibility for some current benefits. The Bill does not explain how they will work in detail. This will be set out in Regulations at a later date. The current benefits which will be run by the Scottish Government are:

- disability assistance (including disability living allowance, personal independence payment, attendance allowance and severe disablement allowance)
- carer's allowance
- winter fuel payments
- industrial injuries disablement benefit
- cold weather payments
- funeral payments
- sure start maternity grants

Q. What are your thoughts on the schedules in the bill in regard to these benefits?

Specifically:

Cold-spell heating assistance: the schedule is fine, and the proposal to give full consideration to the recommendations of the Rural Fuel Poverty Task Force is welcomed.

Winter heating assistance: the schedule is fine, and the proposal to give full consideration to the recommendations of the Rural Fuel Poverty Task Force is welcomed.

6. The Bill proposes that a new type of short-term assistance will be introduced. This will be for someone who is challenging a decision to stop or reduce a Scottish benefit.

Q. What are your views on this proposal?

This is a positive change.

7. The Bill includes the power for the Scottish Government to be able to top up 'reserved' benefits (ones controlled by the UK Government), but does not say how these will be used. The Scottish Government also has the power to create new benefits. This is not included in the bill.

Q. Do you agree with these proposals?

This is a positive change.

8. The Bill proposes that carer's allowance should be increased as soon as possible to the level of jobseeker's allowance (from £62.10 to £73.10 a week).

Q. What are your thoughts on this proposal?

This is a positive change.

9. The Bill proposes that discretionary housing payments continue as they are. They will still be paid by local authorities. The Bill does not require any local authority to have a discretionary housing payments scheme but if they do, they must follow Scottish Government guidance on running it.

Q. Do you agree that discretionary housing payments should continue largely as they are?

Q. Do you have any other views on the proposals for discretionary housing payments?

DHP should continue largely as they are. Welcome the comment that LA's must follow Scottish Government guidance rather creating their own scheme/criteria, which in theory happens at the moment; this will hopefully create a consistent approach nationwide.

10 Q. Is there anything else you want to tell us about this Bill?

It is positive to see specific consideration of Island Communities, and the Council is pleased to be continuing to work with the Scottish Government on this new legislation and implementation.
